APPLICATION OF CHEVRON U.S.A.
INC. FOR COMPULSORY POOLING
LEA COUNTY, NEW MEXICO.

CASE NO. 26228

NOTICE OF AMENDED EXHIBIT PACKET

Chevron U.S.A. Inc. provides the attached amended exhibit packet, which includes the following amended exhibits:

- **Exhibit A: Compulsory Pooling Checklist:** Revised to correct pool and pool code to reflect only Antelope Ridge; Wolfcamp (2220).
- **Exhibit A.3: C-102:** Revised to correct pool and pool code to reflect only Antelope Ridge; Wolfcamp (2220).
- **Exhibit A.6: Proposal letter/AFEs:** Revised to replace 401 AFE with 601H AFE.

No parties have entered an appearance in this case.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

**APPLICATION OF CHEVRON U.S.A.
INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 26228

APPLICATION

Chevron U.S.A. Inc. ("Chevron") (OGRID No. 4323), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico. In support of this application, Chevron states:

1. Chevron has an interest in the subject lands and has a right to drill and operate a well thereon.
2. Chevron seeks to dedicate the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico to form a standard 320-acre, more or less, Wolfcamp horizontal spacing unit.
3. Chevron seeks to dedicate the spacing unit to the **ZN 33 21 Fed Com 601H** well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21.
4. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point.

**EXHIBIT
A.1**

5. Chevron sought, but has been unable to obtain, a voluntary agreement from all interest owners in the Wolfcamp formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.

6. The pooling of all interests in the Wolfcamp formation underlying the proposed unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

7. In order to permit Chevron to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled and Chevron should be designated operator of the proposed wells and spacing unit.

WHEREFORE, Chevron requests this application be set for hearing before an Examiner of the Oil Conservation Division on July 9, 2026 and after notice and hearing as required by law, the Division enter its order:

A. Pooling all uncommitted interests in the Wolfcamp formation underlying a horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico;

B. Designating Chevron as operator of this unit and the wells to be drilled thereon;

C. Authorizing Chevron to recover its costs of drilling, equipping and completing the wells;

D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and

E. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

Attorneys for Chevron U.S.A. Inc.

CASE NO. 26228: Application of Chevron U.S.A. Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant seeks an order from the Division pooling all uncommitted mineral interests within a 320-acre, more or less, standard Wolfcamp horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico. This spacing unit will be dedicated to the **ZN 33 21 Fed Com 601H** well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Chevron U.S.A. Inc. as operator of the wells, and a 200% charge for risk involved in drilling said wells. The unit is located approximately 19 miles northwest of Jal, New Mexico.

**APPLICATION OF CHEVRON U.S.A. INC.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

CASE NO. 26228

SELF-AFFIRMED DECLARATION OF NICHOLAS ANGELLE

Nicholas Angelle hereby states and declares as follows:

1. I am over the age of 18, I am a land professional for Chevron U.S.A. Inc., and I have personal knowledge of the matters stated herein.
2. I have previously testified before the Oil Conservation Division (“Division”) and my credentials as an expert petroleum landman were accepted as a matter of record.
3. My area of responsibility at Chevron includes the area of Lea County in New Mexico.
4. I am familiar with the application Chevron filed in this case, which is included in the exhibit packet as **Exhibit A.1**.
5. I am familiar with the status of the lands that are subject to the application.
6. I submit the following information pursuant to NMAC 19.15.4.12.A(1) in support of the above referenced compulsory pooling application.
7. The purpose of the application is to force pool all uncommitted interests into the horizontal spacing unit described below, and in the wells to be drilled in the unit.
8. No opposition is expected because the interest owners being pooled have been contacted regarding the proposed well, but have failed or refused to voluntarily commit their interests in the well.

**EXHIBIT
A.2**

9. In this case, Chevron seeks an order from the Division pooling all uncommitted mineral interests within a 320-acre, more or less, standard Wolfcamp horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico.

10. Chevron seeks to initially dedicate the above-referenced horizontal spacing unit to the **ZN 33 21 Fed Com 601H** well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21.

11. Attached as **Exhibit A.3** is the proposed C-102 for the well.

12. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point.

13. **Exhibit A.4** is a plat of tracts, including tract ownership and applicable lease numbers.

