APPLICANT’S STATEMENT OF THE CASE

In Case No. 23910, Devon seeks an order pooling all uncommitted mineral interests in the Wolfcamp formation, designated as an oil pool, underlying a standard 960-acre, more or less, spacing and proration unit comprised of the S/2 of Sections 1, 2 and 3, Township 21 South, Range

27 East, NMPM, Eddy County, New Mexico. Sections 1, 2, and 3 are irregular sections containing correction lots.

Devon proposes and dedicates to the unit the **Burton Flat 3-1 Fed State Com 624H Well**, the **Burton Flat 3-1 Fed State Com 626H Well**, and the **Burton Flat 3-1 Fed State Com 826H Well**, as the initial wells, to be drilled to a sufficient depth to test the Wolfcamp formation.

The **Burton Flat 3-1 Fed State Com 626H Well** and **Burton Flat 3-1 Fed State Com 826H Well** are orthodox in their locations, and their take points and completed intervals comply with setback requirements under statewide rules; however, the **Burton Flat 3-1 Fed State Com 624H Well** is unorthodox in its location, and its take point and completed interval does not comply with setback requirements under statewide rules.

Devon will seek administrative approval for the non-standard location (“NSL”) of the **Burton Flat 3-1 Fed State Com 624H Well**.

No protests or objections have been filed and Devon does not anticipate any at this time; consequently, Devon plans to conduct the hearing by affidavit or self-affirmed statements.
