Gregory Chakalian  
Hearing Examiner  
EMNRD – Oil Conservation Division  
1220 South St. Francis Drive, 3<sup>rd</sup> Floor  
Santa Fe, NM 87505

**Re: Case No. 25635 (Bonzo Wells) - Application for compulsory pooling filed by Longfellow Energy, L.P.**

Dear Hearing Examiner Chakalian:

In accordance with the Technical Examiner's instructions in his email of Tue 11/25/2025 3:30 PM, Longfellow Energy, L.P. hereby files a second revised exhibit package. The latest revision is to correct the case number on the checklist.

This second revised exhibit package also includes previously revised C-102s with a different pool name/pool code and supplemental information, submitted as Revised Exhibit A-1, and Revised Exhibits A-2 and A-3, with additional information regarding the interest of Cannon Exploration Company. In addition, Longfellow previously corrected the inadvertent identification of the State Land Office and the Bureau of Land Management as parties to be forcepooled in Exhibit A-3. The changes noted in this paragraph were previously submitted in a revised exhibit package on November 14, 2025.

Please feel free to contact me if you have any questions.

Very truly yours,

/s/ Sharon T. Shaheen  
Sharon T. Shaheen

# COMPULSORY POOLING APPLICATION CHECKLIST

## ALL INFORMATION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED AFFIDAVITS

Case: 25635	APPLICANT'S RESPONSE
Date	November 13, 2025
Applicant	Longfellow Energy, L.P.
Designated Operator & OGRID (affiliation if applicable)	Longfellow Energy, L.P., 372210
Applicant's Counsel:	Spencer Fane, LLP (Sharon T. Shaheen)
Case Title:	Application of Longfellow Energy, L.P. for Compulsory Pooling, Eddy County, New Mexico
Entries of Appearance/Intervenors:	None at this time
Well Family	Bonzo 1924 Fed Com ABX
<b>Formation/Pool</b>	
Formation Name(s) or Vertical Extent:	Yeso Formation
Primary Product (Oil or Gas):	Oil
Pooling this vertical extent:	Yeso Formation
Pool Name and Pool Code (Only if NSP is requested):	
Well Location Setback Rules (Only if NSP is Requested):	
<b>Spacing Unit</b>	
Type (Horizontal/Vertical)	Horizontal
Size (Acres)	640 acres
Building Blocks:	Quarter-quarter section (40 ac)
Orientation:	East-West
Description: TRS/County	N/2 of Section 24-17S-27E and N/2 of Section 19-17S-R28E, in Eddy County, New Mexico
Standard Horizontal Well Spacing Unit (Y/N), If No, describe and is approval of non-standard unit requested in this application?	Yes
<b>Other Situations</b>	
Depth Severance: Y/N. If yes, description	No
Proximity Tracts: If yes, description	Yes, S2 N2 of Section 24-17S-27E and N/2 of Section 19-17S-R28E, in Eddy County, New Mexico
Proximity Defining Well: if yes, description	Yes, Bonzo 1924 Fed Com ABX 003H well
Applicant's Ownership in Each Tract	Tract 1: 36.09%; Tract 2: 76%; Tract 3: 36.09%; Tract 4: 36.09%; Tract 5: 36.70%; Tract 6: 50.00%
<b>Well(s)</b>	
Name & API (if assigned), surface and bottom hole location, footages, completion target, orientation, completion status (standard or non-standard)	Add wells as needed
Well #1	Bonzo 1924 Fed Com ABX 001H well, API No. 30-015-XXXXXX SHL:1,375' FNL & 620' FWL of Section 20-17S-28E BHL: 370' FNL and 20' FWL of Section 24-17S-27E Completion Target: Yeso at ~3450' Well Orientation: East to West Completion location expected to be standard

Horizontal Well First and Last Take Points	FTP: ~372' FNL and 100' FEL of Section 19-17S-28E LTP: ~370' FNL and 100' FWL of Section 24-17S-27E

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATION OF LONGFELLOW ENERGY, L.P.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO**