14. **Exhibit A.5** includes a unit recapitulation of the interest owners and percentage ownership. Exhibit A.5 also identifies the parties to be pooled by yellow highlighting.

15. I have conducted a diligent search of the public records in the county where the well is located, and conducted phone directory and computer searches to locate contact information for parties entitled to notification, and mailed the working interest owners well proposals, including the Authorizations for Expenditure (AFE).

16. In my opinion, Chevron has made a good faith effort to obtain voluntary joinder of the uncommitted mineral interest owners in the proposed well.

17. **Exhibit A.6** contains a sample well proposal letter and AFE. The estimated cost of the well set forth in the AFE are fair and reasonable and comparable to the costs of other wells of similar depths and length drilled in this area of New Mexico.

18. Chevron requests overhead and administrative rates of \$13,030 month for drilling the well and \$1,170 month for the producing well. These rates are fair, and comparable to the rates charged by other operators for wells of this type in this area of Southeastern, New Mexico. Chevron requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

19. Chevron requests the maximum cost plus 200% risk charge be assessed against non-consenting working interest owners.

20. In my opinion, Chevron has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed well as demonstrated by the chronology of contact in **Exhibit A.7**.

21. The parties Chevron is seeking to pool were notified of this hearing. Chevron seeks to pool overriding royalty interest owners, and they were also provided notice of this hearing.

22. **Exhibit A.8** is a table identifying all owners within the proposed unit, and include the owner's name, ownership status, commitment type, and notice provided specifying the method and date of notice along with a reference to the supporting exhibit. The information regarding the method and date of notice was provided by counsel for Chevron.

23. In my opinion, the granting of this application is in the interests of conservation and the prevention of waste.

24. The attachments to this self-affirmed declaration were prepared by me, or compiled from company business records, or were prepared at my direction.

25. Pursuant to Rule 1-011 NMRA, I declare and affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct to the best of my knowledge and belief.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

RE: Well Proposals – Zion Pad 1
ZN 33 21 FED COM 401H
ZN 33 21 FED COM 601H
W/2 NW/4 Section 33, W/2 W/2 Section 28, and W/2 SW/4 Section 21, Township 23 South, Range 34
East N.M.P.M.,
Lea County, New Mexico

Dear Working Interest Owner:

Chevron U.S.A. Inc. ("Chevron"), as operator, hereby proposes to drill the following horizontal wells located in the West Half North West Quarter (W/2 NW/4) of Section 33, West Half West Half (W/2 W/2) of Section 28, and West Half of South West Quarter (W/2 SW/4) of Section 21, T23S-R34E, Lea County, New Mexico. Chevron proposes to drill all wells from the same pad located in Unit K of Section 33, T23S-R34E.

Well Name	Surface Hole Location	Bottom Hole Location	First Take Point	Last Take Point	Total Measured Depth/Vertical Depth	Formation/Bench
ZN 33 21 FED COM 401H	1761' FSL & 2207' FWL Section 33 T23S-R34E	2615' FSL & 550' FWL Section 21 T23S-R34E	2615' FNL & 550' FWL Section 33 T23S-R34E	2540' FSL & 550' FWL Section 21 T23S-R34E	MD: 21,500' TVD: 10,520'	Second Bone Spring Upper
ZN 33 21 FED COM 601H	1761' FSL & 2207' FWL Section 33 T23S-R34E	2615' FSL & 550' FWL Section 21 T23S-R34E	2615' FNL & 550' FWL Section 33 T23S-R34E	2540' FSL & 550' FWL Section 21 T23S-R34E	MD: 22,800' TVD: 11,405'	Wolfcamp A

Please note that compliance with topography, cultural, and/or environmental concerns, among others, may require modifications to Chevron's intended drilling procedure and/or location.

Enclosed for your review are detailed Authority for Expenditure ("AFE") for each well reflecting estimated costs to drill, complete and equip the well(s) associated with this proposal. **If you intend to participate, please execute, and indicate participation in the appropriate box on this letter and return to the undersigned within 30 days of receipt of this proposal.** The AFEs represent an estimated cost and are subject to change once wells are drilled/completed and actual costs are incurred. Parties electing to participate are responsible for their proportionate share of actual costs.

