Good morning, Ms. Hardy. I just competed a phone conversation with Cody Layton, BLM, on the permit provided for the Hatch AGI No. 1 APD and associated surface facility (amine and cryo plants). He explained where the BLM was in their process. He stated that the final R-O-W agreement was waiting on an appraisal for the designated federal property from their reality group. He further stated the well along with the associated facilities has completed the EA/FONSI/DR process and were approved to proceed as a group under the permit. This addresses the requested OCD confirmation of the gas processing facility, and we will proceed with processing the hearing order [UIC permit] for the application once we have received the requested information on changes to the well locations. Thanks. PRG

Subject: Case No. 26074 - Trace Midstream - Well Location Changes

Thank you Ms. Hardy. One last task: resolution of SL and BL changes versus the AOR notice and well penetrations based on the locations of C-108. There is difference from the original C-108 application and the locations provided for the well.

- Page 3 of 135 for Exhibit A received 4/29/2026:

7. The Well will be deviated and directionally drilled from a surface hole located at approximately 458' FSL and 2,527' FWL (Unit O) to a bottom hole located approximately 2,484' to the northeast (Unit I) in Section 31, Township 18 South, Range 31 East.¹

- The submitted C-102:

Surface Location									
UL	Section	Township	Range	Lot	Ft. from E	Ft. from S	Latitude	Longitude	County
F	31	18(S)	31(E)	SWSE	2,615'	460'	N32.69790°	W103.90868°	EDDY
Bottom Hole Location									
UL	Section	Township	Range	Lot	Ft. from E	Ft. from S	Latitude	Longitude	County
K	31	18(S)	31(E)	NESE	1,044'	2,384'	N32.70320°	W103.90358°	EDDY

As required by rule, I will need for Trace to prepare a statement regarding any change in the

locations (both surface and bottomhole locations) impacts the original notice (Is additional notice required or not required?) and the AOR evaluation for penetrating wells. Please prepare a formal statement (for inclusion in the case file) with the result of the AOR review along with the C-102 attached. I believe Mr. White is quite familiar this request.

Based on a cursory review, I do not anticipate any additional notice requirements but will defer until the formal statement is filed. Meanwhile, OCD will use the supplied C-102 for the preparation of the UIC permit. Thanks and call with any questions. PRG

Good morning, Mr. Goetze,

As requested, I'm attaching the C-102 for the Trace Midstream Hatch AGI #1 well.

Please let me know if you need any additional information.

Best regards,
Dana
