media and size of filters used on injected fluids, and Safety Data Sheets (SDS) for treating chemicals used, conducted by Empire New Mexico LLC to address scaling, H₂S, and corrosion in Grayburg production wells, Grayburg injection wells, and San Andres water supply wells within the EMSU from Empire's acquisition of the EMSU to the present.

12. Documents, data, analyses, reports, and summaries, including internal and external correspondence, that address, reflect on, or concern assessments for capital costs and expenditures estimated to be necessary to institute a tertiary recovery operation in the San Andres formation within the EMSU using carbon dioxide.

RESPONSE: Empire objects to Request No. 12 because it is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. The Commission's jurisdiction does not include authority to consider "assessments for capital costs and expenditures estimated to be necessary to institute a tertiary recovery operation in the San Andres formation." See NMSA 1978, §§ 70-2-6; 70-2-11, 70-2-12. Further, the Commission has expressly narrowed the scope of this hearing. See Join Order on Goodnight's Motion to Limit Scope of Hearing ("At said hearing, the parties shall submit all evidence, testimony, and legal argument on the issue of the existence, extent of and possible interference with a residual oil zone [in the EMSU] by produced water injection activities undertaken by Goodnight.").

SUPPLEMENTAL RESPONSE: Subject to and without waiver of the foregoing objection, which Empire understands will be litigated prior to hearing, Empire provides

documents Bates# OCD 23614-17 03724, produced herewith.

13. Reservoir studies reflecting monthly carbon dioxide volumes (including total, purchased, and recycled carbon dioxide) Empire estimates will be required to conduct tertiary recovery in the San Andres formation within the EMSU.

RESPONSE: Empire objects to this request for the same reasons stated in response to Request No. 12.

SUPPLEMENTAL RESPONSE: *See* Supplemental Response to Request No. 12.

14. Communications with potential suppliers of carbon dioxide for tertiary recovery operations in the San Andres formation within the EMSU.

RESPONSE: Empire objects to this request for the same reasons stated in response to Request No. 12.

SUPPLEMENTAL RESPONSE: Subject to and without waiver of the foregoing objection, which Empire understands will be litigated prior to hearing, Empire will provide documents that are subject to a non-disclosure agreement, in accordance with the non-disclosure agreement, when a confidential stipulation has been entered into by Goodnight and Empire.

17. Documents, data, and/or communications, whether internal or external, addressing the use of the San Andres formation in the EMSU as a carbon capture project, whether in the alternative to or in association with Empire's proposed carbon flood tertiary recovery project.

RESPONSE: Empire has conducted a diligent and thorough search of the records within

its possession, custody, or control and discovered that no responsive documents.

SUPPLEMENTAL RESPONSE: *See* Supplemental Response to Request No. 14.

18. The reservoir simulation model of the EMSU “to evaluate performance and impact to SWD injection and long-term flooding into the San Andres” that is referenced in the May 16, 2024 Form 8-K and attached as Exhibit 99, Press Release of Empire Petroleum, dated May 15, 2024, along with data relied on to construct the model, parameters and inputs, and analyses, reports, and summaries, including internal and external correspondence, that address, reflect on, or concern the reservoir model.

RESPONSE: The reservoir simulation model of the EMSU, which is the work of Empire’s expert, is not complete. The model and data relied on to construct the model will be produced in accordance with the Commission’s Pre-Hearing Order in this matter. *See New Mexicans for Free Enterprise v. The City of Santa Fe*, 2006-NMCA-007, 138 N.M. 785.
