CASE NO. 24699

APPLICATION

Ameredev Operating, LLC (“Ameredev” or “Applicant”) (OGRID No. 372224), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral owners in a standard 320-acre, more or less, horizontal well spacing unit in the Bone Spring formation underlying the E/2 W/2 of Sections 29 and 32, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico. In support of its application, Ameredev states:

1. Ameredev is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Ameredev seeks to initially dedicate the above-referenced spacing unit to the proposed **Red Bud Fed Com 25 36 32 73H** well, to be horizontally drilled from a surface location in the SE/4 SW/4 (Unit N) of Section 32, a first take point from the SE/4 SW/4 (Unit N) of Section 32, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 29.
3. Ameredev has sought and been unable to obtain voluntary agreement for the development of these lands from all working interest owners, unleased mineral interest owners and non-participating royalty interest owners in the subject spacing unit.

4. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on August 8, 2024, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted mineral owners in the horizontal spacing unit;
- B. Designating Ameredev Operating, LLC operator of this spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Ameredev to recover its costs of drilling, completing, and equipping the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Ameredev in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

ATTORNEYS FOR AMEREDEV OPERATING, LLC

CASE ____: **Application of Ameredev Operating, LLC for Compulsory Pooling, Lea County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted mineral owners in a standard 320-acre, more or less, horizontal well spacing unit in the Bone Spring formation underlying the E/2 W/2 of Sections 29 and 32, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Ameredev Operating, LLC as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 6 miles southwest of Jal, New Mexico.

APPLICATIONS OF AMEREDEV
OPERATING, LLC FOR
COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

CASE NO. 24699

SELF-AFFIRMED STATEMENT OF LIZZY LAUFER

1. My name is Lizzy Laufer. I work for Ameredev Operating, LLC (“Ameredev”) as a Senior Landman.

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

3. I am familiar with the application filed by Ameredev in this case, and I am familiar with the status of the lands in the subject area.

4. None of the uncommitted parties in this case have indicated opposition to proceeding by self-affirmed statement and, therefore, I do not expect any opposition at the hearing.

5. In this case, Ameredev seeks an order pooling all uncommitted minerals owners in a standard 320-acre, more or less, horizontal well spacing unit in the Bone Spring formation underlying the E/2 W/2 of Sections 29 and 32, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico. Ameredev seeks to initially dedicate this Bone Spring spacing unit to the proposed **Red Bud Fed Com 25 36 32 73H** well, to be horizontally drilled from a surface location in the SE/4 SW/4 (Unit N) of Section 32, a first take point from the SE/4 SW/4 (Unit N) of Section 32, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 29.

6. **Ameredev Exhibit C-1** contains the C-102 for the proposed well. The exhibit shows that the well will be assigned to the WC-025 G-08 S263620C; LWR Bone Spring [Pool Code 98150].

7. **Ameredev Exhibit C-2** is an exhibit prepared by me that identifies the tracts of land comprising the proposed horizontal spacing unit in this case. The proposed spacing unit includes state, federal and fee land. This exhibit shows the interest owners and the percentage of their interest by tract. A unit recapitulation, showing the percentage of ownership interests in the proposed spacing unit, is also included in the exhibit. Ameredev is seeking to pool the uncommitted interest owners highlighted in yellow.

8. There are no depth severances in the Bone Spring formation.

9. **Ameredev Exhibit C-3** is a sample of the well proposal letter and AFEs sent to all working interest owners, plus sample lease offer, sent to the unleased mineral interest owners. The costs reflected in the AFEs are consistent with what Ameredev and other operators have incurred for drilling similar horizontal wells in the area. Additionally, Ameredev requests overhead and administrative rates of \$10,000 per month for drilling and \$1,000 per month for a producing well. These rates are consistent with the rates charged by Ameredev and other operators for wells of this type in this area.

10. **Ameredev Exhibit C-4** contains a general summary of the contacts with the uncommitted interest owners. As indicated in the exhibit, Ameredev has made a good faith effort to locate and has had communications with all locatable parties that it seeks to pool in this case in an effort to reach voluntary joinder. In my opinion, Ameredev has undertaken good faith efforts to reach an agreement with the uncommitted interest owners.

11. Ameredev has provided the law firm of Holland & Hart LLP with the names and addresses of the parties that Ameredev seeks to pool and instructed that they be notified of this hearing. Ameredev has conducted a diligent search of all public records in the county where the property is located, reviewed telephone directories, and conducted computer searches to locate contact information for each interest owner.

12. **Ameredev Exhibits C-1 through C-4** were either prepared by me or compiled under my direction and supervision.