Case No. 25635

**APPLICATION**

Longfellow Energy, LP, OGRID No. 372210 ("Longfellow" or "Applicant"), through its undersigned counsel Spencer Fane, LLP (Sharon T. Shaheen), hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all mineral interests in the Yeso formation (EMPIRE; GLORIETA-YESO [96210]) in a standard ~640-acre, more or less, horizontal spacing and proration unit ("HSU"), with proximity tracts, comprised of the North Half of Section 24, Township 17 South, Range 27 East and the North Half of Section 19, Township 17 South, Range 28 East in Eddy County, New Mexico. In support of its application, Longfellow states as follows:

1. Longfellow is a working interest owner in the proposed HSU and has the right to drill thereon.
2. Longfellow seeks to dedicate the following five ~2.0-mile wells to the proposed HSU:
  - Bonzo 1924 Fed Com ABX 001H well, to be horizontally drilled from a surface hole location approximately 1,200' FWL & 1,080' FNL of Section 20-17S-28E and a bottomhole location approximately 80' FWL & 330' FNL of Section 24-17S-27E;
  - Bonzo 1924 Fed Com ABX 002H well, to be horizontally drilled from a surface hole location approximately 1,200' FWL & 1,100' FNL of Section 20-17S-28E and a bottomhole location approximately 80' FWL & 780' FNL of Section 24-17S-27E;
  - Bonzo 1924 Fed Com ABX 003H well, to be horizontally drilled from a surface hole location approximately 1,200' FWL & 1,120' FNL of Section 20-17S-28E and a bottomhole location approximately 80' FWL & 1,230' FNL of Section 24-17S-27E;

- Bonzo 1924 Fed Com ABX 004H well, to be horizontally drilled from a surface hole location approximately 1,200' FWL & 1,140' FNL of Section 20-17S-28E and a bottomhole location approximately 80' FWL & 1,680' FNL of Section 24-17S-27E;
- Bonzo 1924 Fed Com ABX 005H well, to be horizontally drilled from a surface hole location approximately 1,200' FWL & 1,160' FNL of Section 20-17S-28E and a bottomhole location approximately 80' FWL & 2,130' FNL of Section 24-17S-27E.

3. The Bonzo 1924 Fed Com ABX 003H well is a proximity well.

4. With the proximity tracts, the completed intervals will meet the standard setback requirements. The first and last take points will meet the standard setback requirements.

5. Longfellow has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all of the mineral interest owners in the HSU.

6. Approval of the proposed HSU and the pooling of all mineral interest owners in the Yeso formation underlying the HSU will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to permit Longfellow to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this HSU should be pooled and Longfellow should be designated the operator of the HSU.

WHEREFORE, Longfellow requests that this application be set for hearing before an examiner of the Oil Conservation Division on October 9, 2025, and that, after notice and hearing as required by law, the Division enter an order:

- Approving a standard 640-acre, more or less, HSU, with proximity tracts, comprised of the North Half of Section 24, Township 17 South, Range 27 East and the North Half of Section 19, Township 17 South, Range 28 East in Eddy County, New Mexico;
- Pooling all mineral interests in the Yeso formation underlying the HSU;

C. Allowing the drilling of the following five ~2.0-mile wells in the proposed HSU: Bonzo 1924 Fed Com ABX 001H; Bonzo 1924 Fed Com ABX 002H; Bonzo 1924 Fed Com ABX 003H; Bonzo 1924 Fed Com ABX 004H; and Bonzo 1924 Fed Com ABX 005H.

D. Designating Longfellow as operator of the HSU and the wells to be drilled thereon;

E. Authorizing Longfellow to recover its costs of drilling, equipping, and completing the wells;

F. Approving the operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

G. Imposing a 200% penalty for the risk assumed by Longfellow in drilling and completing the well against any interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

