

Case No. 24119 May 28, 2024 Compulsory Pooling and Non-Standard Unit Application All of Section 13-T20S-R33E (Wolfcamp)

Margie Fed Com Wolfcamp Wells

## STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

**CASE NO. 24119** 

## TABLE OF CONTENTS

TAB A: Compulsory Pooling Checklist

TAB B: Affidavit of Tiffany Sarantinos, Landman

- Exhibit B.1: Application
- Exhibit B.2: C-102s
- Exhibit B.3: Lease Tract Maps
- Exhibit B.4: Summary of Contacts
- Exhibit B.5: Parties to Be Pooled
- Exhibit B.6 : Sample Proposal Letter
- Exhibit B.7 : AFEs
- Exhibit B.8: Adjacent Operators Tract Map and Notice List

## TAB C: Affidavit of John Harper, Geologist

- Exhibit C.1: Regional Locator Map
- Exhibit C.2: Wellbore Schematic
- Exhibit C.3: Wolfcamp Structure Map
- Exhibit C.4: Cross-Section Reference Map
- Exhibit C.5: Stratigraphic Cross-Section
- Exhibit C.6: Regional Stress Orientation Justification

### **Tab D:** Affidavit of Shane Kelly, Reservoir Engineer

- Exhibit D.1: Facilities Comparison Map
- Exhibit D.2: Non-Standard Unit Financial and Surface Impact Comparison

## Tab E: Declaration of Deana M. Bennett

- Exhibit E.1: Sample Notice Letter
- Exhibit E.2: Mailing List of Interested Parties
- Exhibit E.3: Certified Mailing Tracking List
- Exhibit E.4: Affidavit of Publication

## COMPULSORY POOLING APPLICATION CHECKLIST

ALL INFORMATION IN THE APPLICATION MUST BE	SUPPORTED BY SIGNED AFFIDAVITS
Case: 24119	APPLICANT'S RESPONSE
Date	May 28, 2024
Applicant	Avant Operating, LLC

COUNTY OF DENVER	)

## **AFFIDAVIT OF TIFFANY SARANTINOS**

Tiffany Sarantinos, being duly sworn, deposes and states as follows:

- 1. I am over the age of 18, I am a senior landman for Avant Operating, LLC ("Avant") and have personal knowledge of the matters stated herein.
- 2. I have previously testified before the Oil Conservation Division ("Division") and my credentials as an expert petroleum landman were accepted as a matter of record.
  - 3. My area of responsibility at Avant includes the area Lea County in New Mexico.
- 4. I am familiar with the application filed by Avant in this case, which is attached as Exhibit B.1.
  - 5. I am familiar with the status of the lands that are subject to this application.
- 6. I submit the following information pursuant to NMAC 19.15.4.12.A(1) in support of the above referenced application.
- 7. In this case, Avant seeks an order from the Division (1) approving a non-standard 640acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less,

Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico.

- 8. Avant respectfully requests an expedited order in this case because the Margie wells are on Avant's near term drilling schedule. Avant intends to commence drilling the initial wells under the order on or before August 1, 2024, or sooner depending on permit approval.
  - 9. Avant seeks approval of a 640-acre spacing unit for several reasons.
- 10. First, Avant seeks to minimize surface disturbance by consolidating facilities and commingling production from the proposed and future wells in the proposed non-standard spacing unit. Approval of this application will allow Avant to efficiently locate surface facilities, reduce surface disturbance, consolidate roads, tanks, and pipelines, and promote effective well spacing, which is consistent with Division rules. *See, e.g.*, Rule 19.15.167(P) NMAC; Rule 19.15.16.15(B)(8) NMAC; Rule 19.15.16.15(C)(7)(NMAC).
- 11. Second, Avant requires approval of a non-standard spacing unit to allow the wells to be dedicated to a federal Communitization Agreement that Avant desires to obtain from the Bureau of Land Management ("BLM"). If the non-standard unit is not approved, it is my understanding that BLM will not issue a Communitization Agreement and Avant will not be authorized to commingle production.
- 12. This spacing unit will be dedicated to the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 755H wells to be horizontally drilled.
  - 13. Attached as **Exhibit B.2** are the proposed C-102s for the wells.
- 14. The C-102s identify the proposed surface hole locations and the bottom hole locations, and the first take points. The C-102s also identify the pool and pool code.
  - 15. The wells will develop the Teas; Wolfcamp pool, pool code 58980.

- 16. This pool is an oil pool with 40-acre building blocks.
- 17. This pool is governed by the state-wide horizontal well rules.
- 18. The producing areas for the wells is expected to be orthodox.
- 19. There are no depth severances within the proposed spacing unit.
- 20. **Exhibit B.3** includes a lease tract map outlining the unit being pooled. Exhibit B.3 also includes the parties being pooled, the nature, and the percent of their interests. Exhibit B.3 also includes a tract map comparing what a standard unit would be to Avant's proposed non-standard unit, a tract map showing the general location of the wells within the proposed non-standard unit, and a list of the wells with the pool code identified.
- 21. I have conducted a diligent search of the public records in the county where the wells are located, and conducted phone directory and computer searches to locate contact information for parties entitled to notification, and mailed the working interest owners well proposals, including an Authorization for Expenditure.
- 22. In my opinion, Avant has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.
  - 23. **Exhibit B.4** is a summary of my contacts with the working interest owners.
  - 24. Exhibit B.5 is a list of the parties to be pooled.
- 25. **Exhibit B.6** is a sample of the well proposal letter that was sent to all working interest owners. The proposal letter identifies the proposed surface hole and bottom hole locations and approximate TVD/MD for the wells.
- 26. **Exhibit B.7** contains the Authorization for Expenditure for the proposed wells. The estimated cost of the wells set forth therein is fair and reasonable, and is comparable to the costs of other wells of similar depths and length drilled in this area of New Mexico.

