APPLICANT'S STATEMENT OF THE CASE

In Case No. 26306, Devon seeks an order pooling all uncommitted mineral interests in the Bone Spring formation underlying a standard 960-acre, more or less, spacing unit comprised of the E/2 of Sections 23, 26, and 35, Township 23 South, Range 33 East, NMPM, Lea County, New Mexico.

Devon proposes and dedicates to the HSU the **Sea Snake 35-23 Fed Com 26H Well**, as the initial well, to be drilled to a sufficient depth to test the Bone Spring formation.

The **Sea Snake 35-23 Fed Com 26H Well**, an oil well, to be horizontally drilled from a surface location in the SW/4 SE/4 (Unit O) of Section 35 to an approximate bottom hole location in or near the NW/4 NE/4 (Unit B) of Section 23. The **Sea Snake 35-23 Fed Com 26H Well's** completed interval will be located within 330 feet of the quarter-quarter section line separating the W/2 E/2 and E/2 E/2 of Sections 23, 26, and 35, thereby allowing the E/2 E/2 tracts to be included as proximity tracts to form a standard 960-acre horizontal spacing unit under 19.15.16.15.B(1)(b) NMAC.

The wells proposed herein are orthodox in their locations; the take points and completed intervals comply with setback requirements under statewide rules.

APPLICANT'S PROPOSED EVIDENCE

WITNESS	ESTIMATED TIME	EXHIBITS
Landman: Ryan Cloer	Approx. 10 min	Approx. 5
Geologist: Derek Ohl	Approx. 10 min	Approx. 5

PROCEDURAL MATTERS

No parties have entered any appearances or raised any objections to these applications. Therefore, Devon plans to proceed with the hearing by affidavit or self-affirmed statements.

Respectfully submitted,

ABADIE & SCHILL, PC
