APPLICATION OF MRC HAT MESA, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 25028

NOTICE OF REVISED EXHIBITS

MRC Hat Mesa, LLC ("MRC"), applicant in the above-referenced case, gives notice that

it is filing the attached revised exhibit for acceptance into the record.

Revised Exhibit A-3 is an updated pooling exhibit showing the parties and percentages

that have voluntary committed their interest to MRC's proposed development.

Respectfully submitted,

HOLLAND & HART LLP

STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF MRC HAT MESA, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 25028

APPLICATION

MRC Hat Mesa, LLC ("MRC" or "Applicant"), through undersigned attorneys, files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling a standard 320-acre, more or less, horizontal well spacing unit in the Bone Spring formation underlying the W2E2 of Sections 14 and 23, Township 21 South, Range 32 East, NMPM, Lea County, New Mexico. In support of its application, MRC states:

1. Applicant is a working interest owner in the proposed horizontal well spacing units and has the right to drill thereon.

2. Applicant seeks to designate Matador Production Company (OGRID No. 228937) as the operator of the proposed horizontal well spacing units.

3. Applicant seeks to initially dedicate the above-referenced spacing unit the proposed **Blue Chip 1423 Fed 524H, Blue Chip 1423 Fed 553H** and **Blue Chip 1423 Fed 603H** wells to be horizontally drilled from a surface location in the SE4 of Section 11, with first take points in the NW4NE4 (Unit B) of Section 14 and last take points in the SW4SE4 (Unit O) of Section 23.

4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing units.

5. The granting of this application will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on the January 9, 2025, hearing docket and after notice and hearing as required by law, the Division enter an order:

- A. Approving the standard horizontal well spacing unit and pooling all uncommitted interest owners therein;
- B. Designating Matador Production Company as operator of the horizontal well spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the wells;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR MRC HAT MESA, LLC

CASE :

Application of MRC Hat Mesa, LLC for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order pooling a standard 320-acre, mor or less, horizontal well spacing unit in the Bone Spring formation underlying the W2E2 of Sections 14 and 23, Township 21 South, Range 32 East, NMPM, Lea County, New Mexico. Applicant seeks to initially dedicate the above-referenced spacing unit the proposed Blue Chip 1423 Fed 524H, Blue Chip 1423 Fed 553H and Blue Chip 1423 Fed 603H wells to be horizontally drilled from a surface location in the SE4 of Section 11, with first take points in the NW4NE4 (Unit B) of Section 14 and last take points in the SW4SE4 (Unit O) of Section 23. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Matador Production Company as operator of the proposed spacing unit, and a 200% charge for risk involved in drilling the proposed well. The subject area is located approximately 33 miles northeast of Carlsbad, New Mexico.

STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF MRC HAT MESA, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 25028

SELF-AFFIRMED STATEMENT OF ETHAN FRASIER

Ethan Frasier, of lawful age and being first duly sworn, declares as follows:

 My name is Ethan Frasier. I work for MRC Energy Company, an affiliate of MRC Hat Mesa, LLC ("MRC"), as a Landman.

2. I graduated from Texas Tech University in May of 2023 with a bachelor's degree in Energy Commerce with a focus in Petroleum Land Management. During my time at Texas Tech University, I worked at ConocoPhillips as a Land Negotiator Intern starting in May of 2022, and ending in August of 2022. Following my internship with ConocoPhillips I worked part time with Angel & Donohue Oil and Gas Properties, Inc. from January of 2023 to May of 2023, where I ran courthouse documents and assembled title runsheets. Since Graduation, I have been at Matador and have worked as a landman in their New Mexico and Texas Delaware Basin assets. My responsibilities as a Landman include but are not limited to Acquisitions and Divestitures, Negotiating, Due Diligence, and Land Operations within the Oil and Gas industry. I am a registered and active member of the American Association of Professional Landmen (AAPL), and the Dallas Association of Professional Landmen (DAPL).

3. I am familiar with the application filed by MRC in this case, and I am familiar with the status of the lands in the subject area.

BEFORE THE OIL CONSERVATION DIVISION Santa Fe, New Mexico Exhibit No. A Submitted by: Matador Production Company Hearing Date: February 13, 2025 Case No. 25028 4. In this case, MRC is seeking an order pooling all uncommitted interests in a standard 320-acre, more or less, horizontal well spacing unit in the Bone Spring formation underlying the W/2 E/2 of Sections 14 and 23, Township 21 South, Range 32 East, NMPM, Lea County, New Mexico, and initially dedicate this Bone Spring spacing unit to the proposed **Blue Chip 1423 Fed 524H**, **Blue Chip 1423 Fed 553H and Blue Chip 1423 Fed 603H** wells to be horizontally drilled from a surface location in the SE4 of Section 11, with first take points in the NW4NE4 (Unit B) of Section 14 and last take points in the SW4SE4 (Unit O) of Section 23.

