

New Mexico Conservation Division

4-20-26

1220 South St. Francis Drive

Santa Fe, New Mexico 87505

To Whom It Concerns:

I am a mineral owner in the property proposed Commingling Application submitted by DJR Operating, LLC (DJR) a subsidiary of Enduring Resources San Juan, LLC and their plans to drill new wells and to tie these wells to a central tank battery when and if oil and gas production occurs. This application seems premature even for administrative approval by NMOCED. It was submitted on-line April 3, 2026 and received on April 13, 2026 which did not give me time to reply by April 20, 2026. A hearing needs to be set and specifics of the process should be explained.

I have been involved in my career in working with the federal agency that oversees leasing of Indian allotted lands and have some experience with regard to commingling and co-owning of assets on Indian allotted lands. Who is to benefit by this request to drill new wells and will they be located in prior approved communitized property or outside of those properties. If not, is there a geological survey available that will show these new wells and owners are entitled to share in gas and oil productions?

Also, are the use of using an established Central

for this request.

I hope you take this correspondence into consideration as I do not have adequate resources and am not in good health to travel to any hearings as I currently reside in Oklahoma.

Sincerely,

Retha Murdock

**4. Do I need to sign anything or return any documents to the NMOCD?**

No, the application packet has been mailed to you for notice purposes only, and no signatures or documents need to be returned. The NMOCD requires the operator to send each mineral owners a copy of the application to notify you of your right to object, and for you to retain for your records if you wish.

If you have any questions about the information in the application, please don't hesitate to contact us.

Sincerely,

**ENDURING RESOURCES, LLC**

Ownership is diverse between the above-described PU and spacing units, each of which are either subject to a pooling agreement or a pooling order and are therefore considered "leases" as defined by 19.15.12.7(C) NMAC. Exhibit 5<sup>1</sup> is a list of the interest owners (including any owners of royalty or overriding royalty interests) affected by this application, an example of the letters sent by certified mail advising the interest owners that any objections must be filed in writing with the Division within 20 days from the date the Division receives this application, and proof of mailing. A copy of this application has been provided to the Bureau of Land Management ("BLM") and the Federal Indian Minerals Office ("FIMO") since federal and allottee lands are involved, as well as the State Land Office since state lands are also involved.

Thank you for your attention to this matter, and please feel free to call if you have any questions or require additional information.

Sincerely,

---

**Attachments:** [Protest Letter - Retha Murdock - 2026 04 20.pdf](#)

---

Ms. Vance,

The Division is in receipt of a protest from Retha Murdock, dated April 20, 2026, to the surface commingling application submitted by DJR Operating, LLC (371838) and designated as CTB-1223 and Application ID: 575274.

Included in the letter is a return phone number, (405)225-1874. The Division has reached out to request an email address from Ms. Murdock should one be available. A response to this email chain will be provided should the Division receive an email address at which Ms. Murdock can be reached that includes that email address and instructions on how the submission may be reviewed by Ms. Murdock.

Administrative review of the application is placed on hold until the matter of the protest is resolved. It may be resolved via either: (A) the protester withdrawing its protest; or (B) a public hearing.
