RE: Case Nos. 26424 and 26428 (Inca Dove Wells) – Applications for compulsory pooling filed by Jetta Operating Company, Inc.

Dear Hearing Examiner Chakalian:

Jetta Operating Company, Inc. hereby re-submits its revised exhibits for the non-contested hearing on September 3, 2026. We inadvertently omitted the resumés of Landman Jonathan Jackson and Geologist Amy Patterson. The revisions include the following:

- Revised exhibit index
- Inserted the resumés of Landman Jonathan Jackson and Geologist Amy Patterson in the appropriate portion of the exhibits.

Please feel free to contact me if you have any questions.

Sincerely,

Sharon T. Shaheen

COMPULSORY POOLING

1	ALL INFORMATION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED AFFIDAVITS	
2		
3	Case: 26424	APPLICANT'S RESPONSE
4	Date	September 3, 2026
5	Applicant	Jetta Operating Company, Inc.
6	Designated Operator & OGRID (affiliation if applicable)	Jetta Operating Company, Inc. (213663)
7	Applicant's Counsel:	Sharon Shaheen (Shaheen Law NM LLC)
8	Case Title:	Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico
9	Entries of Appearance/Intervenors:	None at this time
10	Well Family	Inca Dove
11	Formation/Pool	
12	Formation Name(s) or Vertical Extent:	Wolfcamp formation
13	Primary Product (Oil or Gas):	Oil
14	Pooling this vertical extent:	From the top of the Wolfcamp B to the base of the Wolfcamp
15	Pool Name and Pool Code (Only if NSP is requested):	N/A
16	Well Location Setback Rules (Only if NSP is Requested):	N/A
17	Spacing Unit	
18	Type (Horizontal/Vertical)	Horizontal
19	Size (Acres)	623.24 acres
20	Building Blocks:	40-acre tracts
21	Orientation:	North to South
22	Description: TRS/County	Lots 1, 2, 3, & 4 and the E/2 W/2 of Sections 18 and 19, T23S, R34E, Lea County, New Mexico
23	Standard Horizontal Well Spacing Unit (Y/N), If No, describe and is approval of non-standard unit requested in this application?	Yes, with proximity tracts
24	Other Situations	
25	Depth Severance: Y/N. If yes, description	Yes. There are depth severances in the Wolfcamp A in the North Half of Section 18, T23S-R34E, at 100' below the depths penetrated by the following existing wells, which were drilled near the base of the Third Bone Spring: White Wing 7909 18 19 Federal Com #1H (API 30-025-46148), White Wing 7909 18 19 Federal Com #2H (API 30-025-46149), White Wing 7909 18 19 Federal Com #3H (API 30-025-46150), and White Wing 7909 18 19 Federal Com #4H (API 30-025-46151). However, Applicant seeks to pool below the depth severance, from the top of the Wolfcamp B to the bottom of the Wolfcamp. No depth severance exists in the vertical extent sought to be pooled.
26	Proximity Tracts: If yes, description	Yes. W/2 W/2 of Sections 18 and 19, T23S, R34E, Lea County, New Mexico
27	Proximity Defining Well: if yes, description	Inca Dove 18-19 Fed Com #1H
28	Applicant's Ownership in Each Tract	Tract 1: 35%; Tract 2: 0%; Tract 3: 0%; Tract 4: 0%
29	Well(s)	
30	Name & API (if assigned), surface and bottom hole location, footages, completion target, orientation, completion status (standard or non-standard)	Add wells as needed

Tab 2

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF JETTA OPERATING
COMPANY, INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

Case No. 26424

AMENDED APPLICATION

Jetta Operating Company, Inc., OGRID No. 213663, (“Jetta” or “Applicant”) files this application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit (“HSU”) comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico.

