CASE NO. 25048

NOTICE OF SECOND AMENDED EXHIBIT PACKET

Riley Permian Operating Company, LLC, (“Riley”) provides notice that it is amending the evidentiary record in this case, pursuant to a request from Oil Conservation Division Technical Staff member, Mr. Dean McClure, with respect to the following application materials:

- Amending Exhibit C, Affidavit of Landman Mark Smith, to describe Riley’s relationship with Pecos Oil & Gas, LLC; as well as clearly outlining the parties subject to compulsory pooling under this application.
- Amending Exhibit C-4 to clearly reflect the parties subject to compulsory pooling under this application.

Riley also submitted a First Amended Exhibit Packet on February 12, 2025 that reflected the following materials:

- Amending the Compulsory Pooling Application Checklist “Pool Name and Pool Code” field to reflect the RED LAKE;GLORIETA-YESO (51120).
- Amending the Compulsory Pooling Application Checklist to reflect that the proposed horizontal spacing unit is standard instead of non-standard.
- Providing a higher resolution Stratigraphic Cross-Section Locater Map copy of Exhibit D-4.
- Providing an amended Exhibit E notice spreadsheet that includes certified mail tracking numbers.

Respectfully submitted,

BEATTY & WOZNIAK, P.C.

APPLICATION OF RILEY PERMIAN
OPERATING COMPANY, LLC FOR
APPROVAL OF NON-STANDARD
HORIZONTAL SPACING UNIT AND
COMPULSORY POOLING, EDDY
COUNTY, NEW MEXICO

Case No. _____

APPLICATION

Riley Permian Operating Company, LLC, OGRID No. 372290 (“Riley” or “Applicant”), through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17 and 19.15.16.15(B)(5) NMAC, for an order (1) approving a 160-acre, more or less, non-standard horizontal spacing unit (“HSU”) composed of the S/2 N/2 of Section 33, Township 17 South, Range 27 East, N.M.P.M. (the “Application Lands”), and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said HSU. ”), and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said HSU.

In support of its Application, Riley states the following:

1. Riley is a working interest owner in the Application Lands and has a right to drill wells thereon as the designated Operator of the Application Lands.
2. Riley seeks to dedicate all of the Application Lands to form a 160-acre, more or less, HSU.
3. Riley seeks to dedicate the above-referenced HSU to the following proposed wells:
 - A. **Eagle 33 Fed Com #007H** (API No. 30-015-49713), which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of

Section 34, Township 17 South, Range 27 East, to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33, Township 17 South, Range 27 East;

B. **Eagle 33 Fed Com #008H** (API No. 30-015-49714), which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of Section 34, Township 17 South, Range 27 East, to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33, Township 17 South, Range 27 East;

4. The wells are orthodox in their location as defined by 19.15.16.15.(C) NMAC, and the take points and laterals comply with Statewide Rules for setbacks under 19.15.16.15.(C) NMAC.

5. Riley has sought in good faith but has been unable to obtain voluntary agreement from all interest owners in the Yeso Formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.

6. The pooling of all interests in the Yeso Formation within the proposed unit will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. Approval of a non-standard horizontal spacing unit is necessary to prevent waste and protect correlative rights.

8. To provide for its just and fair share of the oil and gas underlying the subject lands, Riley requests that all uncommitted interests in this HSU be pooled and that Riley be designated as the operator of the proposed horizontal wells and HSU.

WHEREFORE, Riley requests this Application be set for hearing on January 9th, 2025, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

- A. Approving the creation of an approximately 160-acre non-standard HSU, composed of the Application Lands, pursuant to 19.15.16.15(B)(5) NMAC;
- B. Pooling all uncommitted interests in the Yeso Formation underlying the HSU within the Application Lands;
- C. Approving the **Eagle 33 Fed Com #007H** and **Eagle 33 Fed Com #008H** as the wells for the HSU.
- D. Designating Riley as operator of the HSU and the horizontal wells to be drilled thereon;

Respectfully submitted,

BEATTY & WOZNIAK, P.C.

Attorneys for Riley Permian Operating Company.

