ATTORNEY

STATEMENT OF THE CASE

Colgate requests a one-year extension of time, until August 25, 2025, to commence drilling the wells authorized by Order No. R-22837. The Division issued Order No. R-22837 in Case No. 23640 on August 25, 2023, which approved a 320-acre, more or less, standard horizontal spacing unit comprised of the N/2 N/2 of Sections 9 and 10, Township 20 South, Range 28 East, Eddy County, New Mexico (“Unit”); designated Permian Resources Operating, LLC (OGRID No.

372165) as operator of the Unit; and dedicated the Unit to the Koala 9 Fed Com 111H, Koala 9 Fed Com 121H, and Koala 9 Fed Com 131H wells (“Wells”). Permian Resources requests an extension of time to drill the Wells so that the wells in the Second Bone Spring formation can be uniformly developed with projects in offset acreage to the South. Permian Resources plans to develop the Second Bone Spring wells in Sections 9, 10, 15, and 16 in tandem to mitigate parent-child well effects, which would lead to a decrease in ultimate recovery and waste. Allowing Permian Resources an additional year to commence drilling the Wells will lead to greater efficiency in recovery, thus preventing waste and protecting correlative rights. Good cause exists for the requested extension.
