## APPLICATION OF COLGATE OPERATING, LLC TO AMEND ORDER NO. R-22218, EDDY COUNTY, NEW MEXICO.

CASE NO. 23758 ORDER NO. R-22218

#### SELF-AFFIRMED STATEMENT OF MARK HAJDIK

1. I am a Senior Landman at Permian Resources Operating, LLC ("Permian Resources") and am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division"), and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. I am familiar with the land matters involved in this case. Copies of the application and proposed hearing notice are attached as **Exhibit A-1**.

No party has indicated opposition to this matter proceeding by affidavit, therefore
 I do not expect any opposition at hearing.

4. Permian Resources is a newly formed company, which is the result of a merger between Centennial Resource Development, Inc. and Colgate Energy Partners III, LLC.

5. On August 29, 2022, the Division entered Order No. R-22218 ("Order") in Case No. 22669. The Order pooled all uncommitted interests in the Wolfcamp formation (East WC Burton Flat East, Upper Wolfcamp Pool (Code 98315)) underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 N/2 of Sections 35 and 36, Township 19 South, Range 28 East, Eddy County, New Mexico. The Order further dedicated the Unit to the Uluru 35 Fed State Com 201H well (API No. 30-015-49654) ("Well").

6. A copy of the Order is attached as **Exhibit A-2**.

Colgate Operating, LLC Case No. 23758 Exhibit A 7. Since entry of the Order, Colgate has determined that the Well will produce from the Winchester; Wolfcamp (Gas) Pool (Code 87760). As a result, Colgate seeks to amend Order No. R-22218 to form a 640-acre, more or less, standard horizontal spacing unit comprised of the N/2 of Sections 35 and 36, Township 19 South, Range 28 East, Eddy County, New Mexico and pool uncommitted interests in the Wolfcamp formation underlying the Unit.

8. **Exhibit A-3** provides a plat of the tracts included in the Unit, identifies the interests in each tract, and identifies the pooled interests, which are highlighted in yellow.

9. Exhibit A-4 is a sample well proposal letter and AFEs that I sent to the parties to be pooled under the terms of the Order. Exhibit A-6 is a copy of the C-102 for the Well.

10. In my opinion, Colgate made a good-faith effort to reach voluntary joinder as indicated by the chronology of contact described in **Exhibit A-5**.

11. In my opinion, the granting of Colgate's application would serve the interests of conservation and prevention of waste.

12. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

13. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and it made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my

signature below. Mark Hajdik

## APPLICATION OF COLGATE OPERATING, LLC TO AMEND ORDER NO. R-22218, EDDY COUNTY, NEW MEXICO.

CASE NO. 23758 ORDER NO. R-22218

#### **APPLICATION**

Pursuant to NMSA 1978, Section 70-2-17, Colgate Operating, LLC ("Colgate") (OGRID No. 371449) files this application with the Oil Conservation Division ("Division") seeking an order: (1) amending Order No. R-22118 to establish a 640-acre, more or less, standard horizontal spacing unit comprised of the N/2 of Sections 35 and 36, Township 19 South, Range 28 East, Eddy County, New Mexico ("Unit"); and (2) pooling uncommitted interests in the Wolfcamp formation underlying the Unit. In support of this application, Colgate states the following.

1. On August 29, 2022, the Division entered Order No. R-22218 ("Order") in Case No. 22669. The Order pooled all uncommitted interests in the Wolfcamp formation (East WC Burton Flat East, Upper Wolfcamp Pool (Code 98315)) underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 N/2 of Sections 35 and 36, Township 19 South, Range 28 East, Eddy County, New Mexico. The Order further dedicated the Unit to the Uluru 35 Fed State Com 201H well (API No. 30-015-49654) ("Well").

2. Since entry of the Order, Colgate has determined that the Well will produce from the Winchester; Wolfcamp (Gas) Pool (Code 87760). As a result, Colgate seeks to amend Order No. R-22218 to form a 640-acre, more or less, standard horizontal spacing unit comprised of the N/2 of Sections 35 and 36, Township 19 South, Range 28 East, Eddy County, New Mexico and pool uncommitted interests in the Wolfcamp formation underlying the Unit.

Colgate Operating, LLC Case No. 23758 Exhibit A-1 3. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Well but has been unable to obtain voluntary agreements from all interest owners.

4. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 7, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Amending Order No. R-22218 to establish a 640-acre, more or less, standard horizontal spacing unit comprised of the N/2 of Sections 35 and 36, Township 19 South, Range 28 East, Eddy County, New Mexico;
- B. Pooling all uncommitted interests in the Unit;
- C. Designating Applicant as the operator of the Unit and the horizontal Well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping, and completing the Well;
- E. Approving the actual operating charges and costs of supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the Well against any working interest owner who does not voluntarily participate in the drilling of the Well.