In support of its application, Jetta states as follows:

1. Jetta owns an interest in the proposed HSU and therefore has the right to drill thereon.
2. Jetta proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well (“Inca Dove #1H”) in the HSU, to be horizontally drilled from a surface hole location approximately 432’ FNL and 2,508’ FWL of Section 18, T23S, R34E, and a bottom hole location 100’ FSL and 1,270’ FWL of Section 19, T23S, R34E.
3. The Inca Dove #1H will be located less than 330’ from the center line of the West Half of Sections 18 and 19 and will thus be a proximity well.
4. With the proximity tracts, the completed interval and first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells.

5. There are one or more depth severances in the Wolfcamp A interval.
6. Jetta has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all of the mineral interest owners in the proposed HSU.
7. Pooling of all mineral interest owners from the top of the Wolfcamp B to the bottom of the Wolfcamp formation will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
8. In order to permit Jetta to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this proposed HSU should be pooled and Jetta should be designated the operator of the HSU.

WHEREFORE, Jetta requests that this application be set for hearing on September 3, 2026, and that, after notice and hearing as required by law, the Division enter an order,

A. Pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard 623.24-acre HSU, with proximity tracts, comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico.

- B. Allowing the drilling of the Inca Dove #1H in the proposed HSU;
- C. Designating Jetta as operator of the HSU and the wells to be drilled thereon;
- D. Authorizing Jetta to recover its costs of drilling, equipping and completing the wells;
- E. Approving the operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

F. Imposing a 200% penalty for the risk assumed by Jetta in drilling and completing the well against any interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

Attorneys for Jetta Operating Company, Inc.

Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B interval to the bottom of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit ("HSU") comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well ("Inca Dove #1H") in the HSU, to be horizontally drilled from a surface hole location approximately 432' FNL and 2,508' FWL of Section 18, T23S, R34E, and a bottom hole location 100' FSL and 1,270' FWL of Section 19, T23S, R34E. The Inca Dove #1H is a proximity well. With the proximity tracts, the completed interval and first and last take points will meet statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The wells and land are approximately 22.4 miles Southwest of Eunice, New Mexico.

Case Nos. 26424 & 26428

SELF-AFFIRMED STATEMENT OF LANDMAN JONATHAN JACKSON

I, Jonathan Jackson, make the following self-affirmed statement:

1. I am over the age of 18, and have the capacity to execute this affirmation, which is based on my personal knowledge.

2. I am employed as a Senior Landman for Jetta Operating Company, Inc. (“Jetta” or “Applicant”), and I am familiar with the subject applications and the lands involved.

3. This affirmation is submitted in connection with the filing by Jetta of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

4. I have not previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. A summary of my education and work experience is as follows: I graduated from Texas Tech University with a bachelor’s degree in business administration in 2005. After graduation, I worked as an in-house landman at Choate Company, Inc. for almost two years. Thereafter, I worked as an independent landman with R.S. Peveto, Jr. Properties, Inc. and Permian Land Company for approximately five and a half years. I have worked for Jetta as a landman since June 2013. My resumé is appended hereto.

5. Jetta has an interest in the minerals underlying the proposed horizontal spacing unit (“HSU”) and has the right to drill therein.

6. The purpose of this application is to force pool working interest and overriding royalty owners into the HSU described below and, in the wells, to be drilled therein.

Exhibit A

7. The interest owners being pooled have been contacted regarding the proposed wells, but have failed or refused to voluntarily commit their interest in the wells.

8. In Case No. 26424, Applicant seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B to the base of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit ("HSU") comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well ("Inca Dove #1H") in the HSU, to be horizontally drilled from a surface hole location approximately 432' FNL and 2,508' FWL of Section 18, T23S, R34E, and a bottom hole location 100' FSL and 1,270' FWL of Section 19, T23S, R34E. The first take point will be located approximately 650' FNL and 1270' FWL of Section 18, T23S, R34E. The last take point will be located approximately 100' FSL and 1270' FWL of Section 19, T23S, R34E.

