Case No. 25897

APPLICATION

WPX Energy Permian, LLC (“WPX”), OGRID No. 246289, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 431.99-acre, more or less, spacing unit comprised of the W/2 of Section 26 and Lots 7-10 of Section 35, Township 26 South, Range 29 East, NMPM, Eddy County, New Mexico.

In support of its Application, WPX states the following:

1. WPX is a working interest owner in the proposed horizontal spacing unit (“HSU”) and has a right to drill a well thereon.
2. WPX has previously pooled this HSU in Case No. 25612, Order No. R-24069, and is submitting this new application because WPX has changed its development plan in order to include certain U-turn wells in the HSU. Therefore, WPX requests the Division to vacate Order No. R-24069 upon issuance of the new pooling order pursuant to this application such that the new pooling order will supplant and replace Order No. R-24069.
3. WPX proposes and dedicates to the HSU the **Steel Guitar 35-26 Fed Com 322H Well** and the **Steel Guitar 35-26 Fed Com 331H Well**, as initial wells, to be drilled as U-lateral wells, to a sufficient depth to test the Bone Spring formation.

- B. Approving the **Steel Guitar 35-26 Fed Com 322H Well** and the **Steel Guitar 35-26 Fed Com 331H Well**, as the wells for the HSU.
- C. Vacating previous Order No. R-24069 and supplanting the previous order with the order issued pursuant to this application.
- D. Designating WPX as operator of this HSU and the horizontal wells to be drilled thereon;
- E. Authorizing WPX to recover its costs of drilling, equipping, and completing the wells;
- F. Approving actual operating charges and costs of supervision, to the maximum extent allowable, while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Setting a 200% charge for the risk assumed by WPX in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Application of WPX Energy Permian, LLC, for Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks for an order pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 431.99-acre, more or less, spacing unit comprised of the W/2 of Section 26 and Lots 7-10 of Section 35, all in Township 26 South, Range 29 East, NMPM, Eddy County, New Mexico. The proposed U-lateral wells to be dedicated to the horizontal spacing unit are the; **Steel Guitar 35-26 Fed Com 322H Well**, an oil well, to be drilled as a U-Turn well, with the surface location in the NE/4 NW/4 (Unit C) of Section 26 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 26; and the **Steel Guitar 35-26 Fed Com 331H Well**, an oil well, to be drilled as a U-Turn well, with the surface location in the NE/4 NW/4 (Unit C) of Section 26 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 26. The wells are orthodox in their locations; the take points and completed intervals will comply with setback requirements under statewide rules. This application will supplant and replace the application in Case No. 25612 for the unit, and Order No. R-24069 will be vacated upon issuance of the new order for said unit. The 331H Well is the proximity well, and proximity tracts will be utilize to create the standard unit. Also to be considered will be the cost of drilling and completing the wells and the allocation of the costs thereof; actual operating costs and charges for supervision; the designation of the Applicant as Operator of the wells and unit; and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located adjacent to the southern state line and approximately 31 miles southeast of Carlsbad, New Mexico.

OIL CONSERVATION DIVISION

APPLICATION OF WPX ENERGY PERMIAN, LLC
FOR A COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO

Case No. 25897

AMENDED SELF-AFFIRMED STATEMENT OF TIM PROUT

I, Tim Prout, state and affirm the following:

1. I am over the age of eighteen years and have the capacity to execute this Self-Affirmed Statement, which is based on my personal knowledge.

2. I am employed as a Senior Staff Landman with WPX Energy Permian, LLC (“WPX”), and I am familiar with the subject application and the lands involved.

3. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum land matters and my credentials have been accepted by the Division and made a matter of record.

4. This affidavit is submitted in connection with the filing by WPX of the above-referenced application pursuant to 19.15.4.12.A(1).

5. WPX has previously pooled this HSU in Case No. 25612, Order No. R-24069, and is submitting this new application because WPX has changed its development plan to include certain U-turn wells in the HSU.

6. Under Case No. 25897, WPX seeks an order pooling all uncommitted mineral interests in the Bone Spring formation (WC 015 G-03 S262925D; Bone Spring: Pool Code [98211]) underlying a standard 431.99-acre, more or less, spacing unit comprised of the W/2 of Section 26 and Lots 7-10 of Section 35, Township 26 South, Range 29 East, NMPM, Eddy County, New Mexico. WPX dedicates to the HSU the **Steel Guitar 35-26 Fed Com 322H Well** and the

Steel Guitar 35-26 Fed Com 331H Well, as initial wells, to be drilled as U-lateral wells, to a sufficient depth to test the Bone Spring formation.

