STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF DEVON ENERGY PRODUCTION COMPANY, L.P. FOR APPROVAL OF AN OVERLAPPING SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

CASE NO. 24427

NOTICE OF AMENDED HEARING PACKAGE

Pursuant to the instructions of the Examiner at the August 9th hearing for this matter, Devon Energy Production Company files this Amended Hearing Package. The amendments revise the Compulsory Pooling Checklist and the draft Form C-102s (filed as Exhibit C-2) to include the pool identified by the Examiner at the Division.

Respectfully submitted,

STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF DEVON ENERGY PRODUCTION COMPANY, L.P. FOR APPROVAL OF AN OVERLAPPING SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

CASE NO. 24427

APPLICATION

Devon Energy Production Company, L.P. ("Devon" or "Applicant") (OGRID No. 6137), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (a) approving a standard 640-acre, more or less, overlapping horizonal well spacing unit in the Bone Spring formation underlying the NE4 of Section 9, the N2 of Section 10, and the NW4 of Section 11, Township 21 South, Range 27 East, NMPM, Eddy County, New Mexico, and (b) pooling all uncommitted interest owners in this acreage. In support of this application, Devon states:

- 1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
- 2. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the following proposed wells:
 - Bent Tree 9-11 Fed Com 221H, to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the NW4NE4 (Unit B) of Section 9 and a last take point in NE4NW4 (Unit C) of Section 11; and
 - Bent Tree 9-11 Fed Com 332H, to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the SE4NE4 (Unit G) of Section 9 and a last take point in SE4NW4 (Unit F) of Section 11; and

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B
Submitted by: Devon Energy Production Co. L.P.
Hearing Date: July 25, 2024

Case No. 24427

- Bent Tree 9-11 Fed Com 333H, to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the SE4NE4 (Unit G) of Section 9 and a last take point in SE4NW4 (Unit F) of Section 11.
- 3. The completed interval of the Bent Tree 9-11 Fed Com 332H well is expected to remain within 330 feet of the offsetting quarter-quarter sections or equivalent tracts to include them in the proposed spacing unit.
- 4. This proposed spacing unit will overlap the following existing spacing units in the Bone Spring formation:
 - A 160-acre spacing unit comprised of the N2N2 of Section 10 dedicated to the Cerf 10 Federal 3H (30-015-41058) operated by Devon and assigned to the Avalon; Bone Spring, East Pool (3713); and
 - A 160-acre spacing unit comprised of the S2N2 of Section 10 dedicated to the Cerf 10
 Federal 4H (30-015-41059) operated by Devon and assigned to the Avalon; Bone
 Spring, East Pool (3713).
- 5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.
- 6. Approval of the overlapping unit and the pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on May 2, 2024, and, after notice and hearing as required by law, the Division enter an order:

A. Approving the proposed overlapping horizontal well spacing unit and pooling all uncommitted interests therein;

- B. Approving the initial wells in the horizontal well spacing unit;
- C. Designating Applicant as the operator of the horizontal spacing unit and the wells to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR DEVON ENERGY PRODUCTION COMPANY, L.P.

Application of Devon Energy Production Company, L.P. for Approval of an Overlapping Spacing Unit and Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order (a) approving a 640-acre, more or less, overlapping horizonal well spacing unit in the Bone Spring formation underlying the NE4 of Section 9, the N2 of Section 10, and the NW4 of Section 11, Township 21 South, Range 27 East, NMPM, Eddy County, New Mexico, and (b) pooling all uncommitted interest owners in this acreage. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the following proposed wells:

- Bent Tree 9-11 Fed Com 221H, to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the NW4NE4 (Unit B) of Section 9 and a last take point in NE4NW4 (Unit C) of Section 11; and
- Bent Tree 9-11 Fed Com 332H, to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the SE4NE4 (Unit G) of Section 9 and a last take point in SE4NW4 (Unit F) of Section 11; and
- Bent Tree 9-11 Fed Com 333H, to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the SE4NE4 (Unit G) of Section 9 and a last take point in SE4NW4 (Unit F) of Section 11

The completed interval of the Bent Tree 9-11 Fed Com 332H well is expected to remain within 330 feet of the offsetting quarter-quarter sections or equivalent tracts to include them in the proposed spacing unit. This proposed spacing unit will overlap the following existing spacing units in the Bone Spring formation:

- A 160-acre spacing unit comprised of the N2N2 of Section 10 dedicated to the Cerf 10 Federal 3H (30-015-41058) operated by Devon and assigned to the Avalon; Bone Spring, East Pool (3713); and
- A 160-acre spacing unit comprised of the S2N2 of Section 10 dedicated to the Cerf 10 Federal 4H (30-015-41059) operated by Devon and assigned to the Avalon;Bone Spring, East Pool (3713).