9. In Case No. 26428, Applicant seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B to the base of the Wolfcamp formation in a standard 640-acre, with proximity tracts, horizontal spacing and proration unit ("HSU") comprised of the E/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #2H** oil well ("Inca Dove #2H") in the HSU, to be horizontally drilled from a surface hole location approximately 434' FNL and 2,533' FWL of Section 18, T23S, R34E, and a bottom hole location 100' FSL and 1,295' FEL of Section 19, T23S, R34E. The first take point will be located approximately 650' FNL and 1295' FEL of Section 18, T23S, R34E. The last take point will be located approximately 100' FSL and 1295' FEL of Section 19, T23S, R34E.

10. In Case No. 26424, the Inca Dove #1H will be located less than 330' from the center line of the West Half of Sections 18 and 19. In Case No. 26428, the Inca Dove #2H will be located less than 330' from the center line of the East Half of Section 18 and 19. Both wells are therefore proximity wells, and both applications therefore seek to pool standard units with proximity tracts.

11. With the proximity tracts, the completed intervals and first and last take points of both wells will meet the setback requirements set forth in the statewide rules for horizontal oil wells.

12. There is no depth severance within the depths sought to be pooled in these applications, that is, from the top of the Wolfcamp B to the base of the Wolfcamp. There are depth severances in the Wolfcamp A in the North Half of Section 18, T23S-R34E, at 100' below the depths penetrated by the following existing wells, which were drilled near the base of the Third Bone Spring: White Wing 7909 18 19 Federal Com #1H (API 30-025-46148), White Wing 7909 18 19 Federal Com #2H (API 30-025-46149), White Wing 7909 18 19 Federal Com #3H (API 30-025-46150), and White Wing 7909 18 19 Federal Com #4H (API 30-025-46151).

13. The locations of the proposed wells are depicted in the C-102 forms attached as **Exhibit A-1**. The C-102 forms also indicate the locations of each surface hole, bottom hole, and the first and last take points.

14. A plat of tracts, tract ownership, and applicable lease numbers is attached as **Exhibit A-2**.

15. Unit recap is included as **Exhibit A-3**. The parties being force pooled are highlighted in yellow.

16. Well proposal letters with the corresponding Authorization for Expenditure ("AFE") for each well were sent to all working interest owners on May 27, 2026. See **Exhibit A-**

4. The estimated costs of the wells set forth in the AFEs are fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

17. A chronology of contacts with the non-joined working interest owners to be pooled in each unit is attached as **Exhibit A-5**. The interest attributed to BTA Oil Producers, et al. consists of over 85 interest owners for whom BTA Oil Producers is the managing entity for purposes of compulsory pooling and related notices. *See* Exhibit A-5 at 1.

18. The commitment status of each party to be pooled is detailed in **Exhibit A-6**.

19. Jetta conducted a diligent search of the public records in Lea County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification.

20. Jetta has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.

21. Jetta requests the Division to approve operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures.

22. Jetta requests the maximum cost, plus 200% risk charge, be assessed against non-consenting working interest owners.

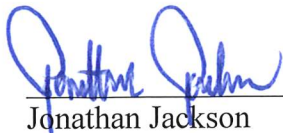

23. Jetta requests that it be designated operator of the wells.

24. The exhibits hereto were prepared by me or compiled from Jetta's business records.

25. The granting of the Applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

26. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

Achievements

- Demonstrated ability to lead and interact with multiple departments to execute goals.
- Played integral role in lease negotiations for the acquisition of lease rights.
- Built long lasting relationships with industry professionals.

Work Experience

Jetta Operating Company, Inc., Fort Worth, Texas

Sr. Landman

June 2013 – Current

Coordinated drilling plans with local and state regulatory bodies. Contributed ideas with other departments in a team environment to execute development plans. Managed and assisted field brokers for lease acquisitions and future drilling. Handled non-op interests throughout different assets while building stronger relationships with operators.

Permian Land Company, Fort Worth, Texas

Independent Landman

September 2011 – June 2013

Built relationships and worked directly with new clients. Played integral role in clients due diligence efforts. Prepared drill site run sheets, resolved title curative requirements, and determined mineral ownership. Maintained excellent landowner relationships.