- 27. Avant requests overhead and administrative rates of \$10,000.00/month for drilling a well and \$1,000.00/month for a producing well. These rates are fair, and comparable to the rates charged by other operators for wells of this type in this area of Southeastern, New Mexico. Avant requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.
- 28. Avant requests the maximum cost plus 200% risk charge be assessed against non-consenting working interest owners.
  - 29. Avant requests that it be designated operator of the wells.
  - 30. The parties Avant is seeking to pool were notified of this hearing.
- 31. Avant seeks to pool overriding royalty interest owners, and they were also provided notice of this hearing.
- 32. No opposition is expected because the interest owners being pooled have been contacted regarding the proposed wells, but have failed or refused to voluntarily commit their interests in the wells.
- 33. Avant also provided notice to offset affected parties for purposes of the non-standard unit application.
- 34. Avant also provided notice to offset affected parties for purposes of the non-standard unit application. **Exhibit B.8** is a tract map and list of affected parties to whom notice was provided for purposes of the non-standard unit portion of this application.
- 35. The attachments to this affidavit were prepared by me, or compiled from company business records, or were prepared at my direction.
- 36. In my opinion, the granting of this application is in the interests of conservation and the prevention of waste.
- 37. I attest under penalty of perjury under the laws of the State of New Mexico that the information provided herein is correct and complete to the best of my knowledge and belief.

## STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. 24119

## <u>APPLICATION</u>

Avant Operating, LLC ("Avant"), OGRID Number 330396, through its undersigned attorneys, hereby files this application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, § 70-2-17 and Rule 19.15.16.15(B)(5) NMAC, for an order (1) approving a non-standard spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. In support of this application, Avant states as follows:

- 1. Avant has an interest in the subject lands and has a right to drill and operate a well thereon.
- Avant seeks to dedicate Section 13, Township 20 South, Range 33 East, N.M.P.M,
   Lea County, New Mexico to form a 640-acre, more or less, Wolfcamp horizontal spacing unit ("Unit").
- 3. Avant plans to drill the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells, to a depth sufficient to test the Wolfcamp formation. The wells will be horizontally drilled, and the producing areas for all of the wells are expected to be orthodox.

Released to Imaging: 12/6/2023 11:06:01 AM Released to Imaging: 5/24/2024 9:09:08 AM

- 4. Avant seeks approval of the non-standard spacing unit for several reasons.
- First, Avant seeks to minimize surface disturbance by consolidating facilities and commingling production from the wells in the proposed non-standard spacing unit.
- 6. Approval of this application will allow Avant to efficiently locate surface facilities, reduce surface disturbance, consolidate roads, tanks, and pipelines, and promote effective well spacing, which is consistent with Division rules. See, e.g., Rule 19.15.16.7(P) NMAC; Rule 19.15.16.15(B)(8) NMAC; Rule 19.15.16.15(C)(7)(NMAC).
- 7. Second, to allow the wells to be dedicated to the acreage subject to the desired Communitzation Agreement, Avant requires approval of this non-standard spacing unit in the Wolfcamp formation.
- 8. Avant sought, but has been unable to obtain, a voluntary agreement from all interest owners in the Wolfcamp formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.
- 9. The pooling of all interests in the Wolfcamp formation underlying the proposed unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.
- Approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

WHEREFORE, Avant requests this application be set for hearing before an Examiner of the Oil Conservation Division on January 4, 2024, and after notice and hearing as required by law, the Division enter its order:

- A. Approving a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5);
  - B. Pooling all uncommitted interests in the Unit;

Received by OCD: 12/5/2023 6:18:57 PM

- C. Designating Avant as operator of the Unit and the wells to be drilled thereon;
- D. Authorizing Avant to recover its costs of drilling, equipping and completing the wells:
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS & SISK, P.A.

Received by OCD: 12/5/2023 6:18:57 PM

CASE NO. 24119: Application of Avant Operating, LLC for approval of a non-standard unit and compulsory pooling, Lea County, New Mexico. Applicant seeks an order from the Division (1) approving a non-standard 640-acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. This spacing unit will be dedicated to the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells to be horizontally drilled. The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

Owner Name	Sent Proposal	Tracking	Follow-up / Comments
Todd M. Wilson and Carol I. Wilson	10/9/23	9405 5036 9930 0613 0953 17	Well proposal package received, No further inquiries
XTO Holdings, LLC	10/9/23	9405 5036 9930 0613 0953 24	5/7/24: Email from Avant's Chris Leyendecker ("CL"), Sr. Landman, to Bryan Cifuentes ("BC"), XTO Landman about XTO inquiring about XTO title subject to a payout under a 1991 farmout agreement. 5/8/24: Email from BC to CL stating BC was looking into it. 5/20/24: Email from BC expressing interest in a commercial deal with Avant in Margie Unit (a transaction to get them out), suggests a term assignment as an option. CL told BC it looks like they have an unfavorably low Net Revenue Interest. Expressed tentative interest in exploring commercial options with XTO. Avant still needed Net Revenue Interest confirmation from XTO subject to 1991 farmout agreement. 5/20/24: Email from Avant VP of Land, Shelly Albrecht ("SA") to XTO's BC regarding potential protest. Call between SA and BC where SA expressed concern in working commercial option given XTO's unfavorable Net Revenue Interest. 5/21/24: Email from Avant's SA to XTO's BC with proposed Letter Agreement to address future billing concerns and supporting Avant as operator under Margie poolings. BC confirmed receipt to review and revert.