Chevron is proposing to drill these wells under the terms of a new 1989 Model Form Operating Agreement which will be sent upon request. The basic terms of this agreement are as follows:

- Overhead Rates: \$13,030 Drilling / \$1,170 Production
- Non-Consent Penalties: 100% / 300% / 300%
- Expenditure Limit: \$100,000

If any Working Interest Parties elect not to participate in the drilling of subject wells or do not respond, Chevron will submit an application for a Compulsory Pooling Order with the New Mexico Oil Conservation Division after 30 days of receipt of this letter. This will allow Chevron to move forward with planning and drilling the subject wells while allowing time to properly execute a JOA amongst the parties.

Please note that Chevron is open to discuss possible trades, assignments, etc. of your interest in the subject project area. Should you be interested or have any questions, please feel free to contact me at the contact information listed below.

Sincerely,

Nicholas Angelle
Land Representative

Summary of Contacts With Working Interest Owners

- Chevron retained a broker who conducted extensive title work to determine the working interest owners and other interest owners.
- Chevron searched public records, phone directory, and various different types of internet searches.
- Chevron sent proposal letters to the working interest owners as outlined below.
- Chevron had multiple communications with the uncommitted working interest owners, which I have outlined in the chart below.
- Chevron filed the application to force pool uncommitted working interest owners who had not entered into an agreement.
- Chevron's counsel sent notices of the force pooling applications to the addresses of record for the uncommitted working interest owners and also for overriding royalty interest owners.
- Chevron's counsel also published notice in a newspaper of general circulation in the county where the wells will be located.

APPLICATION OF CHEVRON U.S.A. INC.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO

CASE NO. 26228

SELF-AFFIRMED DECLARATION OF COLIN MACRITCHIE

Colin MacRitchie hereby states and declares as follows:

1. I am over the age of 18, I am a lead geologist for Chevron U.S.A. Inc. ("Chevron"), and have personal knowledge of the matters stated herein.

2. I have not previously testified before the Oil Conservation Division ("Division"). My resume is attached as **Exhibit B.4**. I received my M.Sc. from UT Permian Basin in 2018. I received my B.Sc. from Ohio University in 2017. I have been a petroleum geologist at Chevron since 2018. Prior to being a petroleum geologist, I worked for Chevron as an asset development technologist from 2014 to 2018. Prior to working at Chevron, I worked at Weatherford as a logging specialist in the Permian Basin from 2013 to 2018.

3. My area of responsibility at Chevron includes the area of Lea County in New Mexico.

4. I am familiar with the application Chevron filed in this case.

5. **Exhibit B.1** is a locator map showing the approximate location of the proposed unit. The proposed spacing unit is identified by a highlighted gray box. The proposed wells are identified by multicolored lines within the gray box. Also shown is a diagram of Chevron's development plan.

6. **Exhibit B.2** is structure map of the Wolfcamp A formation. The proposed spacing unit is identified by a black dashed box. The contour interval used in this exhibit is 100 feet.

1

EXHIBIT
B

Exhibit B.2 also shows a gross isopach map where the spacing unit is identified by a black dashed box.

7. **Exhibit B.3** identifies five wells in the vicinity of the proposed wells, shown by a line of cross-section running from A to A'. The stratigraphic cross section is hung on the top of the Wolfcamp A formation. The well logs on the cross-section give a representative sample of the Wolfcamp A formation in the area. The target zones are identified by the words "WCA_TGT1 and WCA TGT2" and green dashed lines across the cross section for each target.

8. I conclude from the maps that:

- a. The horizontal spacing unit is justified from a geologic standpoint.
- b. There are no structural impediments or faulting that will interfere with horizontal development.
- c. Each quarter quarter section in the proposed unit will contribute more or less equally to production.

9. The preferred well orientation in this area is North-South. This is because the S_{Hmax} is at approximately 075° .

10. In my opinion, the granting of Chevron's application is in the interests of conservation and the prevention of waste.

11. The attachments to my declaration were prepared by me or compiled under my direction or supervision.

12. Pursuant to Rule 1-011 NMRA, I declare and affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct to the best of my knowledge and belief.

CASE NO. 26227

**APPLICATION OF CHEVRON U.S.A.
INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 26228

TO: AFFECTED PARTIES

This letter is to advise you that Chevron U.S.A. Inc. ("Chevron") has filed the enclosed applications.