SPENCER FANE, LLP

*Attorneys for Longfellow Operating Partners, LLC*

***Application of Longfellow Operating Partners, LLC for Compulsory Pooling, Eddy County, New Mexico.*** Applicant in the above-styled cause seeks an order from the Oil Conservation Division approving a standard ~640-acre horizontal spacing and proration unit (“HSU”), with proximity tracts, comprised of the North Half of Section 24, Township 17 South, Range 27 East and the North Half of Section 19, Township 17 South, Range 28 East, in Eddy County, New Mexico and pooling all mineral interests in the Yeso formation (EMPIRE; GLORIETA-YESO [96210]) underlying the HSU. Applicant proposes to drill the following 2.0-mile wells in the HSU: Bonzo 1924 Fed Com ABX 001H well, to be horizontally drilled from a surface hole location (“SHL”) approximately 1,200' FWL & 1,080' FNL of Section 20-17S-28E and a bottomhole location (“BHL”) approximately 80' FWL & 330' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 002H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,100' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 780' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 003H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,120' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 1,230' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 004H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,140' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 1,680' FNL of Section 24-17S-27E; and Bonzo 1924 Fed Com ABX 005H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,160' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 2,130' FNL of Section 24-17S-27E. The Bonzo 1924 Fed Com ABX 003H well is a proximity well. With the proximity tracts, the completed intervals will meet standard setback requirements. The first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the well and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 9 miles East of Artesia, New Mexico.

OIL CONSERVATION DIVISION**

**APPLICATION OF LONGFELLOW ENERGY, L.P.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO**

**Case No. 25635**

**SELF-AFFIRMED STATEMENT OF LANDMAN STUART GASTON**

I, Stuart Gaston, do hereby state and affirm the following:

1. I am over the age of 18 and have the capacity to execute this statement, which is based on my personal knowledge.
2. I am a landman employed as Senior Landman with Longfellow Energy, L.P. (“LFE” or “Applicant”), and I am familiar with the subject application and the lands involved.
3. This testimony is submitted in connection with the filing by LFE of the above-referenced compulsory pooling application (the “Application”) pursuant to 19.15.4.12(A)(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have previously been accepted by the Division and made a matter of record. A summary of my education and work experience is as follows: I graduated from Texas Tech University in 2012 with a Bachelor’s Degree in Business Management and Texas Tech University in 2017 with a Master’s Degree in Business Administration. I worked as a landman for various oil and gas companies since 2013 and have been employed with LFE as Senior Landman since 2022.

5. In this case, LFE seeks an order pooling all uncommitted mineral interests in the Yeso formation (Empire; Glorieta-Yeso [96210]) in a standard ~640-acre, more or less, horizontal

spacing and proration unit ("HSU"), comprised of the North Half of Section 24, Township 17 South, Range 27 East and the North Half of Section 19, Township 17 South, Range 28 East in Eddy County, New Mexico.

6. LFE proposes to drill the following two-mile wells in the proposed HSU:

- Bonzo 1924 Fed Com ABX 001H well, to be horizontally drilled from a surface hole location approximately 1,375' FNL & 620' FWL of Section 20-17S-28E and a bottomhole location approximately 370' FNL and 20' FWL of Section 24-17S-27E. The first take point will be approximately 372' FNL and 100' FEL of Section 19-17S-28E, and the last take point will be located approximately 370' FNL and 100' FWL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 002H well, to be horizontally drilled from a surface hole location approximately 1,395' FNL & 620' FWL of Section 20-17S-28E and a bottomhole location approximately 820' FNL and 20' FWL of Section 24-17S-27E. The first take point will be 822' FNL and 100' FEL of Section 19-17S-28E, and the last take point will be located approximately 820' FNL and 100' FWL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 003H well, to be horizontally drilled from a surface hole location approximately 1,415' FNL & 620' FWL of Section 20-17S-28E and a bottomhole location approximately 1270' FNL and 20' FWL of Section 24-17S-27E. The first take point will be 1273' FNL and 100' FEL of Section 19-17S-28E, and the last take point will be located approximately 1270' FNL and 100' FWL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 004H well, to be horizontally drilled from a surface hole location approximately 1,435' FNL & 620' FWL of Section 20-17S-28E and a bottomhole location approximately 1721' FNL and 20' FWL of Section 24-17S-27E. The first take point will be 1723' FNL and 100' FEL of Section 19-17S-28E, and the last take point will be located approximately 1721' FNL and 100' FWL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 005H well, to be horizontally drilled from a surface hole location approximately 1,455' FNL & 620' FWL of Section 20-17S-28E and a bottomhole location approximately 2170' FNL and 20' FWL of Section 24-17S-27E. The first take point will be 2173' FNL and 100' FEL of Section 19-17S-28E, and the last take point will be located approximately 2170' FNL and 100' FWL of Section 24-17S-27E.

7. The Bonzo 1924 Fed Com ABX 003H well is a proximity well. With the proximity tracts, the completed intervals will meet standard setback requirements.