R.S. Peveto, Jr. Properties, Inc., Weatherford, Texas

Independent Landman

November 2007 – September 2011

Research and determine mineral and leasehold interests while calculating NRI and working interest. Develop and execute plans for new areas of interest. Negotiate oil and gas leases. Developed relationships by firsthand contact with clients.

Choate Company, Inc., Midland, Texas

Negotiations Manager/In-house-Landman

Jan. 2006 – November 2007

Prepare ROW agreements and negotiate Oil and Gas Leases and surface damages as required. Supervise crew of negotiators and work directly with clients. Prepare and update runsheets at County Clerks. Research and determine mineral and leasehold ownership through examination of Public Records.

Education

Texas Tech University, Lubbock, Texas

B.B.A., General Business with Emphasis on Marketing and Sales Management, August 2005

Activities

AAPL and FWAPL Member Since 2006

Completed Petroleum Land Management Course at Midland College
NRI/ Working Interest Course

Texas Tech University

- Sigma Chi Fraternity
 - Active as a Membership Education Leader and Intramural Sports Captain. Responsibilities included planning new member meetings, teaching new members fraternity values and ideals, and mentoring them to develop them into productive leaders.

FEDERAL EXPRESS OVERNIGHT DELIVERY

In re: Well Proposals
Jetta Inca Dove 18-19 Fed Com #1H
Jetta Inca Dove 18-19 Fed Com #2H
Sections 18 and 19, T-23 -S, R-34-E
Lea County, New Mexico

Dear Interest Owner:

Jetta Operating Company, Inc. ("Jetta"), on behalf of itself and its affiliates, proposes to drill the following wells (each a "Well" and together, the "Wells") in Lea County, New Mexico:

Jetta Inca Dove 18-19 Fed Com #1H (the "Inca Dove #1H"): As currently contemplated, the proposed Inca Dove #1H would be drilled: (a) as a horizontal well with a surface hole location at 448' FNL, 2,517' FWL of Section 18, T23S, R34E, and a bottom hole location at 100' FSL, 1,287' FWL of Section 19, T23S, R34E and (b) to a TVD of approximately 11,850' and a MD of approximately 22,250' to test the Wolfcamp B Formation.

Jetta Inca Dove 18-19 Fed Com #2H (the "Inca Dove #2H"): As currently contemplated, the proposed Inca Dove #2H would be drilled: (a) as a horizontal well with a surface hole location at 451' FNL, 2,660' FEL of Section 18, T23S, R34E, and a bottom hole location at 100' FSL, 1,295' FEL of Section 19, T23S, R34E and (b) to a TVD of approximately 11,850' and a MD of approximately 22,250' to test the Wolfcamp B Formation.

I am enclosing an Authority for Expenditure (an "AFE") for each of the Wells. These AFEs itemize the estimated cost of drilling, testing, completing, and equipping each Well.

In the event that Jetta moves forward with this proposal, we would seek to govern operations within each unit under the terms of a modified 1989 A.A.P.L. form of Operating Agreement. A form of such Operating Agreement is enclosed for your review. Material terms of such Operating Agreement would include:

- 100/300/300 non-consent penalty
- \$12,000/\$1,200 Drilling Well Rate/Producing Well Rate

Inca Dove #1H and #2H Proposals
May 27, 2026
Page 2 of 3

- Jetta Operating Company, Inc, named as Operator

Should you desire to participate in the drilling of the Wells, please so indicate in the spaces provided below and return a signed copy of this letter within 30 days of receipt. Jetta would then prepare operating agreements for your execution based on the enclosed form. In the event that you do not elect to voluntarily participate under a joint operating agreement, Jetta plans to submit an application for a Compulsory Pooling Order with the New Mexico Oil Conservation Division.

As an alternative to your participation in the drilling of the Wells as described above, Jetta proposes a transaction whereby it would acquire your interest in the applicable leases pursuant to a term assignment. Material terms of this arrangement would include:

- A primary term of three (3) years
- Delivery of 75% 8/8ths NRI
- Consideration paid by Jetta of \$4,000 per net mineral acre

Should you desire the term assignment option, Jetta would provide relevant documentation for your review upon request.

