Case No. 24838
Exhibit A

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL
CONSERVATION DIVISION

APPLICATION OF CIVITAS PERMIAN OPERATING,
LLC FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

CASE NO. 24838

SELF-AFFIRMED STATEMENT OF
CHAD MATNEY

1. I am employed by Civitas Permian Operating, LLC ("Civitas") as a Landman. I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters and my credentials were accepted as a matter of record.

2. I am familiar with the land matters involved in the above-referenced case. Copies of the subject application and proposed hearing notice are attached as **Exhibit A-1**.

3. Civitas seeks an order pooling all uncommitted interests in the Bone Spring formation (WC-025 G-08 S2535340;BONE SPRING [97088]) underlying a standard 320-acre, more or less, horizontal spacing unit comprised of the E/2E/2 of Sections 18 and 19, Township 25 South, Range 36 East, Lea County, New Mexico (the "Unit").

4. Civitas is a working interest owner in the Unit and has the right to drill a well thereon.

5. Civitas seeks to dedicate the Unit to the Black Marlin Fed Com 114H to be horizontally drilled with the first take point in the NE/4NE/4 (Unit A) of Section 18 and the last take point in the SE/4SE/4 (Unit P) of Section 19 (the "Well").

6. The producing area for the well is expected to be orthodox.

7. **Exhibit A-2** contains the C-102 for the Well.

8. **Exhibit A-3** contains a plat identifying ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests Civitas seeks to pool highlighted in yellow. All the parties are locatable in that Civitas believes it located valid addresses

for them.

9. Civitas conducted a diligent search of all county public records including phone directories and computer databases. Civitas also conducted internet searches to identify all potential addresses and contact information for each interest owner it seeks to pool.

10. Civitas has undertaken diligent, good faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Well but was unable to obtain voluntary agreements from all interest owners.

11. **Exhibit A-4** contains a sample well proposal letter that was sent to interest owners for the Well. The estimated costs reflected on the AFEs are fair, reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

12. In my opinion, Civitas made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.

13. To allow Civitas to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Civitas should be designated as operator of the Well and the Unit.

14. Civitas requests overhead and administrative rates of \$8,500 per month while the Well is being drilled, and \$850 per month while the Well is producing. These rates are fair and are comparable to the rates charged by Civitas and other operators in the vicinity.

15. The attached exhibits were prepared by me or under my supervision or were compiled from company business records.

16. In my opinion, the granting of Civitas's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

17. I understand this Self-Affirmed Statement will be used as written testimony in this case.

I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my signature below.

4. Civitas has sought and been unable to obtain voluntary agreement for the development of these lands from all the interest owners in the Unit.
5. The pooling of all interests in the Unit will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights.

CASE NO. 24838

SELF-AFFIRMED STATEMENT OF
SHANE FINEGAN

1. I am employed by Civitas Permian Operating, LLC ("Civitas") as a petroleum geologist. I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement.

2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters and my credentials were accepted as a matter of record.

3. I am familiar with the geological matters involved in the above-referenced case and have conducted a geologic study of the lands in the subject area.

4. **Exhibit B-1** is a regional locator map identifying the proposed horizontal spacing unit for the captioned case (the "Unit").

5. **Exhibit B-2** is a subsea structure map of the Bone Spring formation. The contour interval is 50 feet. The map demonstrates the formation is gently dipping to the west-southwest in this area. The structure appears consistent across the proposed wellbore path for the Black Marlin 114H well (the "Well"). I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells.

6. **Exhibit B-3** is a stratigraphic cross-section from A to A' using the representative wells identified on Exhibit B-2. It contains gamma ray, resistivity, and porosity logs. The cross section is oriented from southwest to northeast and is hung on the top of the Bone Spring formation. The proposed landing zone for the Well is labeled on the exhibit. This cross-section demonstrates the target interval is consistent in thickness across the Unit.

7. In my opinion, a standup orientation for the Well is appropriate to properly develop the

subject acreage because of consistent rock properties throughout the Unit and is the preferred fracture orientation in this portion of the trend.

8. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will be productive and contribute more or less equally to the production of the Well.

9. In my opinion, granting the application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

10. The attached exhibits were prepared by me or under my supervision or were compiled from company business records.

11. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my signature below.