Application of Riley Permian Operating Company, LLC for Approving a Non-Standard Horizontal Spacing Unit and Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Division: (1) approving a 160-acre, more or less, non-standard horizontal spacing and proration unit composed of all of the S/2 N/2 of Section 33, Township 17 South, Range 27 East, N.M.P.M.; and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said unit. The proposed wells to be dedicated to the horizontal spacing unit are the: **Eagle 33 Fed Com #007H**, which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of Section 34 to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33; and the **Eagle 33 Fed Com #008H**, which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of Section 34 to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33. The wells are orthodox in location, and the take points and laterals comply with Statewide Rules for setbacks. The wells and lands are located approximately 8 miles southeast from Artesia, New Mexico.

OPERATING, LLC FOR APPROVAL OF NON-
STANDARD HORIZONTAL SPACING UNIT
AND COMPULSORY POOLING, EDDY
COUNTY, NEW MEXICO**

CASE NO. 25048

AFFIDAVIT OF MARK SMITH

Mark Smith, being first duly sworn upon oath, deposes and states as follows:

1. My name is Mark Smith, and I am employed by Riley Permian Operating Company, LLC (“Riley”) as a Senior Landman.

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my qualifications as an expert in petroleum land matters were accepted and made a matter of record. I have several years of experience in petroleum land matters, and I have worked directly or in a supervisory role with the properties that are the subject of this matter.

3. I am familiar with the application filed by Riley in the above-referenced case and the status of the lands in the subject lands.

4. I am submitting this affidavit in support of Riley’s application in the above-referenced case, as required by the Pre-Hearing Order issued by the Division. I intend to present this case by affidavit pursuant to 19.15.4.12.(A)(1) NMAC.

5. Under Case No. 25048, Riley seeks an order (1) approving a non-standard 160 - acre, more or less, horizontal spacing unit (“HSU”) underlying the Application Lands, and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said HSU.

6. **Riley Exhibit C-1** is a general location map showing the proposed Yeso formation spacing unit. The acreage subject to the applications are federal and state lands.

7. **Riley Exhibit C-2** contains the Form C-102s reflecting that the proposed Yeso wells to be drilled and completed in the subject unit. The location of each well is orthodox and meets the Division's offset requirements.

8. A review of the Yeso formation underlying the subject lands indicated that there are no overlapping spacing units in this formation.

9. **Riley Exhibit C-3** outlines the proposed Yeso units and tracts therein.

10. **Riley Exhibit C-4** sets forth the ownership of the parties being pooled in the Yeso Formation and the nature of their interests; Uncommitted and Committed parties that are being pooled and/or subject to a Joint Operating Agreement. These exhibits identify the tract number and spacing unit percentage interest for each mineral owner. Exhibit C-4 also sets forth Riley's relationship with Pecos Oil & Gas, LLC ("Pecos"). Riley Permian Operating, LLC and Riley Exploration-Permian, LLC are the successor-in-interest to certain operating rights of Pecos within the Application lands. Riley purchased these certain operating rights from Pecos in 2023. However, the lease records maintained by the BLM still shows Pecos as the operating rights owner as to certain leases. As such, Exhibit C-4 reflects Pecos as the WI interest owner as to certain interests in accordance with BLM records; but based upon the contractual agreements and other assignments between Pecos and Riley, Riley has obtained all the operating rights and interests of Pecos in the Application Lands.

The parties being pooled as shown on this Exhibit are SEP Permian Holding Corp. (Spur Energy Partners), and XTO Holdings LLC.

11. **Riley Exhibit C-5** is a map depicting the non-standard spacing unit in relation to the outline of a standard spacing unit. The map also identified the interest owners in the tracts surrounding the proposed units, who were also provided notice of the applications.

12. Riley's request for approval of non-standard spacing unit will allow it to consolidate surface facilities and will consequently prevent surface, environmental, and economic waste. As a result, approval of the proposed non-standard spacing unit is necessary to prevent waste and protect correlative rights.

13. **Riley Exhibit C-6** contains a sample well proposal letter sent in October of 2024 to each mineral interest owner and/or working interest owner.

14. **Riley Exhibit C-7** contains the AFE for each proposed well. The estimated costs of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

15. Riley requests overhead and administrative rates of \$8,000/month for drilling each well and \$800/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of New Mexico. Riley respectfully requests that these administrative and overhead costs be incorporated into any orders entered by the Division in these cases.

16. Riley requests the maximum cost, plus 200% risk charge be assessed against nonconsenting working interest owners.

17. **Riley Exhibit C-8** sets forth a chronology of the contacts with owners. Riley has made a good faith effort to obtain voluntary joinder of the interest owners in the proposed wells.