#### Ladies and Gentlemen:

Avant Operating, LLC ("Avant") hereby proposes to drill and complete the Margie 13 Fed Com 201H, 202H, 203H, 204H, 205H, 206H, 301H, 302H, 303H, 304H, 305H, 501H, 502H, 503H, 504H 505H, 506H, 601H, 602H, 603H, 604H, 605H, 606H, 651H, 652H, 653H, 654H, 655H, 751H, 752H, 753H, 754H, 755H wells in Section 13, Township 20 South, Range 33 East, Lea County, New Mexico. Avant is finalizing reports and preliminary title shows you *may* have an interest in the referenced lands.

In connection with the above, please note the following:

- The estimated cost of drilling, testing, completing, and equipping of each proposed well is itemized on the enclosed Authority for Expenditures ("AFE").
- Margie 13 Fed Com #201H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 8,850 TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,173'.
- Margie 13 Fed Com #202H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 8,850 TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,173'.
- Margie 13 Fed Com #203H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 8,850 TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,173'.
- Margie 13 Fed Com #204H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 8,850 TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,173'.

- Margie 13 Fed Com #205H: to be drilled from a legal location of Section 13-20S-33E The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 8,850 TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,173'.
- Margie 13 Fed Com #206H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 8,850 TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,173'.
- Margie 13 Fed Com #301H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 9,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,723'.
- Margie 13 Fed Com #302H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 9,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,723'.
- Margie 13 Fed Com #303H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 9,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,723'.
- Margie 13 Fed Com #304H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 9,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,723'.
- Margie 13 Fed Com #305H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 9,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 14,723'.
- Margie 13 Fed Com #501H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,300' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,623'.
- Margie 13 Fed Com #502H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,300' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,623'.
- Margie 13 Fed Com #503H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,300' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,623'.
- Margie 13 Fed Com #504H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,300' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,623'.

- Margie 13 Fed Com #505H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,300' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,623'.
- Margie 13 Fed Com #506H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,300' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,623'.
- Margie 13 Fed Com #601H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,900' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,223'.
- Margie 13 Fed Com #602H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,900' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,223'.
- Margie 13 Fed Com #603H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,900' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,223'.
- Margie 13 Fed Com #604H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,900' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,223'.
- Margie 13 Fed Com #605H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,900' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,223'.
- Margie 13 Fed Com #606H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,900' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,223'.
- Margie 13 Fed Com #651H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,550' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,873'.
- Margie 13 Fed Com #651H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,550' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,873'.
- Margie 13 Fed Com #652H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,550' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,873'.

- Margie 13 Fed Com #653H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,550' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,873'.
- Margie 13 Fed Com #654H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Bone Spring formation at a depth of approximately 10,550' TVD
  and will be drilled horizontally to a Measured Depth of approximately 15,873'.
- Margie 13 Fed Com #751H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Wolfcamp formation at a depth of approximately 11,400' TVD and
  will be drilled horizontally to a Measured Depth of approximately 16,723'.
- Margie 13 Fed Com #752H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Wolfcamp formation at a depth of approximately 11,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,723'.
- Margie 13 Fed Com #753H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Wolfcamp formation at a depth of approximately 11,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,723'.
- Margie 13 Fed Com #754H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Wolfcamp formation at a depth of approximately 11,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,723'.
- Margie 13 Fed Com #755H: to be drilled from a legal location of Section 13-20S-33E. The Well will
  have a targeted interval within the Wolfcamp formation at a depth of approximately 11,400' TVD
  and will be drilled horizontally to a Measured Depth of approximately 16,723'.

Avant reserves the right to modify the locations and drilling plans described above to address topography, cultural or environmental concerns, among other reasons.

Avant is proposing to drill the proposed wells under the terms of a modified 1989 AAPL form of Operating Agreements ("JOAs"). The JOA will be sent to you following this proposal with the following general provisions:

- 100%/300%/300% non-consent penalty
- \$10,000/\$1000 drilling and producing monthly overhead rates
- Contract Area of ALL of Section 13-T20S-R33E
- This proposed Operating Agreements will supersede any and all existing Operating Agreements as to all depths on all horizontal wells drilled after the effective date of the JOA.

If we do not reach an agreement within thirty (30) days of receipt of these well proposals, Avant will file an application(s) with the New Mexico Oil Conservation Division to compulsory pool your interest into a spacing unit(s) for the proposed wells to promote the development of these lands.

Please indicate your elections in the spaces provided on the following pages. If you elect to participate in the drilling and completion of the wells proposed herein, please sign, and return a copy of this letter along with the enclosed AFEs within thirty (30) days of receipt of this proposal.

Avant respectfully requests your elections as soon as possible. Please indicate your elections in the spaces provided on the following pages. In the event you elect to participate in the drilling and completion of the wells proposed herein, please sign and return a copy of this letter along with the enclosed AFEs.