8. The first and last take points of all wells will meet standard setback requirements.
9. Approval of the HSU and pooling of all mineral interest owners therein will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
10. A Form C-102 for each well is included as **Exhibit A-1**. The Form C-102 also indicates the locations of each surface hole, bottom hole, and the first and last take points.
11. A plat of the proposed spacing unit showing tracts, lists of tract ownership, and applicable lease numbers are included in **Exhibit A-2**.
12. **Exhibit A-3** includes the unit recap, highlighting the pooled parties.
13. A sample of the well proposal letter and the authority for expenditure (“AFE”) for each well is included in **Exhibit A-4**. The estimated costs of the wells set forth in the AFEs are fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.
14. A chronology of contacts with the non-joined working interest owners is attached as **Exhibit A-5**.
15. There are no depth severances in the formations being pooled.
16. I have conducted a diligent search of the public records in Eddy County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification. I mailed all working interest owners a well proposal, including an Authorization for Expenditure (“AFE”), for each well.
17. LFE has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.

18. LFE requests the Division to approve operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures.

19. LFE requests the maximum cost, plus 200% risk charge, be assessed against non-consenting working interest owners.

20. LFE requests that it be designated operator of the wells.

21. The exhibits attached hereto were prepared by me or compiled from LFE's business records under my supervision.

22. The granting of the applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

23. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

## OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest in leased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order here to fore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract in the target pool or formation in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Date of Survey

JUNE 12, 2025

SURVEY NO. 10450

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

Longfellow/Bonzo Wells

Revised Exhibit A-1

Page 1 of 10

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

## OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest in leased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order here to fore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Revised Exhibit A-1

Page 7 of 10

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: Well Proposals – Bonzo 1924 Fed Com ABX 001H, 002H, 003H 004H & 005H Wells  
 North Half (N/2) of Section 24-17S-27E & North Half (N/2) of Section 19-17S-28E  
 Eddy County, New Mexico

To whom it may concern:

Longfellow Energy, LP (“Longfellow”) hereby proposes to drill and complete the following wells “back to back”:

- Bonzo 1924 Fed Com ABX 001H, with an approximate true vertical depth of 3,450', as a horizontal well in the Yeso formation (with an approximate measured depth of 14,625') and an estimated cost of \$9,383,486 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 7/15/2025. Surface Hole Location is 1,200' FWL & 1,080' FNL of Section 20-17S-28E; with a Bottom Hole Location of 80' FWL & 330' FNL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 002H, with an approximate true vertical depth of 3,790', as a horizontal well in the Yeso formation (with an approximate measured depth of 15,027') and an estimated cost of \$9,383,486 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 7/15/2025. Surface Hole Location is 1,200' FWL & 1,100' FNL of Section 20-17S-28E; with a Bottom Hole Location of 80' FWL & 780' FNL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 003H, with an approximate true vertical depth of 3,450', as a horizontal well in the Yeso formation (with an approximate measured depth of 14,556') and an estimated cost of \$9,383,486 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 7/15/2025. Surface Hole Location is 1,200' FWL & 1,120' FNL of Section 20-17S-28E; with a Bottom Hole Location of 80' FWL & 1,230' FNL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 004H, with an approximate true vertical depth of 3,790', as a horizontal well in the Yeso formation (with an approximate measured depth of 15,014') and an estimated cost of \$9,383,486 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 7/15/2025. Surface Hole Location is 1,200' FWL & 1,140' FNL of Section 20-17S-28E; with a Bottom Hole Location of 80' FWL & 1,680' FNL of Section 24-17S-27E.
- Bonzo 1924 Fed Com ABX 005H, with an approximate true vertical depth of 3,450', as a horizontal well in the Yeso formation (with an approximate measured depth of 14,620') and an estimated cost of \$9,383,486 for a completed producing well, as set forth in detail on the enclosed AFE Well Cost Estimate dated 7/15/2025. Surface Hole Location is 1,200' FWL & 1,160' FNL of Section 20-17S-28E; with a Bottom Hole Location of 80' FWL & 2,130' FNL of Section 24-17S-27E.