In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located, and of phone directories and did computer

searches to locate the contact information for parties entitled to notification. All interest owners were locatable and noticed, and there are no unleased mineral interest owners. Riley caused notice to be published in the Carlsbad-Current Argus, a newspaper of general circulation in Eddy County, New Mexico. I provided the law firm of Beatty & Wozniak, P.C., with the names and addresses for these mineral owners and instructed that each owner be provided notice of the hearing in these matters.

18. **Riley Exhibit C-9** provides a map of existing vertical wells in the proposed HSU. Riley provided notice of the application in this case to the operators of those wells, as required by 19.15.16.15.(B)(9) NMAC.

19. Riley requests that it be designated operator of the unit and wells.

20. **Exhibit C-1** through **Exhibit C-9** were either prepared by me or compiled from Riley’s company business records under my direction and supervision.

21. The granting of this application for compulsory pooling and approval of non-standard spacing unit is in the best interest of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

22. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

RE: Well Proposal
Eagle 33 Federal Com 7H & Eagle 33 Federal Com 8H
S/2 N/2 Section 33, T17S-R27E
Eddy County, New Mexico

Dear Working Interest Owner:

Riley Permian Operating Company, LLC ("Riley"), hereby proposes to drill and complete the Eagle 33 Federal Com 7H and 8H wells to the approximate total vertical depths as referenced below as horizontal Yeso wells (the "Subject Wells") at the following proposed locations (subject to change upon staking and survey).

Eagle 33 Federal Com 7H – Horizontal Yeso Well, Eddy County, NM

Proposed Surface Hole Location – 1816' FNL & 688' FWL, Section 34, T17S-R27E
Proposed Bottom Hole Location – 1750' FNL & 1' FWL, Section 33, T17S-R27E
TVD:3,400'

Eagle 33 Federal Com 8H – Horizontal Yeso Well, Eddy County, NM

Proposed Surface Hole Location – 1836' FNL & 688' FWL, Section 34, T17S-R27E
Proposed Bottom Hole Location – 2160' FNL & 1' FWL, Section 33, T17S-R27E
TVD:3,100'

Riley proposes to form a Drilling Spacing Unit ("DSU") covering the S/2 N/2 of Section 33-T-17S-R27E, Eddy County, New Mexico, containing 160 acres of land, more or less, limited to the Yeso Formation, ("Contract Area"). Portions of these lands may be governed by existing Joint Operating Agreements ("JOAs") which also cover the Yeso formation, and which may govern operations for vertical wells. For the mutually exclusive development of horizontal wells, and any concept wells (i.e. micro seismic wells, pilot hole wells) within the DSU, Riley proposes creating a new Joint Operating Agreement dated November 1, 2024, being a modified 2015 Horizontal AAPL Form 610 Operating Agreement ("NJOA") to govern proposals and operations within the DSU.

The NJOA shall supersede and replace any existing operating agreements covering any or all of the same Contract Area, and shall be expressly limited however, to horizontal well development and operations, and any related concept wells (i.e. micro seismic wells and pilot hole wells) within the DSU. The NJOA has the following general provisions:

Eagle 33 Federal Com 7H & 8H
S/2 N/2 of Section 33, T17S, R27E
Eddy County, New Mexico
October 30, 2024

- Effective Date of November 1, 2024
- Contract Area consisting of the S/2 N/2 of Section 33-T17S-27E
- Limited to the Yeso Formation
- 100% / 300% / 300% non-consenting penalty
- \$8,000 / \$800 drilling and producing monthly overhead rate
- Riley Permian Operating Company, LLC named Operator

The enclosed AFEs reflect the total estimated drilling and completion costs for each well. The AFEs are an estimate only and those parties electing to participate in the Subject Wells shall be responsible for their share of actual well costs, whether more or less than those shown on the enclosed AFEs.

Riley respectfully requests that you select one of the following three options with regard to your interest in the proposed wells. Please make an election for each such well:

Option 1: Participate in the drilling and completion of the proposed well and agree to enter into the NJOA with the terms specified above.