In the event you do not wish to participate in this proposed development and would be interested in selling your interest, please let us know. Should you have any questions, please contact the undersigned at tiffany@avantnr.com or (720) 746-5048.

## Authority for Expenditure

AFE: NM0241

Well Name: Margie 13 Fed Com #751H

Target: Wolfcamp County: Lea State: NM

> SHL: Sec: 13, T-20S, R-33E; FNL, FWL BHL: Sec: , T-S, R-E; FSL, 330 FWL

Date:

September 28, 2023

Projected MD/TVD: 16723 / 11400

Spud to TD: 13 days Lateral Length: 5,000

Stages: 32

Total Proppant (ppf): 2,500

Total Fluid (gal/ft): 3,000

#### PROJECT DESCRIPTION:

The proposed AFE is for the Margie 13 Fed Com #751H, a 1 section Wolfcamp horizontal well to be drilled in Lea County, NM. The well is a 4 string casing design consisting of the following: 24" surface hole drilled on Fresh to 1350' and 20" 94# J-55 BTC casing will be set and cemented in place; 17.5" hole will then be drilled on Brine to 5200' and a string of 13.375" 54.5# J-55 BTC casing will be set and cemented in place; 12.25" hole will then be drilled on Fresh to 10200' and a string of 9.625" 40# P-110 HC casing will be set and cemented in place; 8.75" production hole will then be drilled on OBM to 16723' and a string of 5.5" 20# P-110 HC GBCD casing will be set and cemented in place. There will be 5000' of treatable lateral and the completions design will consist of +/-32 stages at 2500 lbs/ft & 3000 gals/ft. AFE includes associated costs for initial gas lift installation.

#### Authority for Expenditure

AFE: NM0295

Well Name: Margie 13 Fed Com #753H

Target: Wolfcamp County: Lea State: NM

> SHL: Sec: 13, T-20S, R-33E; FNL, FWL BHL: Sec: , T-S, R-E; FSL, 2640 FWL

Date:

September 28, 2023

Projected MD/TVD: 16723 / 11400

Spud to TD: 13 days Lateral Length: 5,000

Stages: 32

Total Proppant (ppf): 2,500

Total Fluid (gal/ft): 3,000

#### PROJECT DESCRIPTION:

The proposed AFE is for the Margie 13 Fed Com #753H, a 1 section Wolfcamp horizontal well to be drilled in Lea County, NM. The well is a 4 string casing design consisting of the following: 24" surface hole drilled on Fresh to 1350' and 20" 94# J-55 BTC casing will be set and cemented in place; 17.5" hole will then be drilled on Brine to 5200' and a string of 13.375" 54.5# J-55 BTC casing will be set and cemented in place; 12.25" hole will then be drilled on Fresh to 10200' and a string of 9.625" 40# P-110 HC casing will be set and cemented in place; 8.75" production hole will then be drilled on OBM to 16723' and a string of 5.5" 20# P-110 HC GBCD casing will be set and cemented in place. There will be 5000' of treatable lateral and the completions design will consist of +/-32 stages at 2500 lbs/ft & 3000 gals/ft. AFE includes associated costs for initial gas lift installation.

#### TOTAL

DRILLING:

\$4,384,788

#### PROJECT DESCRIPTION:

The proposed AFE is for the Margie 13 Fed Com #754H, a 1 section Wolfcamp horizontal well to be drilled in Lea County, NM. The well is a 4 string casing design consisting of the following: 24" surface hole drilled on Fresh to 1350' and 20" 94# J-55 BTC casing will be set and cemented in place; 17.5" hole will then be drilled on Brine to 5200' and a string of 13.375" 54.5# J-55 BTC casing will be set and cemented in place; 12.25" hole will then be drilled on Fresh to 10200' and a string of 9.625" 40# P-110 HC casing will be set and cemented in place; 8.75" production hole will then be drilled on OBM to 16723' and a string of 5.5" 20# P-110 HC GBCD casing will be set and cemented in place. There will be 5000' of treatable lateral and the completions design will consist of +/-32 stages at 2500 lbs/ft & 3000 gals/ft. AFE includes associated costs for initial gas lift installation.

#### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT **OIL CONSERVATION DIVISION**

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, **NEW MEXICO** 

CASE	NO.	24	1	19

STATE OF COLORADO	)
	) ss
COUNTY OF DENVER	)

#### AFFIDAVIT OF JOHN HARPER

John Harper being duly sworn, deposes and states as follows:

- I am over the age of 18, I am a geologist for Avant Operating, LLC ("Avant"), 1. and have personal knowledge of the matters stated herein. I have previously testified before the Oil Conservation Division ("Division") and my credentials as an expert petroleum geologist were accepted by the Division as a matter of record.
  - My area of responsibility at Avant includes the area of Lea County in New Mexico. 2.
  - 3. I am familiar with the application filed by Avant in this case.
- Exhibit C.1 is a locator map showing the approximate location of the proposed unit 4. in relation to the Capitan Reef.
  - 5. Exhibit C.2 is a wellbore schematic showing Avant's Margie development plan.
- 6. Exhibits C.3 through C.5 are the geology study I prepared for Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells, which will target the Wolfcamp Lower (Wolfcamp D) formation.