Also, to be considered will be the cost of drilling and completing the wells and the allocation of the costs thereof, actual operating costs and charges for supervision, designation of Applicant as operator of the wells, and a 200% charge for risk involved in drilling the wells. Said area is located approximately 5 miles northeast of Carlsbad, New Mexico.

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF DEVON ENERGY PRODUCTION COMPANY, L.P. FOR APPROVAL OF AN OVERLAPPING SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

CASE NO. 24427

SELF AFFIRMED STATEMENT OF DAVID BROUSSARD, LANDMAN

1. My name is David Broussard, and I am employed by Devon Energy Production

Company, L.P. ("Devon") as a Petroleum Landman. My responsibilities include the Permian

Basin of New Mexico. I am familiar with the application filed by Devon in this matter and the

status of the lands in the subject area. This is my first time testifying before the New Mexico Oil

Conservation Division.

2. **Exhibit C-1** is a copy of my resume. It reflects that I have been employed as a

landman for over 10 years. I believe that my educational background, work history and credentials

qualify me to testify as an expert witness in petroleum land matters.

3. The mineral owners that Devon seeks to pool in this matter have not expressed any

opposition to this proceeding.

4. Devon seeks an order approving and then pooling a standard 640-acre overlapping

horizontal well spacing unit in the Bone Spring formation underlying the NE4 of Section 9, the

N2 of Section 10, and the NW4 of Section 11, Township 21 South, Range 27 East, NMPM, Eddy

County, New Mexico.

There are no ownership depth severances in the Bone Spring formation underlying

the subject acreage.

BEFORE THE OIL CONSERVATION DIVISION

- 6. This standard spacing unit will be initially dedicated to the following proposed wells:
 - o **Bent Tree 9-11 Fed Com 221H,** to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the NW4NE4 (Unit B) of Section 9 and a last take point in NE4NW4 (Unit C) of Section 11;
 - o **Bent Tree 9-11 Fed Com 332H,** to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the SE4NE4 (Unit G) of Section 9 and a last take point in SE4NW4 (Unit F) of Section 11; and
 - o **Bent Tree 9-11 Fed Com 333H,** to be horizontally drilled from a surface location in the SE4NW4 (Unit F) of Section 9, with a first take point in the SE4NE4 (Unit G) of Section 9 and a last take point in SE4NW4 (Unit F) of Section 11.

The completed interval of the Bent Tree 9-11 Fed Com 332H well is expected to remain within 330 feet of the offsetting quarter-quarter sections or equivalent tracts to include them in the proposed spacing unit.

- 7. **Exhibit C-2** contains a draft Form C-102 for the proposed initial wells. The pool and the pool code have not been identified because Devon has been informed that that the affected acreage is currently subject to the Avalon; Bone Spring, East Pool [3713]. Since the proposed wells are targeting the Second Bone Spring sands and the Third Bone Spring sands, Devon anticipates the wells will be assigned to a different oil pool to be determined by the Division. I confirm that the first and last take points listed on the Form C-102s will be in orthodox locations if an oil pool is assigned.
- 8. This proposed spacing unit will overlap the following existing spacing units in the Bone Spring formation:

- o A 160-acre spacing unit comprised of the N2N2 of Section 10 dedicated to the Cerf 10 Federal 3H (30-015-41058) operated by Devon and assigned to the Avalon; Bone Spring, East Pool (3713); and
- o A 160-acre spacing unit comprised of the S2N2 of Section 10 dedicated to the Cerf 10 Federal 4H (30-015-41059) operated by Devon and assigned to the Avalon; Bone Spring, East Pool (3713).

All the affected working interest owners in the existing and proposed spacing units have been notified of this application for approval of an overlapping spacing unit.

- 9. **Exhibit C-3** identifies the tracts of land comprising the proposed spacing unit, the working interest ownership in each tract, and the consolidated working interest ownership in the proposed horizontal spacing unit. Devon has highlighted in yellow the mineral owners that it seeks to pool, which includes a group of overriding royalty interest owners and record title owners. The subject acreage is comprised of federal lands.
- 10. **Exhibit C-4** contains a sample of the well proposal letter sent to the working interest owners that Devon seeks to pool. The costs reflected in the AFE provided with this letter are consistent with what Devon and other operators have incurred for drilling similar horizontal wells in the area in this formation.
- 11. Devon requests overhead and administrative rates of \$10,000 per month while drilling and \$1,000 per month while producing the well. These rates are consistent with the rates charged by Devon and other operators for similar wells in this area.
- 12. Exhibits C-1 through C-4 were either prepared by me or compiled under my direction from company business records.
- 13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be

used as written testimony in this case. This statement is made on the date next to my signature below.