5. MRC understands these wells will be placed in the WC-025 G-06 S213215A; BONE SPRING [97921] pool.

6. **MRC Exhibit A-1** contains the Form C-102s for the proposed initial wells.

7. The completed intervals for the proposed wells will remain within the standard setbacks required by the statewide rules set forth in 19.15.16.15 NMAC.

8. **MRC Exhibit A-2** identifies the tracts of land comprising the proposed horizontal spacing unit. The land in the proposed spacing unit is comprised entirely of federal lands.

9. MRC Exhibit A-3 identifies the working interest owners that MRC is seeking to pool along with their ownership interest in the proposed horizontal spacing unit. MRC Exhibit A-3 also includes a list of the overriding royalty and record title interest owners that MRC seeks to pool in this case.

10. There are no depth severances within the Bone Spring formation for this acreage.

11. While MRC was working to put this unit together, MRC proposed the above well to the working interest parties it seeks to pool. MRC Exhibit A-4 contains a copy of the representative example of the well proposal letters that were sent to the working interest partners

2

at various times, along with the AFE that was sent for each well. The costs reflected in the AFEs are consistent with what other operators have incurred for drilling similar horizontal wells in the area. **MRC Exhibit A-4** also contains a copy of a recent letter MRC sent to the working interest parties it seeks to pool regarding a change of certain well locations within the spacing unit.

12. **MRC Exhibit A-5** contains a summary of MRC's contacts with the uncommitted working interest owners we seek to pool in this case. As indicated on MRC Exhibit A-5, MRC has been able to contact and have discussions with a number of the working interest owners that MRC seeks to pool. As shown on Exhibit A-5, there are a few owners MRC has not yet been able to speak with despite attempting multiple phone calls, but it appears that MRC's well proposals were delivered to those owners. In my opinion, MRC has undertaken good faith efforts to reach an agreement with the uncommitted working interest owner that MRC seeks to pool in this case.

13. MRC has made an estimate of overhead and administrative costs for drilling and producing the proposed wells. It is \$10,000/month while drilling, and \$1,000/month while producing. These costs are consistent with what other operators are charging in this area for these types of wells. MRC respectfully requests that these administrative and overhead costs be incorporated into any order entered by the Division in this case.

14. I provided MRC's outside counsel, Holland & Hart, a list of names and addresses for the parties that MRC is seeking to pool. In compiling this notice list, MRC conducted a diligent search of all public records in the county where the proposed wells are located, including computer searches.

15. **MRC Exhibits A-1 through A-5** were either prepared by me or compiled under my direction and supervision.

3

16. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature

below.

Re: Blue Chip 1423 Fed 501H, 503H, 502H, 504H, 511H, 513H, 522H, 524H, 551H, 553H, 601H, 603H, 702H & 704H (the "Wells") Participation Proposal E/2 of Section 14 & 23, Township 21 South, Range 32 East Lea County, New Mexico

Dear Sir/Madam:

MRC Permian Company ("MRC") proposes the drilling of Matador Production Company's Blue Chip 1423 Fed #501H, Blue Chip 1423 Fed #503H, Blue Chip 1423 Fed #502H, Blue Chip 1423 Fed #504H, Blue Chip 1423 Fed #511H, Blue Chip 1423 Fed #513H, Blue Chip 1423 Fed #522H, Blue Chip 1423 Fed #524H, Blue Chip 1423 Fed #551H, Blue Chip 1423 Fed #601H, Blue Chip 1423 Fed #603H, Blue Chip 1423 Fed #702H & Blue Chip 1423 Fed #704H wells, located in E/2 of Section 14 & 23, Township 21 South, Range 32 East, Lea County, New Mexico.

In connection with the above, please note the following:

- The estimated cost of drilling, testing, completing, and equipping of each Well is itemized on the fourteen (14) enclosed Authority for Expenditures ("AFE") dated July 15, 2024
- Blue Chip 1423 Fed #501H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 990' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 990' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Avalon formation and will be drilled horizontally in the Avalon (~9,500'TVD) to a Measured Depth of approximately 19,227'.
- Blue Chip 1423 Fed #503H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 2310' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 2310' FEL and 100' FSL of Section 23-21S- 32E. The Well will have a targeted interval within the Avalon formation and will be drilled horizontally in the Avalon (~ 9,500'TVD) to a Measured Depth of approximately 19,227'.