In Case No. 26227, Chevron seeks an order from the Division pooling all uncommitted mineral interests within a 320-acre, more or less, standard Bone Spring horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico. This spacing unit will be dedicated to the **ZN 33 21 Fed Com 401H** well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point. Applicant also seeks, to the extent necessary, approval of an overlapping spacing unit. This proposed unit will partially overlap with the following existing spacing unit: A 160-acre spacing unit dedicated to the Wildcat 21 LI Fed Com 1H well (API No. 30-025-41261) located in the N/2S/2 of Section 21, Township 23 South, Range 34 East and operated by Mewbourne Oil Company. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Chevron U.S.A. Inc. as operator of the wells, and a

200% charge for risk involved in drilling said wells. The unit is located approximately 19 miles northwest of Jal, New Mexico.

In Case No. 26228, Chevron seeks an order from the Division pooling all uncommitted mineral interests within a 320-acre, more or less, standard Wolfcamp horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico. This spacing unit will be dedicated to the **ZN 33 21 Fed Com 601H** well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Chevron U.S.A. Inc. as operator of the wells, and a 200% charge for risk involved in drilling said wells. The unit is located approximately 19 miles northwest of Jal, New Mexico.

The hearing is set for July 9, 2026 beginning at 8:30 a.m. The hearing will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

As a party who may be affected by these applications, we are notifying you of your right to appear at the hearing and participate in these cases, including the right to present evidence either in support of or in opposition to the applications. Failure to appear at the hearing may preclude you from any involvement in these cases at a later date.

You are further notified that if you desire to appear in these cases, then you are requested to file a Pre-Hearing Statement with the Division at least four business days in advance of a scheduled hearing before the Division or the Commission, but in no event later than 5:00 p.m. mountain time, on the Thursday preceding the scheduled hearing date, with a copy delivered to the undersigned.

Sincerely,

Deana M. Bennett

INC. FOR COMPULSORY POOLING,
AND, TO THE EXTENT NECESSARY,
APPROVAL OF AN OVERLAPPING SPACING UNIT,
LEA COUNTY, NEW MEXICO.**

CASE NO. 26227

APPLICATION

Chevron U.S.A. Inc. ("Chevron") (OGRID No. 4323), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (1) pooling all uncommitted interests in the Bone Spring formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) to the extent necessary, approving an overlapping spacing unit. In support of this application, Chevron states:

1. Chevron has an interest in the subject lands and has a right to drill and operate a well thereon.
2. Chevron seeks to dedicate the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico to form a standard 320-acre, more or less, Bone Spring horizontal spacing unit.
3. Chevron seeks to dedicate the spacing unit to the **ZN 33 21 Fed Com 401H** well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21.
4. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point.

5. This proposed unit will partially overlap with the following existing spacing unit: A 160-acre spacing unit dedicated to the Wildcat 21 LI Fed Com 1H well (API No. 30-025-41261) located in the N/2S/2 of Section 21, Township 23 South, Range 34 East and operated by Mewbourne Oil Company. Chevron has already provided notice of the overlapping spacing unit to Mewbourne Oil Company, the operator of the existing well, and to the working interest owners in the existing well. Chevron is only seeking approval of the overlapping spacing unit to the extent necessary.

6. Chevron sought, but has been unable to obtain, a voluntary agreement from all interest owners in the Bone Spring formation underlying the proposed spacing unit to participate in the drilling of the wells or to otherwise commit their interests to the wells.

7. The pooling of all interests in the Bone Spring formation underlying the proposed unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

8. In order to permit Chevron to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled and Chevron should be designated operator of the proposed wells and spacing unit.

WHEREFORE, Chevron requests this application be set for hearing before an Examiner of the Oil Conservation Division on July 9, 2026 and after notice and hearing as required by law, the Division enter its order:

A. Pooling all uncommitted interests in the Bone Spring formation underlying a horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico;

B. Designating Chevron as operator of this unit and the wells to be drilled thereon;

- C. Authorizing Chevron to recover its costs of drilling, equipping and completing the wells;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure;
- E. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells; and
- F. Approving, to the extent necessary, the proposed overlapping spacing unit.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

COMMISSION # 1087526
COMMISSION EXPIRES 01/29/2027

This newspaper is duly qualified to publish legal notices or advertisements within the meaning of Section 3, Chapter 167, Laws of 1937 and payment of fees for said publication has been made.