Jetta reserves the right to modify the locations and drilling plans described above and will advise you should any modifications occur. Notwithstanding anything in this letter to the contrary: (a) Jetta may revise, change, or withdraw the proposals made in this letter at any time and (b) submission of these proposals is not—and is not intended to be—binding on Jetta, its affiliates, or its or their respective officers, directors, members, managers, partners, shareholders, employees, advisors, or service providers as a commitment or obligation to conduct any operations with respect to the Wells or to acquire any leasehold or mineral interest. Only the terms of an operating agreement, term assignment, and related transaction documents, should they be negotiated, executed, and delivered by the parties thereto, will have any legal effect.

Jetta has engaged Valley View Energy LLC (www.valleyviewenergy.com) to assist with this project. Should you have any questions or wish to discuss, please contact Drew Alfred at Valley View Energy LLC (512.913.4966; drew@valleyviewenergy.com).

Sincerely,

Jonathan Jackson
Sr. Landman

Case Nos. 26424 & 26428

SELF-AFFIRMED STATEMENT OF GEOLOGIST AMY PATTERSON

I, Amy Patterson, do hereby state and affirm the following:

1. I am over the age of 18 and have the capacity to execute this statement.
2. I am employed as Vice-President-Geology for Jetta Operating Company, "Inc." ("Jetta" or "Applicant"). I have held this position since December 15, 2020.
3. This self-affirmed statement is submitted in connection with the filing by Jetta of the above-referenced compulsory pooling application pursuant to 19.15.4.12.A(1) NMAC.
4. I have not previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum engineering matters. A summary of my education and work experience is as follows: I graduated from Texas Christian University in 2002 with a Bachelor of Science degree in Geology and in 2010 with a Master of Science degree in Petroleum Geology. I have worked as a geologist in the oil and gas industry since 2010. I have been employed with Jetta, or one of its affiliates, in its geology department for approximately 13 years. I have worked on New Mexico oil and gas matters since 2014. Further details regarding my education and work experience are reflected in my resume, appended hereto.
5. **Exhibit B-1** is a location map highlighting the position of the project areas.
6. **Exhibit B-2** is a TVDSS structure map on the top of the Wolfcamp B with contour intervals of 50'. The top defines the top of the target interval for the proposed Wolfcamp B wells. The proposed spacing unit is outlined by the black dashed rectangle and highlighted in yellow, and

Exhibit B

the proposed horizontal wells are shown in red. There is no evidence of faults, pinch-outs or other significant impediments to the horizontal development in either of the objectives.

7. **Exhibit B-3** is a structural cross-section for the Wolfcamp B. Log curves for each well on the section consist of a gamma ray, deep resistivity, and PE. The target interval for the proposed wells is shaded yellow.

8. **Exhibit B-4** is a Gun Barrel Diagram.

9. **Exhibit B-5** is a Gross Isopach Map for the Wolfcamp B to Atoka. The gross interval thickness is variable across the unit, ranging from 600'-750'.

10. The measured depths and true vertical depths for each well are approximately as follows:

	MD	TVD
26424 - Inca Dove 18-19 Fed Com #1H	22,250'	11,850'
26428 - Inca Dove 18-19 Fed Com #2H	22,250'	11,850'

11. I have reviewed the depth severances identified by Jetta's land witness, Jonathan Jackson, and confirm that these depth severances are not within the interval that Jetta proposes to pool in these applications, which is the top of the Wolfcamp B to the base of the Wolfcamp. *See* Jetta Exhibit A at 3, ¶ 12.

12. Based on my geologic study of the area, I conclude the following:

- a. The horizontal spacing and proration units ("HSU") are justified from a geologic standpoint.
- b. There are no structural impediments or faults that will interfere with horizontal development.

- c. Each quarter-quarter section in the HSU will contribute more or less equally to production.