- 7. **Exhibit C.3** is a structure map of the Wolfcamp formation. The proposed spacing unit is identified by a black box. The proposed wells are identified by the black-dashed lines. The contour interval used in this exhibit is 50 feet. This exhibit shows that the structure dips gently to the southwest.
- 8. **Exhibit C.4** is a cross-section reference map that identifies two wells in the vicinity of the proposed wells, shown by a line of cross-section running from A to A'.
- 9. **Exhibit C.5** is a stratigraphic cross-section, and the well logs shown on the cross-section give a representative sample of the Wolfcamp Lower formation in the area. The target zone is identified by a red-dashed line and a box identifying the wells. In my opinion, the Wolfcamp Lower is relatively consistent across the unit.
  - 10. I conclude from the geology studies referenced above that:
    - a. The horizontal spacing unit is justified from a geologic standpoint.
    - b. There are no structural impediments or faulting that will interfere with horizontal development.
    - c. Each quarter-quarter section in the proposed unit will contribute more or less equally to production.
- 11. **Exhibit C.6** provides an overview of the stress orientation in the area based on the 2018 Snee-Zoback paper. The preferred well orientation in this area is north/south because the stress orientation is approximately east-northeast.
- 12. In my opinion, the granting of Avant's application is in the interests of conservation and the prevention of waste.
- 13. The attachments to this affidavit were prepared by me, or compiled from company business records, or were prepared at my direction.

14. I attest under penalty of perjury under the laws of the State of New Mexico that the information provided herein is correct and complete to the best of my knowledge and belief.

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. 24118-24119

#### **AFFIDAVIT OF SHANE KELLY**

Shane Kelly hereby states and declares as follows:

- 1. I am over the age of 18, I am a reservoir engineer for Avant Operating, LLC ("Avant") and have personal knowledge of the matters stated herein. My area of responsibility includes the area of Lea County in New Mexico.
- 2. I have previously testified before the Oil Conservation Division ("Division") and my credentials as an expert petroleum engineer were accepted as a matter of record.
- 3. I am familiar with the applications filed by Avant in these cases and the surface production facilities required to develop the oil underlying the subject acreage.
- 4. In these cases, Avant seeks approval of two 640-acre non-standard units—one Bone Spring unit and one Wolfcamp unit.
- 5. Avant seeks to minimize surface disturbance and costs by consolidating facilities and commingling production from the wells and future wells in the proposed non-standard spacing units.
- 6. To allow the wells to be dedicated to the acreage subject to the desired Communitzation Agreement, Avant requires approval of non-standard spacing units.

- 7. Exhibits **D.1** and **D.2** illustrate the benefit of the non-standard units Avant is requesting.
- 8. If Avant has to develop the acreage using standard horizontal spacing units, Avant will need a total of 3 units. Under Avant's requested non-standard unit applications, however, Avant would only need a total of two units.
- 9. Exhibit D.1 compares the tank batteries and related surface production facilities that would be required if Avant had to develop this acreage using standard horizontal spacing units with the tank batteries and related surface production facilities that will be needed to develop the acreage using non-standard units.
- 10. As these exhibits show, if Avant has to develop the acreage using standard spacing units, one additional tank batteries will be required at a cost of approximately \$4,800,000 and require an additional surface disturbance of 3.44 acres. If the non-standard spacing units are approved, the additional cost and surface disturbance required for the tank batteries will be avoided.
- 11. Approval of the non-standard units will allow for commingling of production, which would not be possible if Avant has to move forward with standard units. Eliminating the additional tank batteries will also lower the operating cost for this acreage.
- 12. Exhibit D.2 identifies the reduced cost savings and surface disturbance that will occur if the non-standard spacing units are not approved.
- 13. In my opinion, approval of Avant's non-standard unit applications will allow Avant to efficiently locate surface facilities, reduce surface disturbance, and promote effective well spacing.

- 14. In my opinion, the granting of these applications is in the interests of conservation and the prevention of waste.
- 15. The attachments to this declaration were prepared by me, compiled from company business records, or were prepared at my direction.
- 16. I attest under penalty of perjury under the laws of the State of New Mexico that the information provided herein is correct and complete to the best of my knowledge and belief.

## VIA CERTIFIED MAIL RETURN RECEIPT REQUESTED

Re: APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

**CASE NO. 24118** 

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

**CASE NO. 24119** 

TO: AFFECTED PARTIES

This letter is to advise you that Avant Operating, LLC ("Avant") has filed the enclosed applications.

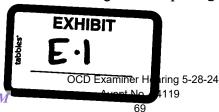

In Case No. 24118, Avant seeks an order from the Division (1) approving a non-standard 640-acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Bone Spring horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. This spacing unit will be dedicated to the Margie 13 Fed Com 201H, Margie 13 Fed Com 202H, Margie 13 Fed Com 203H, Margie 13 Fed Com 204H, Margie 13 Fed Com 205H, Margie 13 Fed Com 206H, Margie 13 Fed Com 301H, Margie 13 Fed Com 302H, Margie 13 Fed Com 303H, Margie 13 Fed Com 304H, Margie 13 Fed Com 305H, Margie 13 Fed Com 501H, Margie 13 Fed Com 502H, Margie 13 Fed Com 503H, Margie 13 Fed Com 504H, Margie 13 Fed Com 505H, Margie 13 Fed Com 506H, Margie 13 Fed Com 601H, Margie 13 Fed Com 602H, Margie 13 Fed Com 603H, Margie 13 Fed Com 604H, Margie 13 Fed Com 651H, Margie 13 Fed Com 652H, Margie 13 Fed Com 653H, Margie 13 Fed Com 654H, and the Margie 13 Fed Com 655H wells to be horizontally drilled. The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation

of these costs as well as the actual operating costs and charges for supervision, designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

In Case No. 24119, Avant seeks an order from the Division (1) approving a non-standard 640-acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. This spacing unit will be dedicated to the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells to be horizontally drilled. The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

The hearing and will be conducted remotely on January 4, 2024 beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <a href="https://www.emnrd.nm.gov/ocd/hearing-info/">https://www.emnrd.nm.gov/ocd/hearing-info/</a>.

