*Part I*

*Part II*

- (a) Attachment C is a table showing the production for both horizontal and vertical offsets neighboring the proposed Sandlot spacing unit targeting the Wolfcamp formation, the primary formation under consideration. The better vertical producers are actually commingled from multiple zones from the 1<sup>st</sup> Bone Spring thru the Wolfcamp.
- (b) Attachment D is a production plot showing the average horizontal production performance of the same set of Mewbourne wells, along with a type curve used in an economic analysis. Production results have been very consistent.
- (c) Attachment E is the economic comparison, which displays the drastic differences in vertical and horizontal developments to achieve the same estimated ultimate recovery within the same spacing unit. Because no AFE was provided to Mewbourne, an estimate from recent field pricing was used for the vertical well cost. Horizontal development is clearly the more efficient and responsible way to develop the acreage and conserve surface use.
- (d) These methods are equally applicable to secondary formations, such as Lower Wolfcamp and Bone Spring zones, and would favor horizontal development.

6. The well proposals by Mewbourne are fair and reasonable, and will prevent waste and protect correlative rights.

I understand that this Self-Affirmed Statement will be used as written testimony in these cases. I affirm that my testimony in paragraphs 1 through 6 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

To: Persons on Exhibit A

Ladies and gentlemen:

Enclosed are copies of two applications for compulsory pooling, filed by Mewbourne Oil Company with the Oil Conservation Division, seeking to pool the Wolfcamp formation underlying the following horizontal spacing units:

(iii) Case 23708: the N/2 of Section 9 and the N/2 of Section 8, Township 22 South, Range 27 East, NMPM. The unit will be dedicated to the Sandlot W0AD Fee Well No. 1H and the Sandlot W0HE Fee Well No. 1H; and

(iv) Case 23709: the S/2 of Section 9 and the S/2 of Section 8, Township 22 South, Range 27 East, NMPM. The unit will be dedicated to the Sandlot W0IL Fee Well No. 1H and the Sandlot W0PM Fee Well No. 1H.

These matters are scheduled for hearing at 8:15 a.m. on Thursday, August 3, 2023. During the current circumstances, state buildings are closed to the public and the hearing will be conducted remotely. To view the hearing docket and to determine how to participate in an electronic hearing, go to <https://www.emnrd.nm.gov/ocd/hearing-info/>, or contact Marlene Salvidrez at [Marlene.Salvidrez@emnrd.nm.gov](mailto:Marlene.Salvidrez@emnrd.nm.gov). You are not required to attend this hearing, but as an owner of an interest who may be affected by the applications, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting this matter at a later date. A party appearing in a Division case is required by Division Rules to file a Pre-Hearing Statement no later than five business days before the hearing date. This statement may be filed online with the Division at [ocd.hearings@emnrd.nm.gov](mailto:ocd.hearings@emnrd.nm.gov), and should include: The name of the party and his or her attorney; a concise statement of the case; the name(s) of the witness(es) the party will call to testify at the hearing; the approximate time the party will need to present his or her case; and identification of any procedural matters that need to be resolved prior to the hearing. The Pre-Hearing Statement must also be provided to the undersigned.
