CASE NO. 24869

APPLICATION

Matador Production Company (“Matador” or “Applicant”), through its undersigned attorneys, files this application with the Oil Conservation Division to extend the drilling deadline under compulsory pooling Order No. R-22398. In support of its application, Matador states:

1. On November 22, 2022, the Division entered Order R-22398 in Case 22574 pooling the Wolfcamp formation underlying a standard 320-acre horizontal well spacing unit comprised of the E2SE4 of Section 18, the E2E2 of Section 19, and the E2NE4 of Section 30, Township 24 South, Range 36 East, NMPM, Lea County, New Mexico (the “Pooling Order”). Matador is the designated operator under the Pooling Order and the pooled spacing unit is initially dedicated to the proposed **Huneke Fed Com 214H** well.

2. In November of 2023, Matador filed an application in Case 23898 to extend the drilling deadline, noting that the drilling permit filed with the Bureau of Land Management has not been approved. Following a public hearing on the request, the Division issued order R-22398-A extending until November 22, 2024, the period to drill the proposed well.

3. As of the filing of this application, the drilling permit filed with the Bureau of Land Management remains pending for approval.

**CASE NO. 24869
ORDER NO. R-22398-A**

AFFIDAVIT OF DAVID JOHNS

David Johns, of lawful age and being first duly sworn, declares as follows:

1. My name is David Johns. I work MRC Energy Company, an affiliate of Matador Production Company (“Matador”), as a Landman.
2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Matador in this case, and I am familiar with the status of the lands in the subject area.
4. On November 22, 2022, the Division entered Order No. R-22398 (“Pooling Order”) in Case No. 22574 pooling the uncommitted interests in the Wolfcamp formation (Jal; Wolfcamp, West [33813]) underlying a standard 320-acre, more or less, horizontal spacing unit comprised of the E/2 SE/4 of Section 18, the E/2 E/2 of Section 19, and the E/2 NE/4 of Section 30, Township 24 South, Range 36 East, NMPM, Lea County, New Mexico. Matador is the designated operator under the Pooling Order and the pooled spacing unit is initially dedicated to the proposed **Huneke Fed Com 214H** well (API No. 30-025-PENDING).

5. On January 17, 2024, the Division entered Order No. R-22398-A, extending the deadline to commence drilling the initial well under the Pooling Order until November 22, 2024.

6. Matador is eager to develop this acreage and has previously filed its application for a federal APD for the initial well in October 2021. Matador has been unable to drill the initial well yet because our federal APD has not been approved. We understand the permit approval was delayed after third-party litigation was initiated against the Bureau of Land Management regarding certain of its permitting approval processes. We understand the Bureau of Land Management now has a process in place for the review and approval of the drilling permits that were implicated in the litigation and we are optimistic that we will receive an approved drilling permit during the requested extension period of the pooling order. We had anticipated that the federal APD would have been approved in time to commence drilling within the current deadline and have started receiving approvals of other federal permits that had similarly been delayed during the above-referenced third-party litigation; however, since this permit has not yet been approved Matador has filed this application.

7. Once Matador's previously filed federal APD is approved, Matador intends to promptly drill the initial well under the order. Good cause therefore exists to extend the deadline to commence drilling under the order for a year, until November 22, 2025.

8. **Matador Exhibit C-1** is an updated copy of the pooling exhibit for the working interest parties that remain pooled under the order. The changes to the previous list of pooled parties are based on the following: (i) MRC Permian Company leased Jeff Martin and wife, Karen Martin as joint tenants and (ii) MRC Permian Company acquired the working interest of Franklin Mountain Energy, LLC. Both of those parties are therefore no longer listed.

9. None of the working interest owners that remain subject to these pooling orders have been asked at this time to make an election on the applicable well, or to pay their estimated share of the costs to drill, complete and equip the applicable well.

10. The granting of this application will prevent waste and protect correlative rights.

11. **Matador Exhibit C-1** was either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NAUGHT.
