**STATEMENT OF THE CASE**

In its application, Applicant Joint Industry Technical Committee (“Applicant” or “JITC”) seeks to amend Order R-111-P to add anti-collision measures, to modify the well casing and cementing requirements, to provide additional notification requirements to potash operators, to provide for subsidence monitoring, and to adopt other proposed changes. Strata has conferred with JITC and the Division regarding the proposed changes and does not object to the final proposed revisions that Strata anticipates will be attached as Exhibit 3 to JITC’s pre-hearing statement.

**PROCEDURAL MATTERS**

This matter is set for hearing on March 14, 2024. Strata’s attorney may take the opportunity to cross-examine any witness and Strata’s witness will be available to testify should pertinent questions arise or additional revisions be suggested in regard to the final proposed revisions attached to JITC’s prehearing statement.

Respectfully submitted,

/s/ Sharon T. Shaheen