13. The planned well orientation in this area is north-south to complement existing development in the immediate area.

14. The exhibits attached hereto were prepared by me or compiled under my direction.

15. The granting of the Applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

Amy Patterson

CASE NOS. 26424 & 26428

AFFIRMATION OF NOTICE

I, Sharon T. Shaheen, attorney for JETTA OPERATING COMPANY, INC. ("Jetta"), Applicant in the above-captioned matters, state the following:

I caused notice of the application to be sent by certified mail through the United States Postal Service on August 14, 2026, to all interest owners in these matters. Sample notice letters are attached hereto as Exhibit C-1. A chart showing the results of the certified mailing is attached as Exhibit C-2, and the certified mailing receipts and returns are attached as Exhibit C-3. Notice was also directed by publication in the Hobbs News-Sun on August 20, 2026, to all such owners whose interest was evidenced by a written conveyance document either of record or known to the applicant at the time the applicant filed the application, as shown in the Affidavit of Publication attached hereto as Exhibit C-4.

Jetta has conducted a good faith, diligent effort to find the names and correct addresses for the interest-owners entitled to receive notice of the Application filed herein.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

*Via U.S. Certified Mail, Return Receipt Requested***TO: ALL INTEREST OWNERS ON ATTACHED LIST****Re: Case No. 26424** – Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico –**Inca Dove 18-19 Fed Com #1H**

Dear Interest Owner:

This will advise that pursuant to NMSA 1978, § 70-2-17, Jetta Operating Company, Inc. (“Jetta”) has filed an amended application with the New Mexico Oil Conservation Division seeking compulsory pooling in Lea County, New Mexico. You are receiving this notice because you may have an interest in one or more of these wells.

Case No. 26424: Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B interval to the bottom of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit (“HSU”) comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well (“Inca Dove #1H”) in the HSU, to be horizontally drilled from a surface hole location approximately 432’ FNL and 2,508’ FWL of Section 18, T23S, R34E, and a bottom hole location 100’ FSL and 1,270’ FWL of Section 19, T23S, R34E. The Inca Dove #1H is a proximity well. With the proximity tracts, the completed interval and first and last take points will meet statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The wells and land are approximately 22.4 miles Southwest of Eunice, New Mexico.

The attached application should be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **September 3, 2026**. Hearings are currently conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the electronic hearing,

422 Medico Lane Suite A**Santa Fe NM 87505****505-469-1521****Exhibit C-1**

All Interest Owners

Aug. 14, 2026

see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/oed/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony.

Failure to appear at that time and become a party of record will preclude you from challenging these applications at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance **eight days prior to the hearing**, no later than August 26, 2026, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement **seven days prior to the hearing**, no later than August 27, 2026, in accordance with Division Rule 19.15.4.13 NMAC.

You may review filings and confirm the date of the hearing by accessing case documents at <https://oedimage.emnrd.nm.gov/imaging/CaseFileCriteria.aspx>.

Please feel free to contact me if you have any questions about these applications.

Very truly yours,

/s/ Sharon T. Shaheen

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF JETTA OPERATING
COMPANY, INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

Case No. 26424

AMENDED APPLICATION

Jetta Operating Company, Inc., OGRID No. 213663, (“Jetta” or “Applicant”) files this application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit (“HSU”) comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico.

In support of its application, Jetta states as follows:

1. Jetta owns an interest in the proposed HSU and therefore has the right to drill thereon.
2. Jetta proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well (“Inca Dove #1H”) in the HSU, to be horizontally drilled from a surface hole location approximately 432’ FNL and 2,508’ FWL of Section 18, T23S, R34E, and a bottom hole location 100’ FSL and 1,270’ FWL of Section 19, T23S, R34E.
3. The Inca Dove #1H will be located less than 330’ from the center line of the West Half of Sections 18 and 19 and will thus be a proximity well.
4. With the proximity tracts, the completed interval and first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells.

5. There are one or more depth severances in the Wolfcamp A interval.
6. Jetta has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all of the mineral interest owners in the proposed HSU.
7. Pooling of all mineral interest owners from the top of the Wolfcamp B to the bottom of the Wolfcamp formation will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
8. In order to permit Jetta to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this proposed HSU should be pooled and Jetta should be designated the operator of the HSU.