13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

RE: Red Bud Fed Com 25-36-32 73H Well Proposal
E2W2 of Sections 29 and 32
Township 25 South, Range 36 East, N.M.P.M., Lea County, New Mexico

Dear Owner:

Ameredev Operating, LLC (“Ameredev”), as Operator, hereby proposes to commence to drill and complete the following horizontal well, testing the Bone Spring formation at a surface location in Section 32, T25S-R36E with bottom hole location in Section 29, T25S-R36E, Lea County, New Mexico (collectively, the “Operation”). The proposed wells will fall within a 320.00-acre spacing unit in the Bone Spring Formation limited to the E2W2 of Sections 29 and 32, T25S-R36E, Lea County, New Mexico.

Proposed Well:

- 1) **Red Bud Fed Com 25 36 32 73H** to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 9,595 feet and a measured depth of 20,343 feet. The surface location for this well is proposed at a legal location in unit letter N of Section 32, T25S-R36E, being 200’ FSL, 2200’ FWL and a bottom hole location at a legal location in unit letter C of Section 29, T25S-R36E, being 50’ FNL, 1650’ FWL. The estimated cost to drill and complete said well is \$11,802,222.01, as shown on the attached authority for expenditure (“AFE”).

Ameredev is proposing the above wells under the 2015 Horizontal AAPL Form 610 Operating Agreement (“OA”) with the following terms. A copy of the JOA will be provided in the upcoming weeks.

- Contract Area consisting of E2W2 of Sections 29 and 32, Township 25 South, Range 36 East, N.M.P.M., Lea County, New Mexico, limited to the Bone Spring Formation with Ameredev listed as the Operator (“Contract Area”)
- 100%/300%/300% non-consent risk penalties
- \$10,000/\$1,000 drilling and producing overhead rates

The AFE is only an estimate and may not represent the actual costs. The actual depth and lateral length may change due to unexpected conditions encountered during drilling operations. Each participating party shall be obligated to bear its proportionate share of actual drilling and completion expenses.

In the interest of time, if we do not reach an agreement within thirty (30) days of the date of this letter, Ameredev will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a horizontal spacing unit for the proposed Operation.

If you elect to participate in the drilling and completion of the proposed wells, please indicate in the space below and return an executed copy of this letter along with signed copies of the enclosed AFEs to my attention at the letterhead address.

If you do not wish to participate in the Operation, Ameredev would be interested in acquiring your leasehold interest for a mutually acceptable offer.

Thank you for your consideration of our proposal. If you have any questions, please contact me at 737-444-2997 or LLaufer@ameredev.com. Ameredev looks forward to working with you on this matter.

Sincerely,

Lizzy Laufer

Project Description
Drill ~10,000' BONE SPRING lateral. Complete with ~2200 PPF. Drill out plugs and run tubing with gas lift. Tie in to the Central Tank Battery.

Total Cost	\$11,802,222.01
-------------------	------------------------

Comments on Associated Costs
Included costs for satellite pad if well goes through a satellite. This is split respectively on the number of wells that are going through the satellite.

Comments on AFE
The above costs are estimates only and anticipate trouble free operations without any foreseeable change in plans. The actual costs may exceed the estimated costs without affecting the authorization for expenditure herein granted. By approval of this AFE, the working interest owner agrees to pay its proportionate share of actual legal, curative, regulatory, and well costs under term of the joint operating agreement, regulatory order, or other applicable agreement covering this well.

Well Control Insurance
Unless otherwise indicated below, you, as a non-operating working interest owner, agree to be covered by Operator's well control insurance procured by Operator so long as Operator conducts operations hereunder and to pay your prorated share of the premiums therefore. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance acceptable to Operator, as to form and limits, at the time this AFE is returned, if available, but in no event later than commencement of drilling operations. You agree that failure to provide the certificate of insurance, as provided herein, will result in your being covered by insurance procured by Operator.

I elect to purchase my own well control insurance policy.
Well control insurance procured by Operator, provides, among other terms, for \$20,000,000 (100% W.I.) of Combined Single Limit coverage for well control and related re-drilling and clean-up/pollution expense covering drilling (through completion) with a \$250,000 (100% W.I.) retention.

Marketing Election
Amerdev sells its gas under arm's-length contracts with third party purchasers. Such contracts may include fees. In addition, penalties may be incurred for insufficient volumes delivered over time. Should you choose to market your share of gas with Amerdev, you will be subject to all of the terms of such contracts. Upon written request to Amerdev, we will share with you the terms and conditions pursuant to which gas will be sold.