As a party who may be affected by these applications, we are notifying you of your right to appear at the hearing and participate in these cases, including the right to present evidence either in support of or in opposition to the applications. Failure to appear at the hearing may preclude you from any involvement in these cases at a later date.

You are further notified that if you desire to appear in these cases, then you are requested to file a Pre-Hearing Statement with the Division at least four business days in advance of a scheduled hearing before the Division or the Commission, but in no event later than 5:00 p.m. mountain time, on the Thursday preceding the scheduled hearing date, with a copy delivered to the undersigned.

Sincerely,

Deana M. Bennett

Attorney for Applicant

#### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. 24118

#### **APPLICATION**

Avant Operating, LLC ("Avant"), OGRID Number 330396, through its undersigned attorneys, hereby files this application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, § 70-2-17 and Rule 19.15.16.15(B)(5) NMAC, for an order (1) approving a non-standard spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Bone Spring horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. In support of this application, Avant states as follows:

- 1. Avant has an interest in the subject lands and has a right to drill and operate a well thereon.
- 2. Avant seeks to dedicate Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico to form a 640-acre, more or less, Bone Spring horizontal spacing unit ("Unit").
- 3. Avant plans to drill the Margie 13 Fed Com 201H, Margie 13 Fed Com 202H, Margie 13 Fed Com 203H, Margie 13 Fed Com 204H, Margie 13 Fed Com 205H, Margie 13 Fed Com 301H, Margie 13 Fed Com 302H, Margie 13 Fed Com 303H, Margie 13 Fed Com 304H, Margie 13 Fed Com 305H, Margie 13 Fed Com 501H,

Released to Imaging: 12/6/2023 11:03:24 AM

Received by OCD: 5/23/2024 9:46:50 AM
'Received by OCD: 12/5/2023 6:14:08 PM

**Page 74 of 113**Page 2 of 5

Margie 13 Fed Com 502H, Margie 13 Fed Com 503H, Margie 13 Fed Com 504H, Margie 13 Fed Com 505H, Margie 13 Fed Com 506H, Margie 13 Fed Com 601H, Margie 13 Fed Com 602H, Margie 13 Fed Com 603H, Margie 13 Fed Com 604H, Margie 13 Fed Com 651H, Margie 13 Fed Com 652H, Margie 13 Fed Com 653H, Margie 13 Fed Com 654H, and the

Margie 13 Fed Com 655H wells, to a depth sufficient to test the Bone Spring formation. The

wells will be horizontally drilled, and the producing areas for all of the wells are expected to be

orthodox.

4. Avant seeks approval of the non-standard spacing unit for several reasons.

5. First, Avant seeks to minimize surface disturbance by consolidating facilities and

commingling production from the wells in the proposed non-standard spacing unit.

6. Approval of this application will allow Avant to efficiently locate surface facilities,

reduce surface disturbance, consolidate roads, tanks, and pipelines, and promote effective well

spacing, which is consistent with Division rules. See, e.g., Rule 19.15.16.7(P) NMAC; Rule

19.15.16.15(B)(8) NMAC; Rule 19.15.16.15(C)(7)(NMAC).

7. Second, to allow the wells to be dedicated to the acreage subject to the desired

Communitzation Agreement, Avant requires approval of this non-standard spacing unit in the

Bone Spring formation.

8. Avant sought, but has been unable to obtain, a voluntary agreement from all interest

owners in the Bone Spring formation underlying the proposed spacing unit to participate in the

drilling of the wells or to otherwise commit their interests to the wells.

9. The pooling of all interests in the Bone Spring formation underlying the proposed

unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

10. Approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

WHEREFORE, Avant requests this application be set for hearing before an Examiner of the Oil Conservation Division on January 4, 2024, and after notice and hearing as required by law, the Division enter its order:

- A. Approving a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5);
  - B. Pooling all uncommitted interests in the Unit;
  - C. Designating Avant as operator of the Unit and the wells to be drilled thereon;
- D. Authorizing Avant to recover its costs of drilling, equipping and completing the wells:
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS & SISK, P.A.

The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

# STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. 24119

#### **APPLICATION**

Avant Operating, LLC ("Avant"), OGRID Number 330396, through its undersigned attorneys, hereby files this application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, § 70-2-17 and Rule 19.15.16.15(B)(5) NMAC, for an order (1) approving a non-standard spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. In support of this application, Avant states as follows:

- 1. Avant has an interest in the subject lands and has a right to drill and operate a well thereon.
- 2. Avant seeks to dedicate Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico to form a 640-acre, more or less, Wolfcamp horizontal spacing unit ("Unit").
- 3. Avant plans to drill the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells, to a depth sufficient to test the Wolfcamp formation. The wells will be horizontally drilled, and the producing areas for all of the wells are expected to be orthodox.