Option 2: Not participate in the proposed wells (an election of "Non-Consent")

Should you election Option 1 or Option 2, Riley will send the NJOA for your review and execution. If you prefer to review the NJOA prior to making an election, please request a copy by email and Riley will supply the NJOA. In the event you are interested in selling your interest in the DSU to Riley, please contact the undersigned.

Riley looks forward to working with you on this matter. However, if a voluntary agreement cannot be reached within 30 days of the receipt date of this proposal, please be advised Riley may apply to the New Mexico Oil Conservation Division for Compulsory Pooling of any uncommitted interest owners into a spacing unit for the proposed wells.

Please indicate your elections as to the Subject Wells in the spaces provided below and execute and return a copy of this letter (together with a signed copy of each AFE for any well(s) you elect to participate in) to the undersigned within 30 days of receipt of this proposal. Should you have any questions regarding this proposal, please contact Mark Smith at 405-415-8925 or marksmith@rileypermian.com. Thank you very much for your assistance and cooperation.

Best Regards,

Mark W. Smith
Sr. Landman

Eagle 33 Federal Com 7H & 8H

OIL CONSERVATION DIVISION

APPLICATION OF RILEY PERMIAN
OPERATING COMPANY, LLC FOR
APPROVAL OF NON-STANDARD
HORIZONTAL SPACING UNIT AND
COMPULSORY POOLING, EDDY COUNTY,
NEW MEXICO

CASE NO. 25048

AFFIDAVIT OF DOUG STANDART

Doug Standart, being first duly sworn upon oath, deposes and states as follows:

1. My name is Doug Standart, and I am employed by Riley Permian Operating Company, LLC (“Riley”) as a Senior Geologist.
2. I have not testified before the New Mexico Oil Conservation Division (“Division”), and my qualifications as an expert in petroleum geology have not been accepted and made a matter of record. I have 10 years of experience in petroleum geological matters, and I have worked directly or in a supervisory role with the properties that are the subject of this matter.
3. I am familiar with the applications filed by Riley in this case and the geology involved.
4. I am submitting this affidavit in support of Riley’s application in the above-referenced case, as required by the Pre-Hearing Order issued by the Division. I intend to present this case by affidavit pursuant to 19.15.4.12.(A)(1) NMAC.
5. **Riley Exhibit D-1** includes a base map of the lands showing the proposed Yeso formation spacing unit and wells, as well as a stress orientation map and the proposed well development plan.

6. **Riley Exhibit D-2** is a structure map showing the depth (subsea) to the top of the Yeso formation, a marker that defines the top of the target interval for the proposed wells. Contour interval of 20. The unit being pooled is outlined in bold, and the proposed wells are identified. The structure map shows regional down-dip to the south. I do not observe any faulting, pinchouts, or other geologic impediments to developing this target interval.

7. **Riley Exhibit D-3** provides a cross-section locator map that identifies wells penetrating the targeted interval used to construct a structural cross-section from A to A'. These wells penetrate the targeted interval, are of good quality, and are representative of the geology in the area.

8. **Riley Exhibit D-4** includes stratigraphic cross-section flattened on the top of the proposed Yeso formation. Each well in the cross-section contains a gamma ray, resistivity, and porosity log. The cross-sections demonstrate continuity and consistent thickness across the target zone, and the well logs on the cross-section give a representative sample of the targeted interval. The landing zone is highlighted on the exhibit.

9. **Riley Exhibit D-5** shows horizontal development within the Yeso formation in the vicinity of the proposed unit.

10. Based on the attached exhibits, I hereby conclude as follows:

a. The target formation is present and continuous throughout the lands subject to the applications.

b. The non-standard horizontal spacing and proration unit is justified from a geologic standpoint.

c. There are no structural impediments or faulting that will interfere with horizontal development.

d. Each quarter-quarter section in the unit will contribute more or less equally to production, and I can confirm each quarter section along the lateral will also contribute more or less equally to production.

e. The preferred well orientation in this area is East-West so that the wells run sub-perpendicular to the inferred orientation of the maximum horizontal stress. The standup orientation will efficiently and effectively develop the subject acreage.

11. **Exhibit D-1** through **Exhibit D-5** were prepared by me or compiled from Riley's company business records under my direct supervision.

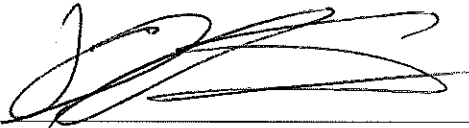

12. The granting of these applications is in the best interest of conservation, the prevention of waste, the protection of correlative rights, and will avoid the drilling of unnecessary wells.

13. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

[Remainder of page left intentionally blank]

FURTHER AFFIANT SAYETH NOT.

Dated this 7th day of January, 2025.

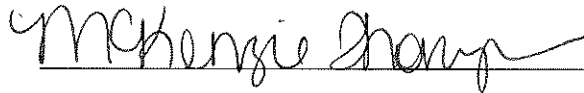

Doug Standart
Riley Permian Operating Company, LLC

- 2013 Bruce Davidson Award recipient

PROFILE

Senior petroleum geologist with operational and development experience in multiple onshore U.S. basins (Permian, Oklahoma, North Dakota, and Gulf Coast), as well as shallow and deep-water plays in West Africa. Excel at leveraging the skills of a multidisciplinary team to efficiently develop assets while maximizing returns. Passionate about applying new ideas to old plays and challenging conventional thinking.

WORK EXPERIENCE**Senior Geologist**

Riley Exploration Permian

Apr. 2021 - Current

- Focused on maximizing IRR and finding upside in the Permian Basin and Western Gulf Coast.
- Utilized advanced geologic mapping, play assessment, and geomodelling techniques to identify and evaluate drilling prospects in heavily faulted environments or complex shelf-slope interfaces.
- Spearheaded multiple data acquisition programs in the Permian involving geochemical sampling, specialty log suites (NMR, dipole sonic, etc.), and core acquisition/analysis (whole and side wall).
 - Acquisitions helped create a robust petrophysical model for the Delaware Slope leading to a 25% increase in inventory where resource density is high, and a better understanding of drained rock volume in the Yeso.
- Heavily involved in A&D looking for opportunities that achieve strategic goals and maximize 3-year CAGR.
 - Led efforts to establish type curves, effectively communicate risk, and identify remaining inventory in Riley's 11,700-acre acquisition in Eddy County, NM. Team's work led to adding +100 gross locations with 22 more locations being added post-closing through bolt-on and trade efforts. +72 MMBO in recoverable reserves.
 - Built Geographix and ArcPro projects from scratch to evaluate data rooms in plays across the lower 48 (Permian, Tobosa, Gulf Coast, Bakken, Haynesville, Powder, DJ, San Juan, Uintah).
- Employ Enverus to optimize learnings from competitor intelligence efforts and monitoring permitting activity.
 - Analysis of fluid and proppant intensity of slickwater jobs on Yeso Trend has led to a 6% reduction in well costs through more efficient stimulation.
- Mentored junior geologists and ensured effective knowledge transfer within the team.

Oklahoma Development/Exploration Geologist

Marathon Oil

Mar. 2018 - Feb. 2021

- Led the development of the East STACK and North SCOOP plays, utilizing time-lapse geochemistry to optimize well spacing and targeting strategies.
 - Leveraged Spotfire to visualize production allocation data, leading to a better understanding of reservoir behavior through time and a recommendation to reduce completion sizes that reduced well costs by over 5%.
 - Generated geologic model in East STACK using Petrel. Integrated 3D seismic, core, and well log data to understand rock type distribution and optimal landing targets in the Meramec.
- Developed resource in place, isopach, structure, and reservoir quality maps to identify high resource potential while prioritizing areas with efficient operational costs to maximize ROR and NPV. Analyzed production data to generate area specific type curves for multiple formations and phase windows. Work led to the identification of over 6,000 contiguous acres with co-development potential in the Sycamore and Woodford.
- Collaborated with reservoir engineers to evaluate leasing opportunities and develop accurate economic models for multiple Pennsylvanian, Mississippian, and Woodford prospects.

North Dakota Development/Operations Geologist

Marathon Oil

Jan. 2015 - Mar. 2018

- Achieved a +95% in-zone percentage while steering over 50 horizontal wells in the Bakken and Three Forks using StarSteer, maximizing wellbore exposure to optimize production.
- Utilized 3D seismic and core data to build geological models that identified top-tier acreage with significant unconventional resource potential (Three Forks benches). Added +12 Second Bench locations on flanks of Nesson and Antelope structural highs with EURs over 700M BO.
- Proposed and executed a time-lapse geochemistry project in the Bakken and Three Forks benches, leading to a better understanding of stimulated rock volume and optimized well spacing.
- Developed an algorithm using Python and VBA to identify parent-child well relationships, facilitating efficient production forecasting for unconventional assets. Algorithm estimated reservoir depletion as a function of distance and total fluid drained. Work was adopted corporate wide for all unconventional infill forecasting.
- Mentored intern in a project that involved the petrophysical evaluation of the Pronghorn member.