I elect to take my gas in kind.
 I elect to market my gas with Amerdev pursuant to the terms and conditions of its contracts.

CASE NO. 24699

SELF-AFFIRMED STATEMENT OF PARKER FOY

1. My name is Parker Foy. I work for Ameredev Operating, LLC (“Ameredev”) as a Geologist.
2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the applications filed by Ameredev in this case, and I have conducted a geologic study of the lands in the subject area.
4. **Ameredev Exhibit D-1** is a locator map that shows Ameredev’s acreage in yellow and the path of the proposed wellbore. Nearby wells that are producing in the target formation are marked with green dots. This map also shows the location of the Capitan Reef Complex.
5. **Ameredev Exhibit D-2** is a subsea structure map that I prepared for the targeted interval within the Bone Spring formation, with a contour interval of 50 feet. The structure map shows the Bone Spring gently dipping to the southwest. The Bone Spring structure appears consistent across the proposed wellbore paths. I do not observe any faulting, pinchouts, or other geologic impediments to horizontally drilling the well proposed in this spacing unit.

Santa Fe, New Mexico
Exhibit No. D
Submitted by: Ameredev Operating, LLC
Hearing Date: September 12, 2024
Case No. 24699

6. **Ameredev Exhibit D-3** shows a line of cross-section in red consisting of wells penetrating the Bone Spring formation that I used to construct a stratigraphic cross-section from A to A'. I consider these wells to be representative of the geology in the area.

7. **Ameredev Exhibit D-4** contains the stratigraphic cross-sections that I prepared displaying open-hole logs run over the target formations from three representative wells denoted from A to A'. For each well in the cross-sections, the exhibit shows the following logs: gamma ray, resistivity, and porosity. The targeted interval is labeled and marked on the left side of the cross-sections. The logs in the cross-sections demonstrate that the interval is continuous across the entire spacing unit.

8. In my opinion, standup orientation of the proposed wells is the appropriate orientation for horizontal well development in this area because it is near perpendicular to the maximum horizontal stress of the area.

9. Based on my geologic study, the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will contribute more-or-less equally to the production from the wellbore. I have not identified any geologic impediments to drilling horizontal wells in the area of the spacing unit proposed.

10. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery, and that approving Ameredev's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

11. **Ameredev's Exhibits D-1 through D-4** were either prepared by me or compiled under my direction and supervision.

12. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Re: Application of Ameredev Operating, LLC for Compulsory Pooling, Lea County, New Mexico: Red Bud Fed Com 25 36 32 73H Well

Ladies & Gentlemen:

This letter is to advise you that Ameredev Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on August 8, 2024, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Lizzy Laufer at (737) 444-2997 or llauffer@ameredev.com.

Sincerely,

Paula M. Vance

Case No. 24699: Application of Ameredev Operating, LLC for Compulsory Pooling, Lea County, New Mexico. Notice to all affected interest owners, including all heirs, devisees and successors of Mavros Oil Company, LLC; Good News Minerals; Gulf Coast Western LLC; Franklin Mountain Energy LLC; Conocophillips; Devon Energy Production Company, L.P.; Prevail Energy LLC; Br2 Holdings LLC; Carol Bearly Cleveland, As Successor Trustee Of The James H. Bearly Revocable Trust Dtd 03/15/1996; Heirs Or Devisees Of Donald Woods; Heirs Or Devisees Of Donald Woods; St. Joseph Residence Inc.; Kassandra Dawn Dittmer; Cayuga Royalties, LLC; Sro Land & Minerals, L.P.; Monroe Properties, Inc.; Mes Land & Minerals, Lp; Vida Nova Royalties LLC; B&L Minerals LLC; Nancy Carolyn Haley Or Heirs. The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold public hearing 8:30 a.m. on August 8, 2024, to consider this application. The hearing will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the hearings electronically, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/> or contact Freya Tschantz, at Freya.Tschantz@emnrd.nm.gov. Applicant in the above-styled cause seeks an order pooling all uncommitted mineral owners in a standard 320-acre, more or less, horizontal well spacing unit in the Bone Spring formation underlying the E/2 W/2 of Sections 29 and 32, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico. Ameredev seeks to initially dedicate the above-referenced spacing unit to the proposed **Red Bud Fed Com 25 36 32 73H** well, to be horizontally drilled from a surface location in the SE/4 SW/4 (Unit N) of Section 32, a first take point from the SE/4 SW/4 (Unit N) of Section 32, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 29. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Ameredev Operating, LLC as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 6 miles southwest of Jal, New Mexico.