To facilitate these wells and for efficient development, Longfellow proposes to form a Drilling Spacing Unit (the “DSU”) covering the North Half (N/2) of Section 24-17S-27E & North Half (N/2) of Section 19-17S-28E, containing approximately 645.75 acres. For development of horizontal Yeso wells within the DSU, Longfellow proposes a new horizontal joint operating agreement dated January 1, 2026, a modified 2015 Horizontal AAPL Form 610 Operating Agreement, (hereinafter referred to as the “HJOA”) to govern horizontal Yeso development within the DSU, to supersede existing JOAs (if any), containing the following provisions:

Longfellow/Bonzo Wells  
 Case No. 25635

Exhibit A-4

Page 1 of 13

July 16, 2025

Bonzo 1924 Fed Com ABX 001H, 002H, 003H 004H & 005H Wells  
Well Proposals

- Contract Area being the (N/2) of Section 24-17S-27E & (N/2) of Section 19-17S-28E, limited to the Yeso formation
- Applies to horizontal well development only
- 100% / 300% / 300% non-consent penalties
- \$12,000 / \$1,200 drilling and producing monthly overhead rates

According to our title examination, **Riley Exploration Permian LLC** owns a working interest as to the proposed DSU. We respectfully request that you select one of the following three options with regard to your interest in the proposed wells:

**Option 1** - Participate with your working interest in the proposed wells, pursuant to the terms of the HJOA

**Option 2** – Elect to not participate in the proposed wells, pursuant to the terms of the HJOA (an election of “Non-Consent”)

**Option 3** - Assign all of your leasehold rights, and the existing wells (if any) associated with those rights, in the DSU area to Longfellow for \$2,500/net acre (delivering your existing Net Revenue Interest)

Please indicate your election as to the aforesaid three options in the space provided below, and execute and return a copy of this letter to the undersigned within 30 days of receipt of this proposal. Your election of Option 1 and 2, should be returned to Longfellow by U.S. mail to the letterhead address below or email to [Stuart.Gaston@longfellowenergy.com](mailto:Stuart.Gaston@longfellowenergy.com). Upon receipt of your election, I will send the HJOA for your review and execution. Should you elect to assign your interest pursuant to Option 3, please return your election and I will send an Assignment for your review and execution. If you prefer to review the HJOA prior to making an election, please request a copy by email and I will furnish for your review.

Longfellow looks forward to working with you on this proposal and I encourage you to contact me with any questions pertaining to the proposed wells. Please be advised, to facilitate timely development, Longfellow may file with the New Mexico Oil Conservation Division for compulsory pooling of any uncommitted working interest owners. Should you have any questions concerning this matter, please contact the undersigned by phone at 972-532-8205 or by e-mail to [Stuart.Gaston@longfellowenergy.com](mailto:Stuart.Gaston@longfellowenergy.com).

Sincerely,

LONGFELLOW ENERGY, LP

Stuart Gaston  
Senior Landman

STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION

APPLICATION OF LONGFELLOW ENERGY, L.P.  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO

Case No. 25635

**SELF-AFFIRMED STATEMENT OF GEOLOGIST JACOB S. DEHAMER**

I, Jacob S. DeHamer, do hereby state and affirm the following:

1. I am over the age of 18 and have the capacity to execute this statement, which is based on my personal knowledge.
2. I am a Geologist for Longfellow Energy, L.P. ("LFE") and am familiar with the subject applications and geology involved.
3. This testimony is submitted in connection with the filing by LFE of the above-referenced compulsory pooling application pursuant to 19.15.4.12(A)(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record. A summary of my education and work experience is as follows: I graduated from Calvin College in 2006 with a Bachelor's of Science in Geology and from Louisiana State University in 2010 with a Master's Degree in Applied Geology. I have worked as a petroleum geologist in the oil and gas industry for 17 years. I have been employed with LFE in its geology department since 2022 and have worked on New Mexico oil and gas matters since that time.
5. **Exhibit B-1** is a general location map indicating the location of the proposed horizontal spacing units ("HSU").

6. **Exhibit B-2** is a subsea structure map and cross-section map showing the structure of the top of the Yeso formation. Contour interval is 50'. The Yeso structure dips W to E in the Bonzo ABX unit. The cross section referenced in Exhibit B-3 is annotated.