Geoscience Intern

Marathon Oil

May - Aug. 2014

- Evaluated hydrocarbon potential of the offshore Madiela Play (Gabon) using seismic interpretation, structural reconstructions, and basin modeling techniques.
- Performed well correlations and distinguished various members of the Madiela Formation, contributing to the identification of 3 post-salt exploration prospects.
- Generated a play fairway analysis map, assisting the team in risk assessment and exploration prioritization.

TO: ALL INTEREST OWNERS SUBJECT TO SPACING AND POOLING PROCEEDINGS

Re: Application of Riley Permian Operating Company, LLC for Approval of a Non-Standard Horizontal Spacing Unit and Compulsory Pooling in Eddy County, New Mexico (Case No. 25048)

Dear Interest Owners:

This letter is to advise you that Riley Permian Operating Company, LLC (“Riley”) has filed the enclosed application, Case No. 25048, with the New Mexico Oil Conservation Division for Approval of a Non-Standard Spacing Unit and Compulsory Pooling in Eddy County, New Mexico.

In Case No. 25048, Riley seeks an Order from the Division to: (1) approve a 160-acre, more or less, non-standard horizontal spacing and proration unit composed of all of the S/2 N/2 of Section 33, Township 17 South, Range 27 East, N.M.P.M. Eddy County, New Mexico; and (2) to pool all uncommitted mineral interests in the Yeso formation, designated as an oil pool, underlying said unit.

A hearing has been requested before a Division Examiner on January 9, 2025, and the status of the hearing can be monitored through the Division’s website. Division hearings will commence at 9:00 a.m. MST and will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the Microsoft Teams virtual meeting platform. To view the hearing docket and to determine how to participate in the electronic hearing, visit the Division’s website at: <https://www.emnrd.nm.gov/ocd/hearing-info/> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting the matter at a later date.

Parties appearing in cases who intend to present evidence are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a

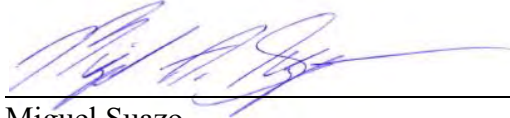

BEATTY & WOZNIAK, P.C.

Case No. 25048
Page 2

scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date. This statement must be submitted through the OCD E-Permitting system (<https://wwwapps.emnrd.nm.gov/ocd/ocdpermitting/>) or via e-mail to ocd.hearings@emnrd.nm.gov should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing. The statement must also be provided to the attorney for the applicant, Miguel Suazo at msuazo@bwenergylaw.com.

If you have any questions about this matter, please contact Mark Smith at marksmith@rileypermian.com.

Sincerely,

Miguel Suazo

APPLICATION OF RILEY PERMIAN
OPERATING COMPANY, LLC FOR
APPROVAL OF NON-STANDARD
HORIZONTAL SPACING UNIT AND
COMPULSORY POOLING, EDDY
COUNTY, NEW MEXICO

Case No. _____

APPLICATION

Riley Permian Operating Company, LLC, OGRID No. 372290 (“Riley” or “Applicant”), through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17 and 19.15.16.15(B)(5) NMAC, for an order (1) approving a 160-acre, more or less, non-standard horizontal spacing unit (“HSU”) composed of the S/2 N/2 of Section 33, Township 17 South, Range 27 East, N.M.P.M. (the “Application Lands”), and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said HSU. ”), and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said HSU.

In support of its Application, Riley states the following:

1. Riley is a working interest owner in the Application Lands and has a right to drill wells thereon as the designated Operator of the Application Lands.
2. Riley seeks to dedicate all of the Application Lands to form a 160-acre, more or less, HSU.
3. Riley seeks to dedicate the above-referenced HSU to the following proposed wells:
 - A. **Eagle 33 Fed Com #007H** (API No. 30-015-49713), which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of

Section 34, Township 17 South, Range 27 East, to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33, Township 17 South, Range 27 East;

B. **Eagle 33 Fed Com #008H** (API No. 30-015-49714), which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of Section 34, Township 17 South, Range 27 East, to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33, Township 17 South, Range 27 East;

4. The wells are orthodox in their location as defined by 19.15.16.15.(C) NMAC, and the take points and laterals comply with Statewide Rules for setbacks under 19.15.16.15.(C) NMAC.

