

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF EOG RESOURCES, INC.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. _____

APPLICATION

EOG Resources, Inc. (“EOG” or “Applicant”) (OGRID No. 7377) through its undersigned attorneys, files this application with the Oil Conservation Division for an order pooling all uncommitted mineral owners in a non-standard 640-acre, more or less, horizontal well spacing unit in the Bone Spring formation comprised of All of Section 24, Township 24 South, Range 33 East, NMPM, Lea County, New Mexico. In support of this application, EOG states:

1. EOG is a working interest owner in the subject acreage and has the right to drill thereon.
2. Applicant seeks to initially dedicate the above-referenced non-standard horizontal well spacing unit to the proposed **Ganymede 24 Federal Com 106H** and **Ganymede 24 Federal Com 206H** u-turn wells, both to be horizontally drilled from surface locations in the NE/4 NW/4 (Unit C) of Section 25, with first take points in the SE/4 SW/4 (Unit N) of Section 24, and last take points in the SW/4 SW/4 (Unit M) of Section 24; and **Ganymede 24 Federal Com 107H** and **Ganymede 24 Federal Com 207H** u-turn wells, to be horizontally drilled from surface locations in the NE/4 NW/4 (Unit C) of Section 25, with first take points in the SW/4 SE/4 (Unit O) of Section 24, and last take points in the SE/4 SE/4 (Unit P) of Section 24.
3. Applicant has filed a separate administrative application for approval of the non-standard spacing unit.

4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all mineral interest owners in the subject spacing unit.

5. The pooling of interests and approval of this spacing unit will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this matter be set for hearing on August 6, 2026, before an Examiner of the Oil Conservation Division, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interest owners in the proposed horizontal well spacing unit;
- B. Designating Applicant as operator of this horizontal spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the wells;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

HOLLAND & HART LLP