7. **Exhibit B-3** is a stratigraphic cross section showing the gross stratigraphic section of the Paddock and Blinebry members of the Yeso formation. The total gross thickness of the Yeso section in the Bonzo ABX unit is approximately 1400' thick.

8. **Exhibit B-4** is a gunbarrel diagram depicting each well. These diagrams show the approximate landing zones in reference to the type log for the area and the associated spacing of the wellbores within the half-section width HSU.

9. **Exhibit B-5** is a gross isopach map showing the gross Yeso thickness in the Bonzo CD unit project area. The Yeso thickness is between 1200' and 1400' thick in adjacent sections to the Bonzo ABX Unit.

10. The measured depths and true vertical depths for each well are approximately as follows:

WELL	MD	TVD
Bonzo 1924 Fed Com ABX 001H	14,625	3,450
Bonzo 1924 Fed Com ABX 002H	15,027'	3,790'
Bonzo 1924 Fed Com ABX 003H	14,556'	3,450'
Bonzo 1924 Fed Com ABX 004H	15,014'	3,790'
Bonzo 1924 Fed Com ABX 005H	14,620'	3,450'

11. Based on my geologic study of the area, I conclude the following:

a. The horizontal spacing and proration units are justified from a geologic standpoint.

- b. There are no structural impediments or faulting that will interfere with horizontal development.
- c. Each quarter-quarter section in the Yeso HSUs will contribute more or less equally to production.
- d. The planned E-W well orientation is consistent with horizontal development along the Yeso Trend.

12. The exhibits to this testimony were prepared by me or compiled from LFE's business records.

13. The granting of the Application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

14. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this

statement is true and correct.

APPLICATION OF LONGFELLOW ENERGY, L.P.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO

Case No. 25635

**AFFIRMATION OF NOTICE**

I, Sharon T. Shaheen, attorney for LONGFELLOW ENERGY, L.P. ("Longfellow"), Applicant in the above-captioned matter, state and affirm the following:

I caused notice of the application to be sent by certified mail through the United States Postal Service on September 19, 2025, to all interest owners sought to be pooled in this proceeding. A sample notice letter to all interested parties is attached hereto as Exhibit C-1. A chart showing the results of certified mailing is attached as Exhibit C-2, and the certified mailing receipts and returns are attached as Exhibit C-3. Notice was also directed to all such owners by publication in the Carlsbad Current Argus on September 23, 2025, as shown in the Notice attached hereto as Exhibit C-4. The attached exhibits demonstrate to my satisfaction that all owners sought to be pooled were properly served.

Longfellow has conducted a good faith, diligent effort to find the names and correct addresses for the interest-owners entitled to receive notice of the Application filed herein.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

**TO: ALL INTEREST OWNERS ON ATTACHED LIST**

**Re: Case No. 25635 – Application of Longfellow Energy, L.P. for Compulsory Pooling, Eddy County, New Mexico – Bonzo 1924 Fed Com ABX Wells**

Dear Interest Owner:

This will advise that pursuant to NMSA 1978, § 70-2-17, LONGFELLOW ENERGY, L.P. (“Longfellow”) has filed an application with the New Mexico Oil Conservation Division seeking an order pooling all uncommitted interests in the proposed well described below. You are receiving this notice because you may have an interest in this well.

**Case No. 25635. Application of Longfellow Operating Partners, LLC for Compulsory Pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order from the Oil Conservation Division approving a standard ~640-acre horizontal spacing and proration unit (“HSU”), with proximity tracts, comprised of the North Half of Section 24, Township 17 South, Range 27 East and the North Half of Section 19, Township 17 South, Range 28 East, in Eddy County, New Mexico and pooling all mineral interests in the Yeso formation (EMPIRE; GLORIETA-YESO [96210]) underlying the HSU. Applicant proposes to drill the following 2.0-mile wells in the HSU: Bonzo 1924 Fed Com ABX 001H well, to be horizontally drilled from a surface hole location (“SHL”) approximately 1,200' FWL & 1,080' FNL of Section 20-17S-28E and a bottomhole location (“BHL”) approximately 80' FWL & 330' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 002H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,100' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 780' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 003H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,120' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 1,230' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 004H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,140' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 1,680' FNL of Section 24-17S-27E; and Bonzo 1924 Fed Com ABX 005H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,160' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 2,130' FNL of Section 24-17S-27E. The Bonzo 1924 Fed Com ABX 003H well is a proximity well. With the proximity tracts, the completed intervals will meet standard setback requirements. The first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the well and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200%

All Interest Owners  
September 19, 2025  
Page 2

charge for the risk involved in drilling and completing the well. The well and lands are located approximately 9 miles East of Artesia, New Mexico.