The locations, TVDs, and targets are approximate and subject to change dependent on surface or subsurface issues encountered. Colgate is proposing to drill these wells under the modified terms of the 1989 AAPL Operating Agreement and a form of said Operating Agreement is available upon request. The Operating Agreement has the following general provisions:

- -100%/300%/300% non-consent provisions
- \$8,000/\$800 drilling and producing rates
- Colgate Operating, LLC named as Operator

Please indicate your election to participate in the drilling and completion of the proposed wells in the space provided below. Please sign and return one copy of this letter, a signed copy of the previously proposed AFE, and your geologic well requirements.

In the interest of time, should we not reach an agreement within thirty (30) days of the date of your receipt of this letter, Colgate will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed well. If you do not wish to participate, Colgate would be interested in acquiring your interest in the subject lands which is subject to further negotiation.

Thank you for your time and consideration, if you have any questions at all, please don't hesitate to contact me at 432.357.3886 or by email at mhajdik@colgateenergy.com.

February 2, 2022 – Initial proposals sent for the Uluru 35 Wells

February 2022 – The following actions were taken for bad delivery or unknown parties

- Throughout the month of February non deliverable proposals were resent to additional addresses
- Colgate utilized a number of resources to locate parties or new addresses
  - Employed land brokers to research online and county records
  - Utilized idiCore which is an subscription based online investigative search tool to locate last known addresses and other information about parties
  - Searched obituaries to identify possible heirs to send notice to
  - Searched Secretary of State website for details regarding entities that had bad delivery or were not locatable

**February 2022** – Galkay elected to non consent the proposals. Responded to several inquires via email and telephone, but no further response from the WI owners once their initial questions were answered.

**April 2022** – Several parties as noted to not force pool have signed JOAs and are prepared to participate. Ellie and Kenneth Garrett have agreed to sell, we are currently finalizing their purchase.

**February 2022 to present** – A number of parties have not responded to the proposals that were received and several parties were completely unlocatable.

# APPLICATION OF COLGATE OPERATING, LLC TO AMEND ORDER NO. R-22218, EDDY COUNTY, NEW MEXICO.

#### CASE NO. 23758 ORDER NO. R-22218

#### SELF-AFFIRMED STATEMENT OF CHRISTOPHER CANTIN

I am a geologist with Permian Resources Operating, LLC ("Permian Resources").
 I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement.

2. Permian Resources is a newly formed company, which is the result of a merger between Centennial Resource Development, Inc. and Colgate Energy Partners III, LLC.

3. I am familiar with the geological matters that pertain to the above-referenced case.

4. **Exhibit B-1** is a regional locator map that identifies the Uluru project area, in proximity to the Capitan Reef within the Delaware Basin, for the Wolfcamp horizontal spacing units that are the subject of these applications.

5. **Exhibit B-2** is a cross section location map for the proposed horizontal spacing unit ("Unit") within the Wolfcamp formation. The approximate wellbore path for the proposed Uluru 35 Fed State Com 201H well ("Well") is represented by dashed lines. Existing producing wells in the targeted interval are represented by solid lines. This map identifies the cross-section running from A-A' with the cross-section wells name and a black line in proximity to the proposed Wells and the proposed spacing unit as a solid blue line.

6. **Exhibit B-3** is a Subsea Structure map on the Wolfcamp formation in TVD subsea with a contour interval of 50 ft. The map identified the approximate wellbore path for the proposed

### Exhibit B (Case No. 23758)

Well with a red dashed line and the proposed spacing unit as a solid blue line. It also identifies the location of the cross-section running from A-A' in proximity to the proposed Well. The data points are indicated by red triangles. The map demonstrates the formation is gently dipping to the east-southeast in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells.

7. **Exhibit B-4** is a stratigraphic cross-section from A to A' using the representative wells identified on Exhibit B-2. It contains gamma ray, resistivity, and porosity logs. The cross section is oriented from west to east and is hung on the top of the Wolfcamp formation. The proposed landing zone for the Well is labeled on the exhibit. The approximate well-path for the proposed Well is indicated by dashed lines to be drilled from west to east across the units. This cross-section demonstrates the target intervals are continuous across the Unit.

8. **Exhibit B-5** is a gun barrel diagram that shows the Uluru 35 Fed State Com 201H well in the Wolfcamp formation. The proposed spacing unit is shown as a blue dashed line.

9. In my opinion, a lay down orientation for the Well is appropriate to properly develop the subject acreage because of consistent rock properties throughout the Unit and is the preferred fracture orientation in this portion of the trend.

10. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Well.

11. In my opinion, the granting of Colgate's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

12. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.

13. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