- Under **Case No. 25897**, WPX proposes the **Steel Guitar 35-26 Fed Com 322H Well**, an oil well, to be drilled as a U-Turn well, with the surface location in or near the NE/4 NW/4 (Unit C) of Section 26 to a bottom hole location in or near the NW/4 NW/4 (Unit D) of Section 26.
- Under **Case No. 25897**, WPX proposes the **Steel Guitar 35-26 Fed Com 331H Well**, an oil well, to be drilled as a U-Turn well, with the surface location in or near the NE/4 NW/4 (Unit C) of Section 26 to a bottom hole location in or near the NW/4 NW/4 (Unit D) of Section 26.

7. The wells proposed herein are orthodox in their location; the take points and completed intervals will comply with setback requirements under statewide rules.

8. The **Steel Guitar 35-26 Fed Com 331H Well** qualifies as the proximity well utilizing proximity tracts to create the larger standard unit covering the W/2 of Section 26 and Lots 7-10 of Section 35.

9. **WPX Exhibit A-1** contains the C-102 forms for each of the two (2) wells.

10. **WPX Amended Exhibit A-2** contains a general location plat and a plat outlining the unit being pooled, which shows the locations of the proposed wells within the unit. The well locations are orthodox, and they meet the Division's offset requirements. **WPX Amended Exhibit A-2** (at page 3) includes parties that WPX is seeking to pool in this Case, the nature of their interests, and information regarding the working interest owners, the overriding royalty interest owners, and the record title owners to be pooled.

11. **WPX Amended Exhibit A-2** also contains a list of names and addresses for the uncommitted interest owners that I provided to the law firm of Abadie & Schill P.C. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the well is located, as well as phone directories and computer searches to locate the contact

information for parties entitled to notification. **WPX Amended Exhibit A-2** lists the updated addresses for three (3) parties and identifies the Successor Trustees of the Stonestreet Family Trust. All the WI Owners, ORRI owners, and Record Title Owners were locatable and notice letters were timely mailed. WPX published notice in the Carlsbad Current-Argus, a newspaper of general circulation in Eddy County, New Mexico, to account for any unlocatable parties and to address any contingencies regarding notice.

12. **WPX Exhibit A-3** is a sample proposal letter and the AFEs for the proposed well. The estimated cost of the well set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

13. The interest owners being pooled have been contacted regarding the proposed wells but have failed or refused to voluntarily commit their interests. However, WPX has been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between WPX and another interest owner or owners, WPX requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and protection of correlative rights.

14. **WPX Exhibit A-4** provides a chronology and history of contacts with the owners. WPX has made a good faith effort to negotiate with the interest owners, but has been unable to obtain, a voluntary agreement from all interest owners to participate in the drilling of the wells or in the commitment of their interests to the well for its development within the proposed horizontal spacing unit.

15. **WPX Amended Exhibit A-5** provides an evidentiary notice list identifying all interest owners within the proposed unit and the commitment status of their interests. **WPX**

Amended Exhibit A-5 includes parties being pooled, the nature of their interests, and relevant information regarding the commitment status of working interest owners, the overriding royalty interest owners, and the record title owners to be pooled. **WPX Amended Exhibit A-5** states that the notice letter that was originally mailed on January 13, 2026, was sent again on February 10, 2026, to three (3) parties with updated addresses and one (1) party whose letter had been lost.

16. WPX requests overhead and administrative rates of \$8,000/month for drilling each well and \$800/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. WPX requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

17. WPX requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners to the extent needed.

18. WPX requests that it be designated operator of the unit and the wells.

19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

20. The Exhibits to this Statement were prepared by me or compile from WPX's company business records under my direct supervision.

21. The foregoing is correct and complete to the best of my knowledge and belief.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: Steel Guitar 35-26 Fed Com 322H, 331H
W/2 Section 26 and Lots 7-10 Section 35, Township 26 South, Range 29 East
Eddy County, New Mexico

Dear Sir or Madam,

WPX Energy Permian, LLC ("WPX"), a wholly owned subsidiary of Devon Energy Corporation, hereby proposes the drilling of the following horizontal wells with a horizontal spacing unit consisting of the W/2 of Section 26 and Lots 7-10 of Section 35, Township 26 South, Range 29 East being 431.99 acres, more or less.

Steel Guitar 35-26 Fed Com 322H, to be drilled as a U-turn well to test the Bone Spring formation at a total vertical depth of 8,670' and total measured depth of 22,720'. The SHL will be located at 460' FNL and 2,146' FWL of Section 26, with a lateral extending in a southerly direction located approximated 2,160' FWL, then returning to the north line of Section 26 at an anticipated BHL of 50' FNL and 1,000' FWL. Included is our Authority for Expenditure ("AFE") in the gross amount of \$11,108,418.05 being the total estimated cost to drill and complete said well.

Steel Guitar 35-26 Fed Com 331H, to be drilled as a U-turn well to test the Bone Spring formation at a total vertical depth of 9,245' and total measured depth of 23,245'. The SHL will be located at 457' FNL and 2,116' FWL of Section 26, with a lateral extending in a southerly direction located approximated 1,613' FWL, then returning to the north line of Section 26 at an anticipated BHL of 50' FNL and 500' FWL. Included is our Authority for Expenditure ("AFE") in the gross amount of \$11,568,089.26 being the total estimated cost to drill and complete said well.