The attached application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **October 9, 2025**, beginning at 9:00 a.m. Hearings are currently conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1<sup>st</sup> Floor, Santa Fe NM 87505 and via a virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date at <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony.

Failure to appear at that time and become a party of record will preclude you from challenging these applications at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance **eight days prior to the hearing**, no later than **October 1, 2025**, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement **seven days prior to the hearing**, no later than **October 2, 2025**, in accordance with Division Rule 19.15.4.13 NMAC.

Please feel free to contact me if you have any questions about this application.

Very truly yours,

/s/ Sharon T. Shaheen

McCaw, deceased; Yates Brothers a partnership composed of -Martin Yates III, S.P. Yates, John Yates and Yates Petroleum Corporation; Hollace Lynne Hervey and First National Bank of Artesia, Co-Trustees of the Maggie Suetta Cockburns Charitable Remainder Trust, Hollace Lynne Hervey; Johny Cockburn; Mabelle Armstrong; Hilcorp Energy 1, L.P.; Rio Pecos Corporation; J.A. White a/k/a Jefferson White, et ux., Heir: Geoffrey B. White; Bonnie Resler Karlrud; Wayne Resler; Ameritrust Texas N.A. as Trustee of Trust B under the will of Dale Resler; James L. Evans; Wilson's Company; Olen F. Featherstone II; Featherstone Development Corporation; John Bedingfield and Della Dawn Bedingfield as Joint Tenants; Pitch Energy Corporation; Richard F. Walsh; Maudi E. Fleming; William Lloyd Walsh; Estate of F. Howard Walsh, Jr.; Estate of D'Ann Walsh Bonnell; Free Ride, LLC; United States Bureau of Land Management; and New Mexico State Land Office.

Longfellow Energy, L.P. has filed an application with the New Mexico Oil Conservation Division as follows:

**Case No. 25635. Application of Longfellow Operating Partners, LLC for Compulsory Pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order from the Oil Conservation Division approving a standard ~640-acre horizontal spacing and proration unit (HSU), with proximity tracts, comprised of the North Half of Section 24, Township 17 South, Range 27 East and the North Half of Section 19, Township 17 South, Range 28 East, in Eddy County, New Mexico and pooling all mineral interests in the Yeso formation (EMPIRE; GLORIETA-YESO [96210]) underlying the HSU. Applicant proposes to drill the following 2.0-mile wells in the HSU: Bonzo 1924 Fed Com ABX 001H well, to be horizontally drilled from a surface hole location (SHL) approximately 1,200' FWL & 1,080' FNL of Section 20-17S-28E and a bottomhole location (BHL) approximately 80' FWL & 330' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 002H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,100' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 780' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 003H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,120' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 1,230' FNL of Section 24-17S-27E; Bonzo 1924 Fed Com ABX 004H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,140' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 1,680' FNL of Section 24-17S-27E; and Bonzo 1924 Fed Com ABX 005H well, to be horizontally drilled from a SHL approximately 1,200' FWL & 1,160' FNL of Section 20-17S-28E and a BHL approximately 80' FWL & 2,130' FNL of Section 24-17S-27E. The Bonzo 1924 Fed Com ABX 003H well is a proximity well. With the proximity tracts, the completed intervals will meet standard setback requirements. The first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the well and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 9 miles East of Artesia, New Mexico.

This application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **October 9, 2025**, beginning at 9:00 a.m. Hearings are currently conducted in a hybrid fashion, both in-person and at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe NM 87505 and via a virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging these applications at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance by October 1, 2025,

eight (8) days before the hearing, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement by **October 2, 2025**, seven days before the hearing in accordance with Division Rule 19.15.4.13 NMAC. For further information, contact the applicants attorney, Sharon T. Shaheen, Spencer Fane, LLC, 325 Paseo de Peralta, Santa Fe, New Mexico 87501, (505) 986-2678.