- Blue Chip 1423 Fed #502H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 495' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 495' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the First Bone Spring formation and will be drilled horizontally in the First Bone Spring (~ 10,050'TVD) to a Measured Depth of approximately 20,327'.
- Blue Chip 1423 Fed #504H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 1815' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 1815' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the First Bone Spring formation and will be drilled horizontally in the First Bone Spring (~ 10,050'TVD) to a Measured Depth of approximately 20,327'.
- Blue Chip 1423 Fed #511H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 990' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 990' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Second Bone Spring formation and will be drilled horizontally in the Second Bone Spring (~ 10,400'TVD) to a Measured Depth of approximately 21,027'.
- Blue Chip 1423 Fed #513H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 2310' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 2310' FEL and 100' FSL of Section 23-21S- 32E. The Well will have a targeted interval within the Second Bone Spring formation and will be drilled horizontally in the Second Bone Spring (~ 10,400'TVD) to a Measured Depth of approximately 21,027'.
- Blue Chip 1423 Fed #522H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 495' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 495' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Second Bone Spring formation and will be drilled horizontally in the Second Bone Spring (~ 10,850'TVD) to a Measured Depth of approximately 21,927'.
- Blue Chip 1423 Fed #524H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 1815' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 1815' FEL and 100' FSL of Section 23-21S- 32E. The Well will have a targeted interval within the Second Bone Spring formation and will be drilled horizontally in the Second Bone Spring (~ 10,850'TVD) to a Measured Depth of approximately 20,927'.
- Blue Chip 1423 Fed #551H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 990' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 990' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Third Bone Spring formation and will be drilled horizontally in the Third Bone Spring (~ 11,150'TVD) to a Measured Depth of approximately 22,527'.

- Blue Chip 1423 Fed #553H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 2310' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 2310' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Third Bone Spring formation and will be drilled horizontally in the Third Bone Spring (~ 11,150'TVD) to a Measured Depth of approximately 22,527'.
- Blue Chip 1423 Fed #601H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 660' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 660' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Third Bone Spring formation and will be drilled horizontally in the Third Bone Spring (~ 11,720'TVD) to a Measured Depth of approximately 23,667'.
- Blue Chip 1423 Fed #603H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 1980' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 1980' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Third Bone Spring formation and will be drilled horizontally in the Third Bone Spring (~ 11,720'TVD) to a Measured Depth of approximately 23,667'.
- Blue Chip 1423 Fed #702H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 600' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 600' FEL and 100' FSL of Section 23-21S-32E. The Well will have a targeted interval within the Wolfcamp D formation and will be drilled horizontally in the Wolfcamp D (~ 12,650'TVD) to a Measured Depth of approximately 25,527'.
- Blue Chip 1423 Fed #704H: to be drilled from a legal location with a proposed surface hole location located in the S2SE4 of Section 11-21S-32E, a proposed first take point located at 1980' FEL and 100' FNL of Section 14-21S-32E and a proposed last take point located at 1980' FEL and 100' FSL of Section 23-21S- 32E. The Well will have a targeted interval within the Wolfcamp D formation and will be drilled horizontally in the Wolfcamp D (~ 12,650'TVD) to a Measured Depth of approximately 25,527'.

MRC reserves the right to modify the locations and drilling plans described above in order to address topography, cultural or environmental concerns, among other reasons. MRC will advise you of any such modifications.

MRC requests that you indicate your election to participate in the drilling and completion of the Wells in the space provided below, sign and return one (1) copy of this letter to the undersigned.

MRC is proposing to drill the Wells under the terms of the modified 1989 AAPL form of Operating Agreement, which is enclosed for your review. The proposed Operating Agreement dated August 1, 2024, by and between Matador Production Company, as Operator and MRC Permian Company et al as Non-Operators, covers all depths of the E/2 of Sections 14 & 23, Township 21 South, Range 32 East, Lea County, New Mexico, being 640.00 acres, more or less, and has the following general provisions:

- 100/300/300 Non-consenting penalty
- \$10,000/\$1,000 Drilling and Producing rate
- Matador Production Company named as Operator

If your election is to participate in the drilling and completion of the Wells, please sign and return a copy of the enclosed AFEs within thirty (30) days of receipt of this notice. Please be aware that the enclosed AFEs are only an estimate of costs to be incurred and by electing to participate in the Wells, each working interest owner shall be responsible for its proportionate share of all costs incurred.

.

Thank you for your consideration of this proposal. Please contact me if you have any questions.

Sincerely,

MRC PERMIAN COMPANY

fter the

Ethan Frasier

The costs on this AFE are estimates only and may not be construed as ceilings on any specific item or the total cost of the project. Tubing installation approved under the AFE may be delayed up to a year after the well has been completed. In executing this AFE, the Participant agrees to pay its proportionate share of actual costs incurred, including, legal, curative, regulatory, brokenage and well costs under the terms of the applicable joint operating agreement, regulatory order or other agreement covering this well. Participants shall be covered by and billed proportionately for Operator's well control and general liability insurance unless participant provides Operator a certificate evidencing its own insurance in an amount acceptable to the Operator by the date of spud.