These proposed locations and target depths are subject to change depending on any surface or subsurface concerns encountered.

WPX is proposing to drill this well under the terms of a Model Form Operating Agreement, covering W/2 of Section 26 and Lots 7-10 of Section 35, Township 26 South, Range 29 East, Eddy County, New Mexico (the "JOA"). It has the following general terms:

100%/300% Non-consenting penalty
\$8,000/\$800 Drilling and Producing Rate
WPX named as Operator

If you wish to participate in the operation, please indicate in the space provided below, along with a signed AFE, and deliver to my attention at the letterhead address or by email at Tim.Prout@dvn.com, and WPX will provide the completed JOA for your review upon request.

If you do not wish to participate in the proposed operation, WPX would like to negotiate a voluntary agreement that includes your interest.

If an agreement is not reached within 30 days of the date of this letter, WPX will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed wells.

Should you have any questions, please do not hesitate to contact me at 405-552-6113 or by email at Tim.Prout@dvn.com.

Sincerely,

DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF WPX ENERGY PERMIAN, LLC
FOR A COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. 25897

SELF-AFFIRMED STATEMENT OF J. RUSSELL GOODIN

I, J. Russell Goodin, state and affirm the following:

1. I am over the age of 18, and I have personal knowledge of the matters stated herein.
2. I am employed as a petroleum geologist for WPX Energy Permian, LLC (“WPX”), and I am familiar with the subject application and the geology involved.
3. I have testified previously by affidavit before the Oil Conservation Division (“Division”) as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.
 - a. I have a Bachelor of Science Degree in Geology from Weber State University and a Master of Science Degree in Geology from Simon Fraser University.
 - b. I have worked on New Mexico Oil and Gas matters since 2015.
4. This Self-Affirmed Statement is submitted in connection with the filing by WPX of the above-referenced compulsory pooling application pursuant to 19.15.4.12.(A)(1) NMAC.
5. **WPX Exhibit B-1** is a structure map showing the depth (subsea) to the top of the Bone Spring formation, a marker that defines the top of the target interval for the proposed wells. The contour interval is 100’. The units being pooled are outlined by red

rectangles. The structure map shows that there is a regional down-dip to the east. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.

6. **WPX Exhibit B-2** is a stratigraphic cross-section flattened on the Bone Spring top. Each well in the cross-section contains at least a gamma ray log. The cross-section demonstrates continuity and consistent thickness across the target zone. The well logs on the cross-section give a representative sample of the Bone Spring. The landing zones are highlighted by the well numbers.

7. Additional exhibits for the benefit of the Division's review include **WPX Exhibit B-3**, a gross isochore from the top of Bone Spring to the Wolfcamp, as well as **WPX Exhibits B-4 and B-5**. **WPX Exhibit B-4** is a gun barrel representation of the unit, and **WPX Exhibit B-5** is a three-dimensional structural cross section built along the wellbore trajectories.

8. I conclude from the attached exhibits that:
- a. The horizontal spacing and proration unit is justified from a geologic standpoint.
 - b. There are no structural impediments or faulting that will interfere with horizontal development.
 - c. Each quarter-quarter section in the unit will contribute more or less equally to production.

9. The preferred well orientation in this area is north-south so that the wells run sub-perpendicular to the inferred orientation of the maximum horizontal stress.

10. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.

11. The Exhibits to this Self-Affirmed Statement were prepared by me or compiled under my direct supervision.

12. The foregoing is correct and complete to the best of my knowledge and belief.

Case No. 25897:

Dear Interest Owners:

This letter is to advise you that WPX Energy Permian, LLC (“WPX” or “Applicant”), has filed the enclosed application, Case No. 25897, with the New Mexico Oil Conservation Division (“Division”) for an order pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 431.99-acre, more or less, spacing unit comprised of the W/2 of Section 26 and Lots 7-10 of Section 35, Township 26 South, Range 29 East, NMPM, Eddy County, New Mexico.

WPX has previously pooled this HSU in Case No. 25612, Order No. R-24069, and is submitting this new application because WPX has changed its development plan in order to include certain U-turn wells in the HSU. Therefore, WPX is requesting the Division to vacate Order No. R-24069 upon issuance of the new pooling order pursuant to this application such that the new pooling order will supplant and replace Order No. R-24069

WPX requested that this Application be set for hearing before an Examiner of the Oil Conservation Division on February 5, 2026, and February 5, 2026, will be the date for the

You are being notified as an interest owner (subject to title examination) and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B NMAC to file a Pre-hearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. Mountain Time on the Thursday preceding the scheduled hearing date. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: The names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.
