OPERATING, LLC FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. _____

APPLICATION

Permian Resources Operating, LLC, OGRID No. 372165 (“Permian”), files this application with the Oil Conservation Division (“Division”) pursuant to NMSA 1978, Section 70-2-17, seeking an order pooling all mineral interests in the Wolfcamp formation (PURPLE SAGE; WOLFCAMP (GAS) [98220]) in a standard 640-acre, more or less, horizontal spacing and proration unit (“HSU”) comprised of the S/2 of Section 8 and Section 9, Township 22 South, Range 26 East, in Eddy County, New Mexico. In support of this Application, Permian states as follows:

1. Permian is a working interest owner in the proposed HSU and has the right to drill thereon.
2. Permian proposes to drill the following 2-mile wells in the proposed HSU:
 - **Mudshark 9 Fed Com 223H** well, to be horizontally drilled from an approximate surface hole location in the NW/4 of the SW/4 of Section 10, T22S-R26E, to an approximate bottom hole location 100’ FWL and 1,650’ FSL of Section 8, T22S-R26E;
 - **Mudshark 9 Fed Com 224H** well, to be horizontally drilled from an approximate surface hole location in the NW/4 of the SW/4 of Section 10,

T22S-R26E, to an approximate bottom hole location 100' FWL and 330' FSL of Section 8, T22S-R26E;

- **Mudshark 9 Fed Com 423H** well, to be horizontally drilled from an approximate surface hole location in the NW/4 of the SW/4 of Section 10, T22S-R26E, to an approximate bottom hole location 100' FWL and 2,310' FSL of Section 8, T22S-R26E; and
- **Mudshark 9 Fed Com 424H** well, to be horizontally drilled from an approximate surface hole location in the NW/4 of the SW/4 of Section 10, T22S-R26E, to an approximate bottom hole location 100' FWL and 990' FSL of Section 8, T22S-R26E.

3. The completed intervals will meet the setback requirements set forth in the special rules for the Purple Sage Wolfcamp. Permian will seek administrative approval for non-standard locations of the first and last take points.

4. Permian has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all the mineral interest owners in the HSU.

5. Approval of the HSU and the pooling of all mineral interest owners in the Wolfcamp formation underlying the HSU will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

6. For Permian to obtain its just and fair share of the minerals underlying the subject lands, all uncommitted interests in this HSU should be pooled and Permian should be designated the operator of the HSU.

WHEREFORE, Permian requests that this application be set for hearing before an examiner of the Division on May 2, 2024, and that, after notice and hearing as required by law, the Division enter an order:

- A. Creating a standard 640-acre, more or less, HSU comprised of the S/2 of Section 8 and Section 9, T22S-R26E, in Eddy County, New Mexico;
- B. Pooling all mineral interests in the Wolfcamp formation underlying the HSU;
- C. Allowing the drilling of the following 2-mile wells in the HSU:
 - **Mudshark 9 Fed Com 223H**
 - **Mudshark 9 Fed Com 224H**
 - **Mudshark 9 Fed Com 423H**
 - **Mudshark 9 Fed Com 424H;**
- D. Designating Permian as operator of the HSU and the wells to be drilled thereon;
- E. Authorizing Permian to recover its costs of drilling, equipping and completing the wells;
- F. Approving the operating charges and costs of supervision while drilling of \$10,000/month and, after completion, \$1,000/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Imposing a 200% penalty for the risk assumed by Permian in drilling and completing the wells against any interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

MONTGOMERY & ANDREWS, P.A.