LEGAL NOTICE June 16, 2026

CASE NO. 26227: Notice to all affected parties, as well as heirs and devisees of: NorthStar Resources, LLC; Pegasus Resources III NM Corporation; Elliott Industries Limited Partnership; Elliott-Hall Company Limited Partnership; McMullen Minerals II, LP; Kincheloe III, LLC; Curry Services LLLP; Dorothy L. Martin and husband Jeffrey L. Martin, as joint tenants with rights of survivorship; Donna M. Priest, as Trustee of the Donna M. Priest Trust, under Trust Agreement dated March 12, 2021; Reba Diane Coston as Trustee of the Diane Coston Trust, under Trust Agreement dated October 3, 2018; Wildcat Energy, LLC; James Berry Stapler; John William Stapler, as his separate property; Susan Margaret Cabral, as her separate property; Teresa Stapler Staub, as her separate property; AmeriPermian Holdings, LLC; Tenison Oil Company; Mewbourne Oil Company; ConocoPhillips; Paloma Permian AssetCo., LLC; Bureau of Land Management; State of New Mexico of the Application of Chevron U.S.A. Inc. for Compulsory Pooling, and, to the extent Necessary, Approval of an Overlapping Spacing Unit, Lea County, New Mexico. The State of New Mexico through its Oil Conservation Division hereby gives notice that the Division will conduct a public hearing at 8:30 a.m. on July 9, 2026 to consider this application. The conference will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via a virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>. Applicant seeks an order from the Division pooling all uncommitted mineral interests within a 320-acre, more or less, standard Bone Spring horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico. This spacing unit will be dedicated to the ZN 33 21 Fed Com 401H well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point. Applicant also seeks, to the extent necessary, approval of an overlapping spacing unit. This proposed unit will partially overlap with the following existing spacing unit: A 160-acre spacing unit dedicated to the Wildcat 21 LI Fed Com 1H well (API No. 30-025-41261) located in the N/2S/2 of Section 21, Township 23 South, Range 34 East and operated by Mewbourne Oil Company. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Chevron U.S.A. Inc. as operator of the wells, and a 200% charge for risk involved in drilling said wells. The unit is located approximately 19 miles northwest of Jal, New Mexico.

CASE NO. 26228: Notice to all affected parties, as well as heirs and devisees of: NorthStar Resources, LLC; Pegasus Resources III NM Corporation; Elliott Industries Limited Partnership; Elliott-Hall Company Limited Partnership; McMullen Minerals II, LP; Kincheloe III, LLC; Curry Services LLLP; Dorothy L. Martin and husband Jeffrey L. Martin, as joint tenants with rights of survivorship; Donna M. Priest, as Trustee of the Donna M. Priest Trust, under Trust Agreement dated March 12, 2021; Reba Diane Coston as Trustee of the Diane Coston Trust, under Trust Agreement dated October 3, 2018; Wildcat Energy, LLC; James Berry Stapler; John William Stapler, as his separate property; Susan Margaret Cabral, as her separate property; Teresa Stapler Staub, as her separate property; AmeriPermian Holdings, LLC; Tenison Oil Company; Mewbourne Oil Company; ConocoPhillips; Paloma Permian AssetCo., LLC; Bureau of Land Management; State of New Mexico of the Application of Chevron U.S.A. Inc. for Compulsory Pooling, Lea County, New Mexico. The State of New Mexico through its Oil Conservation Division hereby gives notice that the Division will conduct a public hearing at 8:30 a.m. on July 9, 2026 to consider this application. The conference will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via a virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>. Applicant seeks an order from the Division pooling all uncommitted mineral interests within a 320-acre, more or less, standard Wolfcamp horizontal spacing unit comprised of the W/2NW/4 of Section 33, the W/2W/2 of Section 28, and the W/2SW/4 of Section 21, Township 23 South, Range 34 East, NMPM, Lea County, New Mexico. This spacing unit will be dedicated to the ZN 33 21 Fed Com 601H well to be horizontally drilled at a proposed first take point in the SW/4 NW/4 (Unit E) of Section 33, to a proposed last take point in the NW/4 SW/4 (Unit L) of Section 21. The last take point of the well will comply with the Division's setback requirements and Chevron will apply for non-standard location approval for the first take point. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Chevron U.S.A. Inc. as operator of the wells, and a 200% charge for risk involved in drilling said wells. The unit is located approximately 19 miles northwest of Jal, New Mexico.