RE:

Bent Tree 9-10 Fed Com 221H, Bent Tree 9-11 Fed Com 222H and 332H

Sections 9, 10 & 11-21S-27E Eddy County, New Mexico

Dear Working Interest Owner,

Devon Energy Production Company, L.P. ("Devon"), as Operator, proposes to drill, complete, and equip the following horizontal wells in the Bone Spring formation:

- Bent Tree 9-10 Fed Com 221H as a horizontal well to an approximate landing TVD of 7450' and an approximate TMD of 17,450' into the 2nd Bone Spring Sand formation at an approximate SHL in the SENW (Unit F) of Section 9-21S-27E, and an approximate BHL in the NENW (Unit C) of Section 11-21S-27E, Eddy County, New Mexico (collectively with the other proposed wells, the "Wells"). Enclosed for your review is Devon's Authority for Expenditure estimating total completed well costs of \$8,795,478.22.
- Bent Tree 9-11 Fed Com 222H as a horizontal well to an approximate landing TVD of 7450' and an approximate TMD of 17,450' into the 2nd Bone Spring Sand formation at an approximate SHL in the SENW (Unit F) of Section 9-21S-27E, and an approximate BHL in the SENW (Unit F) of Section 11-21S-27E, Eddy County, New Mexico (collectively with the other proposed wells, the "Wells"). Enclosed for your review is Devon's Authority for Expenditure estimating total completed well costs of \$8,795,478.22.
- Bent Tree 9-11 Fed Com 332H as a horizontal well to an approximate landing TVD of 8,715' and an approximate TMD of 18,715' into the 3rd Bone Spring Sand formation at an approximate SHL in the SENW (Unit F) of Section 9-21S-27E, and an approximate BHL in the SENW (Unit F) of Section 11-21S-27E, Eddy County, New Mexico (collectively with the other proposed wells, the "Wells"). Enclosed for your review is Devon's Authority for Expenditure estimating total completed well costs of \$10,525,595.77.

Devon reserves the right to modify the locations and drilling plans described above to address surface and subsurface concerns. Devon will advise of any such modifications.

Case No. 24427

Bent Tree 9-10 Fed Com 221H, Bent Tree 9-11 Fed Com 222H and 332H February 8, 2024 Page No. 2

Devon is proposing to drill the Wells under the terms of the modified 2015 AAPL form of Operating Agreement ("JOA") which contains the following general provisions:

- Devon named as Operator
- Contract Area: NE/4 of 9-21S-27E, N/2 of 10-21S-27E, & NW/4 of 11-21S-27E
- 100% / 300% Non-Consenting Penalty
- \$10,000/\$1,000 Drilling and Producing Overhead Rates

If you wish to participate in the operation, please indicate in the space provided below, along with a signed AFE, and deliver to my attention at the letterhead address or by email at David.broussard@dvn.com, and Devon will provide the completed JOA for your review. If your election is to participate, a cash call invoice will be sent following receipt of a timely election. If you do not wish to participate in the proposed operation, Devon would like to negotiate a voluntary agreement that includes your interest.

If an agreement is not reached within 30 days of the date of this letter, Devon will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed wells.

Sincerely,

DEVON ENERGY PRODUCTION COMPANY, L.P.

David Broussard

RE: Bent Tree 9-10 Fed Com 221H, Bent Tree 9-11 Fed Com 222H and 332H Sections 9, 10 & 11-21S-27E

Eddy County, New Mexico

Dear Working Interest Owner,

By proposal letter dated February 8, 2024, Devon Energy Production Company, L.P. ("Devon"), as Operator, proposed the drilling and completing of the subject wells in the Bone Spring formation. Due to existing, approved federal permits to drill, the below wells will be drilled under the updated well names listed in the table below:

| Old Well Name | Updated Well Name |
|-----------------------------|-----------------------------|
| Bent Tree 9-10 Fed Com 221H | Bent Tree 9-11 Fed Com 221H |
| Bent Tree 9-11 Fed Com 222H | Bent Tree 9-11 Fed Com 333H |

All future correspondence will refer to this well using the updated name. Additionally, and subsequent to the initial proposal letter being sent, SHL and BHL footages were finalized. This letter serves to provide all working interest owners with these footages included below:

- Bent Tree 9-11 Fed Com 221H as a horizontal well to an approximate landing TVD of 7450' and an approximate TMD of 17,450' into the 2nd Bone Spring Sand formation at an approximate SHL of 1761' FNL & 2446' FWL in the SENW (Unit F) of Section 9-21S-27E, and an approximate BHL of 330' FNL & 2446' FWL in the NENW (Unit C) of Section 11-21S-27E, Eddy County, New Mexico (collectively with the other proposed wells, the "Wells"). Enclosed for your review is Devon's Authority for Expenditure estimating total completed well costs of \$8,795,478.22.
- Bent Tree 9-11 Fed Com 333H as a horizontal well to an approximate landing TVD of 7450' and an approximate TMD of 17,450' into the 2nd Bone Spring Sand formation at an approximate SHL of 1843' FNL & 2497' FWL in the SENW (Unit F) of Section 9-21S-27E, and an approximate BHL of 1660' FNL & 2446' FWL in the SENW (Unit F) of Section 11-21S-27E, Eddy County, New Mexico (collectively with the other proposed wells, the "Wells"). Enclosed for your review is Devon's Authority for Expenditure estimating total completed well costs of \$8,795,478.22.
- Bent Tree 9-11 Fed Com 332H as a horizontal well to an approximate landing TVD of 8,715' and an approximate TMD of 18,715' into the 3rd Bone Spring Sand formation at an approximate SHL of 1818' FNL & 2480' FWL in the SENW (Unit F) of Section 9-21S-27E, and an approximate BHL of 1470' FNL and 2446' FWL in the SENW (Unit F) of Section 11-21S-27E, Eddy County,

STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF DEVON ENERGY PRODUCTION COMPANY, L.P. FOR APPROVAL OF AN OVERLAPPING SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

CASE NO. 24427

SELF-AFFIRMED STATEMENT OF JOSEPH DIXON, GEOLOGIST

1. My name is Joseph Dixon, and I am employed as a petroleum geologist by Devon

Energy Production Company, L.P. ("Devon"). I am familiar with the application filed in this

matter and I have conducted a geologic study of the lands in the subject area.

2. I have previously testified before the New Mexico Oil Conservation

Division as an expert witness in petroleum geology and my credential have been accepted

and made a matter of public record.

3. **Devon Exhibit D-1** is an area map showing the location of Devon's proposed

spacing unit outlined in red with arrows depicting the orientation and general location of the initial

wells targeting the Bone Spring formation. This map also shows the existing wells in the

surrounding sections that are completed in the 2nd and 3rd Bone Spring Sandstone intervals of the

Bone Spring formation.

5.

4. The initial targets for the proposed wells are the 2nd and 3rd Bone Spring Sandstone

intervals of the Bone Spring formation.

Devon Exhibit D-2 is a 3rd Bone Spring Limestone subsea structure map

that I prepared for the Bone Spring formation with contour intervals of 50 feet. Devon's

proposed spacing unit is outlined in red. This exhibit demonstrates that the structure in

the Bone Spring formation is consistent across the proposed spacing unit and dips gently

to the east. I do not observe any faulting, pinch outs, or other geologic impediments to developing the Bone Spring formation in this area with horizontal wells.

- 6. Devon Exhibit D-2 also depicts a line of cross section through Devon's proposed horizontal spacing unit from A to A'. I chose the logs from these wells to create the cross section because they penetrate the targeted interval and are of good quality. In my opinion, these well logs are representative of the geology in the subject area.
- 7. **Devon Exhibit D-3** is a stratigraphic cross section that I prepared using the logs from the representative wells shown on Exhibit D-2. Each well on the cross-section contains gamma ray, resistivity, and porosity logs. The target intervals for the initial wells are identified on the exhibit with well numbers. The cross-section demonstrates that the targeted intervals are continuous and relatively uniform across the proposed spacing unit.
- 8. My geologic study indicates the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed horizontal spacing unit will be productive and contribute proportionately to the production from the well.
- 9. As reflected in Exhibit D-1, the primary orientation for the existing wells targeting the Bone Spring formation in this area laydown. In my opinion, laydown orientation of Devon's proposed wells is consistent with existing development and appropriate for the stress orientation in the Bone Spring formation in this area.
- 10. In my opinion, approval of this application is in the best interest of conservation, the prevention of waste, and protection of correlative rights.
- 11. **Devon Exhibits D-1 through D-3** were either prepared by me or compiled under my direction and supervision.

12. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Re: Application of Devon Energy Production Company, L.P. for Approval of an

Overlapping Spacing Unit and Compulsory Pooling, Eddy County, New Mexico: Bent Tree 221H, 332H & 333H

Ladies & Gentlemen:

This letter is to advise you that Devon Energy Production Company, L.P. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on May 16, 2024, and the status of the hearing can be monitored through the Division's website at https://www.emnrd.nm.gov/ocd/.

It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact David Broussard at (405) 228-8788 or at david.broussard@dvn.com.

Sincerely,

Michael H. Feldewert