Released to Imaging: 12/6/2023 11:06:01 AM

Page 2 of 4

- 4. Avant seeks approval of the non-standard spacing unit for several reasons.
- 5. First, Avant seeks to minimize surface disturbance by consolidating facilities and commingling production from the wells in the proposed non-standard spacing unit.
- 6. Approval of this application will allow Avant to efficiently locate surface facilities, reduce surface disturbance, consolidate roads, tanks, and pipelines, and promote effective well spacing, which is consistent with Division rules. See, e.g., Rule 19.15.16.7(P) NMAC; Rule 19.15.16.15(B)(8) NMAC; Rule 19.15.16.15(C)(7)(NMAC).
- 7. Second, to allow the wells to be dedicated to the acreage subject to the desired Communitzation Agreement, Avant requires approval of this non-standard spacing unit in the Wolfcamp formation.
- 8. Avant sought, but has been unable to obtain, a voluntary agreement from all interest owners in the Wolfcamp formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.
- 9. The pooling of all interests in the Wolfcamp formation underlying the proposed unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.
- 10. Approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

WHEREFORE, Avant requests this application be set for hearing before an Examiner of the Oil Conservation Division on January 4, 2024, and after notice and hearing as required by law, the Division enter its order:

- A. Approving a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5);
  - B. Pooling all uncommitted interests in the Unit;

- C. Designating Avant as operator of the Unit and the wells to be drilled thereon;
- D. Authorizing Avant to recover its costs of drilling, equipping and completing the wells;
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

**CASE NO. 24118** 

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

**CASE NO. 24119** 

TO: AFFECTED PARTIES

This letter is to advise you that Avant Operating, LLC ("Avant") has filed the enclosed applications.

In Case No. 24118, Avant seeks an order from the Division (1) approving a non-standard 640-acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Bone Spring horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. This spacing unit will be dedicated to the Margie 13 Fed Com 201H, Margie 13 Fed Com 202H, Margie 13 Fed Com 203H, Margie 13 Fed Com 204H, Margie 13 Fed Com 205H, Margie 13 Fed Com 206H, Margie 13 Fed Com 301H, Margie 13 Fed Com 302H, Margie 13 Fed Com 303H, Margie 13 Fed Com 304H, Margie 13 Fed Com 305H, Margie 13 Fed Com 501H, Margie 13 Fed Com 502H, Margie 13 Fed Com 503H, Margie 13 Fed Com 504H, Margie 13 Fed Com 505H, Margie 13 Fed Com 506H, Margie 13 Fed Com 601H, Margie 13 Fed Com 602H, Margie 13 Fed Com 603H, Margie 13 Fed Com 604H, Margie 13 Fed Com 651H, Margie 13 Fed Com 652H, Margie 13 Fed Com 653H, Margie 13 Fed Com 654H, and the Margie 13 Fed Com 655H wells to be horizontally drilled. The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision,

designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

In Case No. 24119, Avant seeks an order from the Division (1) approving a non-standard 640-acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. This spacing unit will be dedicated to the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells to be horizontally drilled. The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

The hearing will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform on March 21, 2024 beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: https://www.emnrd.nm.gov/ocd/hearing-info/.

As a party who may be affected by these applications, we are notifying you of your right to appear at the hearing and participate in these cases, including the right to present evidence either in support of or in opposition to the applications. Failure to appear at the hearing may preclude you from any involvement in these cases at a later date.

You are further notified that if you desire to appear in these cases, then you are requested to file a Pre-Hearing Statement with the Division at least four business days in advance of a scheduled hearing before the Division or the Commission, but in no event later than 5:00 p.m. mountain time, on the Thursday preceding the scheduled hearing date, with a copy delivered to the undersigned.

Sincerely,

Deana M. Bennett

- 1. Avant has an interest in the subject lands and has a right to drill and operate a well thereon.
- 2. Avant seeks to dedicate Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico to form a 640-acre, more or less, Bone Spring horizontal spacing unit ("Unit").
- 3. Avant plans to drill the Margie 13 Fed Com 201H, Margie 13 Fed Com 202H, Margie 13 Fed Com 203H, Margie 13 Fed Com 204H, Margie 13 Fed Com 205H, Margie 13 Fed Com 301H, Margie 13 Fed Com 302H, Margie 13 Fed Com 303H, Margie 13 Fed Com 304H, Margie 13 Fed Com 305H, Margie 13 Fed Com 501H,

Received by OCD: 12/5/2023 6:14:08 PM

Margie 13 Fed Com 502H, Margie 13 Fed Com 503H, Margie 13 Fed Com 504H, Margie 13

Fed Com 505H, Margie 13 Fed Com 506H, Margie 13 Fed Com 601H, Margie 13 Fed Com

602H, Margie 13 Fed Com 603H, Margie 13 Fed Com 604H, Margie 13 Fed Com 651H,

Margie 13 Fed Com 652H, Margie 13 Fed Com 653H, Margie 13 Fed Com 654H, and the

Margie 13 Fed Com 655H wells, to a depth sufficient to test the Bone Spring formation. The

wells will be horizontally drilled, and the producing areas for all of the wells are expected to be

orthodox.

4. Avant seeks approval of the non-standard spacing unit for several reasons.

5. First, Avant seeks to minimize surface disturbance by consolidating facilities and

commingling production from the wells in the proposed non-standard spacing unit.