5. Riley has sought in good faith but has been unable to obtain voluntary agreement from all interest owners in the Yeso Formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.

6. The pooling of all interests in the Yeso Formation within the proposed unit will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. Approval of a non-standard horizontal spacing unit is necessary to prevent waste and protect correlative rights.

8. To provide for its just and fair share of the oil and gas underlying the subject lands, Riley requests that all uncommitted interests in this HSU be pooled and that Riley be designated as the operator of the proposed horizontal wells and HSU.

WHEREFORE, Riley requests this Application be set for hearing on January 9th, 2025, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

- A. Approving the creation of an approximately 160-acre non-standard HSU, composed of the Application Lands, pursuant to 19.15.16.15(B)(5) NMAC;
- B. Pooling all uncommitted interests in the Yeso Formation underlying the HSU within the Application Lands;
- C. Approving the **Eagle 33 Fed Com #007H** and **Eagle 33 Fed Com #008H** as the wells for the HSU.
- D. Designating Riley as operator of the HSU and the horizontal wells to be drilled thereon;

Respectfully submitted,

BEATTY & WOZNIAK, P.C.

LEGAL NOTICE
DECEMBER 21, 2024

STATE OF NEW MEXICO
ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION, SANTA FE, NEW MEXICO

The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold public hearings before a hearing examiner on the following case.

The hearing will be conducted on **Thursday, January 9, 2025, beginning at 9:00 A.M. MST** in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the Microsoft Teams meeting platform. To view the hearing docket and to determine how to participate in the electronic hearing, visit the Division's website at: <http://www.emnrd.state.nm.us/OCD/hearing-info/> or contact Sheila Apodaca at Sheila.Apodaca@emnrd.nm.gov. Documents filed in the case may also be viewed at <https://ocdimage.emnrd.state.nm.us/imaging/CaseFileCriteria.aspx>. If you are an individual with a disability who needs a reader, amplifier, qualified sign language interpreter, or other form of auxiliary aid or service to attend or participate in the hearing, contact Sheila Apodaca or the New Mexico Relay Network at 1-800-659-1779, no later than **January 2, 2025**.

STATE OF NEW MEXICO TO:

All named parties and persons having any right, title, interest or claim in the following case and notice to the public.

(NOTE: All land descriptions herein refer to the New Mexico Principal Meridian whether or not so stated.)

TO: All interested parties, including: Nearburg Exploration Company LLC; SEP Permian Holding Corp.; XTO Holdings LLC; Chuanas Partners LLC; United States of America; 3R Operating, LLC; Amtex Energy, Inc.; APA Corp; Chi Energy, Inc.; PHX Energy, LLC; Silverback Operating II, LLC; Spur Energy Partners; Bureau of Land Management.

CASE NO. 25048: Application of Riley Permian Operating Company, LLC for Approval of a Non-Standard Horizontal Spacing Unit and Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Division: (1) approving a 160-acre, more or less, non-standard horizontal spacing and proration unit composed of all of the S/2 N/2 of Section 33, Township 17 South, Range 27 East, N.M.P.M.; and (2) pooling all uncommitted mineral interests in the Yeso Formation, designated as an oil pool, underlying said unit. The proposed wells to be dedicated to the horizontal spacing unit are the: **Eagle 33 Fed Com #007H**, which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of Section 34 to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33; and the **Eagle 33 Fed Com #008H**, which is an oil well that will be horizontally drilled from a surface location in the SW/4NW/4 (Unit E) of Section 34 to a bottom hole location in the Yeso Formation in Lot 5 (Unit E) of Section 33. The wells are orthodox in location, and the take points and laterals comply with Statewide Rules for setbacks. The wells and lands are located approximately 8 miles southeast of Artesia, New Mexico. **IN THE ABSENCE OF OBJECTION, THIS MATTER WILL BE TAKEN UNDER ADVISEMENT.**

Published in the Carlsbad Current-Argus December 21, 2024.