Re: Blue Chip 1423 Fed Com 522H, 524H, 551H, 553H, 601H, 603H & 702H (the "Wells") Participation Proposal E/2 of Section 14 & 23, Township 21 South, Range 32 East Lea County, New Mexico

Dear Sir/Madam:

By letter dated August 6, 2024, MRC Permian Company ("MRC") previously proposed the drilling of Matador Production Company's, Blue Chip 1423 Fed #522H, Blue Chip 1423 Fed #524H, Blue Chip 1423 Fed #551H, Blue Chip 1423 Fed #553H, Blue Chip 1423 Fed #601H, Blue Chip 1423 Fed #603H and Blue Chip 1423 Fed #702H wells, located in E/2 of Section 14 & 23, Township 21 South, Range 32 East, Lea County, New Mexico.

In connection with the above, I am writing to clarify that the proposed first and last take points of these seven wells have been changed. Please find the changes below. The prior proposals for these seven wells remain otherwise unchanged.

STATE OF NEW MEXICO ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF MRC HAT MESA, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 25027 and 25028

SELF-AFFIRMED STATEMENT OF ANNA THORSON

 My name is Anna Thorson. I work for MRC Energy Company, an affiliate of MRC Hat Mesa, LLC ("MRC"), as a Geologist.

2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by MRC in these cases, and I have conducted a geologic study of the lands in the subject area.

4. **MRC Exhibit B-1** is a locator map outlining the horizontal spacing units with a black box shaded in yellow, with the larger area identified in a red box.

5. In these cases, MRC intends to develop three different targets within the Bone Spring formation, being the Second Bone Spring Sandstone, Third Bone Spring Carbonate, and Third Bone Spring Sandstone.

6. **MRC Exhibit B-2** is a subsea structure map prepared off the top of the Bone Spring formation. The contour interval is 100 feet. The structure map shows the Bone Spring formation gently dipping to the south/southeast. The structure appears consistent across the proposed wellbore path. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

BEFORE THE OIL CONSERVATION DIVISION Santa Fe, New Mexico Exhibit No. B Submitted by: Matador Production Company Hearing Date: February 13, 2025 Case No. 25028

7. Also included on MRC Exhibit B-2 is a line of cross section from A to A'.

8. **MRC Exhibit B-3** is a structural cross-section displaying open-hole logs run over the Bone Spring formation from the four representative wells denoted from A to A'. For each well in the cross-section, the following logs are included: gamma ray, caliper, resistivity, and porosity, where available. The proposed target intervals for the proposed wells are labeled and marked with a yellow shaded area. The logs in the cross-section demonstrate that the targeted intervals, within the Bone Spring formation, are consistent in thickness across the entirety of the proposed spacing unit.

9. In my opinion, the standup well orientation is the preferred orientation for development in this area for Bone Spring wells based on the maximum horizontal stress orientation in the area.

10. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells within the Bone Spring formation in the area of the spacing units proposed in these cases.

11. In my opinion, each quarter-quarter section will be productive and contribute moreor-less equally to production from the horizontal spacing units.

12. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.

13. In my opinion, approving MRC's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

14. **MRC Exhibits B-1 through B-3** were either prepared by me or compiled under my direction and supervision.

2

I affirm under penalty of perjury under the laws of the State of New Mexico 15. that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

APPLICATION OF MRC HAT MESA, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. 25028

<u>SELF-AFFIRMED STATEMENT OF</u> <u>MICHAEL H. FELDEWERT</u>

1. I am attorney in fact and authorized representative of MRC Hat Mesa, LLC ("MRC"), the Applicant herein. I have personal knowledge of this matter addressed herein and am competent to provide this self-affirmed statement.

2. The above-referenced application and notice of the hearing on this application was sent by certified mail to the affected parties on the date set forth in the letter attached hereto.

3. The spreadsheet attached hereto contains the names of the parties to whom notice was provided.

4. The spreadsheet attached hereto contains the information provided by the United States Postal Service on the status of the delivery of this notice as of December 27, 2024.

5. I caused a notice to be published to all parties subject to these proceedings.

An affidavit of publication from the publication's legal clerk with a copy of the notice publication is attached herein.

6. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statement are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Re: Application of MRC Hat Mesa, LLC for Compulsory Pooling, Lea County, New Mexico: *Blue Chip 1423 Fed 524H, 553H and 603H wells*

Ladies & Gentlemen:

This letter is to advise you that MRC Hat Mesa, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on January 9, 2025, and the status of the hearing can be monitored through the Division's website at <u>https://www.emnrd.nm.gov/ocd/</u>.

It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Ethan Frasier at (972) 371-5401 or at ethan.frasier@matadorresources.com.

Sincerely,

Michal + Fillewers