6. Approval of this application will allow Avant to efficiently locate surface facilities,

reduce surface disturbance, consolidate roads, tanks, and pipelines, and promote effective well

spacing, which is consistent with Division rules. See, e.g., Rule 19.15.16.7(P) NMAC; Rule

19.15.16.15(B)(8) NMAC; Rule 19.15.16.15(C)(7)(NMAC).

7. Second, to allow the wells to be dedicated to the acreage subject to the desired

Communitzation Agreement, Avant requires approval of this non-standard spacing unit in the

Bone Spring formation.

8. Avant sought, but has been unable to obtain, a voluntary agreement from all interest

owners in the Bone Spring formation underlying the proposed spacing unit to participate in the

drilling of the wells or to otherwise commit their interests to the wells.

9. The pooling of all interests in the Bone Spring formation underlying the proposed

unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

10. Approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

WHEREFORE, Avant requests this application be set for hearing before an Examiner of the Oil Conservation Division on January 4, 2024, and after notice and hearing as required by law, the Division enter its order:

- A. Approving a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5);
  - B. Pooling all uncommitted interests in the Unit;
  - C. Designating Avant as operator of the Unit and the wells to be drilled thereon;
- D. Authorizing Avant to recover its costs of drilling, equipping and completing the wells;
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS & SISK, P.A.

CASE NO. 24118: Application of Avant Operating, LLC for approval of a non-standard unit and compulsory pooling, Lea County, New Mexico. Applicant seeks an order from the Division (1) approving a non-standard 640-acre spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Bone Spring horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. This spacing unit will be dedicated to the Margie 13 Fed Com 201H, Margie 13 Fed Com 202H, Margie 13 Fed Com 203H, Margie 13 Fed Com 204H, Margie 13 Fed Com 205H, Margie 13 Fed Com 206H, Margie 13 Fed Com 301H, Margie 13 Fed Com 302H, Margie 13 Fed Com 303H, Margie 13 Fed Com 304H, Margie 13 Fed Com 305H, Margie 13 Fed Com 501H, Margie 13 Fed Com 502H, Margie 13 Fed Com 503H, Margie 13 Fed Com 504H, Margie 13 Fed Com 505H, Margie 13 Fed Com 506H, Margie 13 Fed Com 601H, Margie 13 Fed Com 602H, Margie 13 Fed Com 603H, Margie 13 Fed Com 604H, Margie 13 Fed Com 651H, Margie 13 Fed Com 652H, Margie 13 Fed Com 653H, Margie 13 Fed Com 654H, and the Margie 13 Fed Com 655H wells to be horizontally drilled. The wells will be drilled at orthodox locations. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Avant Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles west-southwest of Monument, New Mexico.

# STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF AVANT OPERATING, LLC FOR APPROVAL OF NON-STANDARD UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. <u>24119</u>

#### **APPLICATION**

Avant Operating, LLC ("Avant"), OGRID Number 330396, through its undersigned attorneys, hereby files this application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, § 70-2-17 and Rule 19.15.16.15(B)(5) NMAC, for an order (1) approving a non-standard spacing unit, and (2) pooling all uncommitted mineral interests within a 640-acre, more or less, Wolfcamp horizontal spacing unit comprised of Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico. In support of this application, Avant states as follows:

- 1. Avant has an interest in the subject lands and has a right to drill and operate a well thereon.
- 2. Avant seeks to dedicate Section 13, Township 20 South, Range 33 East, N.M.P.M, Lea County, New Mexico to form a 640-acre, more or less, Wolfcamp horizontal spacing unit ("Unit").
- 3. Avant plans to drill the Margie 13 Fed Com 751H, Margie 13 Fed Com 752H, Margie 13 Fed Com 753H, Margie 13 Fed Com 754H, and the Margie 13 Fed Com 755H wells, to a depth sufficient to test the Wolfcamp formation. The wells will be horizontally drilled, and the producing areas for all of the wells are expected to be orthodox.

Released to Imaging: 12/6/2023 11:06:01 AM

- 4. Avant seeks approval of the non-standard spacing unit for several reasons.
- 5. First, Avant seeks to minimize surface disturbance by consolidating facilities and commingling production from the wells in the proposed non-standard spacing unit.
- 6. Approval of this application will allow Avant to efficiently locate surface facilities, reduce surface disturbance, consolidate roads, tanks, and pipelines, and promote effective well spacing, which is consistent with Division rules. See, e.g., Rule 19.15.16.7(P) NMAC; Rule 19.15.16.15(B)(8) NMAC; Rule 19.15.16.15(C)(7)(NMAC).
- 7. Second, to allow the wells to be dedicated to the acreage subject to the desired Communitzation Agreement, Avant requires approval of this non-standard spacing unit in the Wolfcamp formation.
- 8. Avant sought, but has been unable to obtain, a voluntary agreement from all interest owners in the Wolfcamp formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.
- 9. The pooling of all interests in the Wolfcamp formation underlying the proposed unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.
- 10. Approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

WHEREFORE, Avant requests this application be set for hearing before an Examiner of the Oil Conservation Division on January 4, 2024, and after notice and hearing as required by law, the Division enter its order:

- A. Approving a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5);
  - B. Pooling all uncommitted interests in the Unit;

Released to Imaging: 5/24/2024 9:09:08 AM

- C. Designating Avant as operator of the Unit and the wells to be drilled thereon;
- D. Authorizing Avant to recover its costs of drilling, equipping and completing the wells;
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.
