ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF ARMSTRONG ENERGY  
CORPORATION FOR COMPULSORY POOLING,  
CHAVES COUNTY, NEW MEXICO,**

**CASE NO. 24163**

**APPLICATION**

In accordance with NMSA 1978, § 70-2-17 and NMAC 19.15.16.15(B)(5), Armstrong Energy Corporation (“AEC” or “Applicant”), through its undersigned attorneys, files this application with the Oil Conservation Division (“Division”) seeking an order: (1) establishing a 40-acre, more or less, vertical well unit comprised of the SW/4 SE/4 of Section 11, Township 11 South, Range 31 East, Chaves County, New Mexico (“Unit”); and (2) pooling all uncommitted interests in the Devonian formation underlying the Unit. In support of this application, AEC states the following.

1. Applicant (OGRID No. 1092) is a working interest owner in the Unit and has the right to drill thereon.
2. Applicant seeks to dedicate the Unit to the **Rocket Man #1** well (“Well”), which will be a vertical well drilled from a surface hole to a bottom hole located in the SW/4 SE/4 (Unit O) of Section 11.
3. The completed interval of the Well will be orthodox.
4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all of the interest owners in the Unit.
5. The pooling of interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**Armstrong Energy Corporation  
Case No. 24163  
Exhibit A**

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated the operator of the proposed vertical well and the Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 7, 2024, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the vertical well in the Unit;
- C. Designating Applicant as the operator of the Unit and the vertical well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- E. Approving the actual operating charges and costs of supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

The completed interval of the Well will be orthodox. Also to be considered will be the cost of drilling and completing the Well and the allocation of the cost, the designation of Applicant as the operator of the Well, and a 200% charge for the risk involved in drilling and completing the Well. The Well is located approximately 36 miles north of Maljamar, New Mexico.

APPLICATION OF ARMSTRONG ENERGY  
CORPORATION FOR COMPULSORY POOLING,  
CHAVES COUNTY, NEW MEXICO

CASE NO. 24163

SELF-AFFIRMED STATEMENT OF  
KEVIN KLEIN

1. I am Vice President of Land at Armstrong Energy Corporation (“Armstrong”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”) and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. Copies of Armstrong’s application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit; therefore I do not expect any opposition at hearing.

4. Armstrong seeks an order pooling all uncommitted interests in the Devonian formation underlying a 40-acre, more or less, vertical well unit comprised of the SW/4 SE/4 of Section 11, Township 11 South, Range 31 East, Chaves County, New Mexico (“Unit”).

5. The Unit will be dedicated to the **Rocket Man #1** well (“Well”), which will be a vertical well drilled from a surface hole to a bottom hole located in the SW/4 SE/4 (Unit O) of Section 11. The Well will be completed in a Wildcat Devonian Pool.

6. The completed interval of the Well will be orthodox.

7. **Exhibit A-2** contains the C-102 for the Well.

Armstrong Energy Corporation  
Case No. 24163  
Exhibit A-1

8. **Exhibit A-3** contains a plat identifying ownership in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests Armstrong seeks to pool highlighted in yellow.

9. Armstrong has conducted a diligent search of all county public records, including phone directories, computer databases, and internet searches (beenverified.com, fastpeoplesearch.com), to locate the interest owners it seeks to pool.

10. **Exhibit A-4** contains a sample well proposal letter and AFE sent to working interest owners for the Well. The estimated costs reflected on the AFE is fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

11. In my opinion, Armstrong made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.

12. Armstrong requests overhead and administrative rates of \$8,000 per month while the Well is being drilled and \$800 per month while the Well is producing. These rates are fair and are comparable to the rates charged by Armstrong and other operators in the vicinity.

13. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

14. In my opinion, the granting of Armstrong's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

15. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury

under the laws of the State of New Mexico. My testimony is made as of the date next to my electronic signature below.

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES

**APPLICATION OF ARMSTRONG ENERGY  
CORPORATION FOR COMPULSORY POOLING,  
CHAVES COUNTY, NEW MEXICO**

**CASE NO. 24163**

**SELF-AFFIRMED STATEMENT OF  
KELSEY GARNER**

1. I am over 18 years of age, am competent to provide this Self-Affirmed Statement, and have personal knowledge of the matters addressed herein. I am a geologist with Armstrong Energy Corporation (“Armstrong”). I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum geology were accepted as a matter of record.

2. I am familiar with the geological matters that pertain to the above-referenced case.

3. **Exhibit B-1** is a location map of the proposed standard spacing unit (“Unit”) within the Devonian formation. The location of Armstrong’s proposed Rocket Man #1 well (“Well”) is shown as a red circle. There are no previous or current producing Devonian wells in this section.

4. **Exhibit B-2** is a subsea structure map of the Devonian formation that is representative of the targeted interval within the formation. The map demonstrates that the formation and reservoir interval are located on previously undrilled upthrown fault block that is bounded on the east & west sides. The potential reserves in this fault block can only be exploited by drilling a new well at the location we have proposed.

5. **Exhibit B-2** also identifies two wells penetrating the targeted interval, which I used to construct a structural cross-section. I used these well logs because they penetrate the targeted

interval, are the only available logs in the immediate vicinity, and are representative of the geology in the area.

6. **Exhibit B-3** is a structural cross-section using the representative wells identified on Exhibit B-2. It contains gamma ray, resistivity, and porosity logs where available. The proposed target for the Well is labeled on the exhibit. This cross-section demonstrates the targeted interval is continuous.

7. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by vertical wells.

8. In my opinion, the granting of Armstrong's application will protect correlative rights, prevent waste, and prevent the drilling of unnecessary wells.

9. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

10. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony in paragraphs 1 through 9 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

The statement must be submitted through the OCD E-Permitting system (<https://wwwapps.emnrd.nm.gov/ocd/ocdpermitting/>) or via e-mail to [ocd.hearings@emnrd.nm.gov](mailto:ocd.hearings@emnrd.nm.gov) and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

Please contact Kevin Klein, Land Manager at Armstrong Energy Corporation, at (575) 623-2999, if you have questions regarding these matters.
