APPLICATION OF COG OPERATING LLC  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.

CASE NO. \_\_\_\_\_

APPLICATION

COG Operating LLC (“COG” or “Applicant”) (OGRID No. 229137), through its undersigned attorneys, files this application with the Oil Conservation Division, pursuant to the provisions of NMSA 1978, Section 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 960.72-acre, more or less, horizontal well spacing unit comprised of W/2 of Sections 19, 30, and 31, Township 25 South, Range 35 East, NMPM, Lea County, New Mexico. In support of this application, COG states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the Dogie Draw; Wolfcamp (Code 17980) Pool.
3. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the following proposed wells:
  - **Pitchblende 19-30 Federal Com 701H** to be horizontally drilled from a surface location in the Lot 1 (NW4NW4, Unit D) of Section 19, with first take point in the Lot 1 (NW4NW4, Unit D) of Section 19 and last take point in the Lot 4 (SW4SW4, Unit M) of Section 31.
  - **Pitchblende 19-30 Federal Com 801H** to be horizontally drilled from a surface location in the NE4NW4 (Unit C) of Section 19, with first take point

in the NE4NW4 (Unit C) of Section 19 and last take point in the SE4SW4 (Unit N) of Section 31.

3. The completed interval of the Pitchblende 19-30 Federal Com 801H is expected to be inside of the 330 feet of the offsetting quarter-quarter section or equivalent tracts, thus this acreage is a standard horizontal well spacing unit.

4. Applicant and its affiliates are the sole working interest owners and record title owner in this proposed unit but seeks a pooling order to commit certain non-cost-bearing owners, including overriding royalty owners, which have yet to ratify the necessary federal communitization agreement which would voluntarily pool their interests.

5. The pooling of interests in the proposed unit will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoiding the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on February 13, and, after notice and hearing as required by law, the Division enter an order:

- A. Approve the standard horizontal well spacing unit and pooling the interests of certain uncommitted non-cost bearing owners therein; and
- B. Designating Applicant as the operator of this spacing unit and the horizontal well to be drilled thereon.

Respectfully submitted,