WHEREFORE, Jetta requests that this application be set for hearing on September 3, 2026, and that, after notice and hearing as required by law, the Division enter an order,

A. Pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard 623.24-acre HSU, with proximity tracts, comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico.

- B. Allowing the drilling of the Inca Dove #1H in the proposed HSU;
- C. Designating Jetta as operator of the HSU and the wells to be drilled thereon;
- D. Authorizing Jetta to recover its costs of drilling, equipping and completing the wells;
- E. Approving the operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

F. Imposing a 200% penalty for the risk assumed by Jetta in drilling and completing the well against any interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

SHAHEEN LAW NM LLC

Attorneys for Jetta Operating Company, Inc.

Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B interval to the bottom of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit ("HSU") comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well ("Inca Dove #1H") in the HSU, to be horizontally drilled from a surface hole location approximately 432' FNL and 2,508' FWL of Section 18, T23S, R34E, and a bottom hole location 100' FSL and 1,270' FWL of Section 19, T23S, R34E. The Inca Dove #1H is a proximity well. With the proximity tracts, the completed interval and first and last take points will meet statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The wells and land are approximately 22.4 miles Southwest of Eunice, New Mexico.

Dear Interest Owner:

This will advise that pursuant to NMSA 1978, § 70-2-17, Jetta Operating Company, Inc. (“Jetta”) has filed an amended application with the New Mexico Oil Conservation Division seeking compulsory pooling in Lea County, New Mexico. You are receiving this notice because you may have an interest in one or more of these wells.

Case No. 26428: Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard approximately 640-acre, with proximity tracts, horizontal spacing and proration unit (“HSU”) comprised of the E/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #2H** oil well (“Inca Dove #2H”) in the HSU, to be horizontally drilled from a surface hole location approximately 434’ FNL and 2,533’ FWL of Section 18, T23S, R34E, and a bottom hole location at 100’ FSL and 1,295’ FEL of Section 19, T23S, R34E. The Inca Dove #2H is a proximity well. With the proximity tracts, the completed interval and first and last take points will meet statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The wells and land are approximately 22.4 miles Southwest of Eunice, New Mexico.

The attached application should be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **September 3, 2026**. Hearings are currently conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the electronic hearing,

see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/oed/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony.

Failure to appear at that time and become a party of record will preclude you from challenging these applications at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance **eight days prior to the hearing**, no later than August 26, 2026, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement **seven days prior to the hearing**, no later than August 27, 2026, in accordance with Division Rule 19.15.4.13 NMAC.

You may review filings and confirm the date of the hearing by accessing case documents at <https://oedimage.emnrd.nm.gov/imaging/CaseFileCriteria.aspx>.

Please feel free to contact me if you have any questions about these applications.

Very truly yours,

/s/ Sharon T. Shaheen

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF JETTA OPERATING
COMPANY, INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

Case No. 26428

AMENDED APPLICATION

Jetta Operating Company, Inc., OGRID No. 213663, (“Jetta” or “Applicant”) files this application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard 640-acre, with proximity tracts, horizontal spacing and proration unit (“HSU”) comprised of the E/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico.

In support of its application, Jetta states as follows:

1. Jetta owns an interest in the proposed HSU and therefore has the right to drill thereon.
2. Jetta proposes to drill the **Inca Dove 18-19 Fed Com #2H** oil well (“Inca Dove #2H”) in the HSU, to be horizontally drilled from a surface hole location approximately 434’ FNL and 2,533’ FWL of Section 18, T23S, R34E, and a bottom hole location at 100’ FSL and 1,295’ FEL of Section 19, T23S, R34E.
3. The Inca Dove #2H will be located less than 330’ from the center line of the East Half of Sections 18 and 19 and will thus be a proximity well.
4. With the proximity tracts, the completed interval and first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells.

5. There are one or more depth severances in the Wolfcamp A interval.

6. Jetta has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all of the mineral interest owners in the proposed HSU.

7. Pooling of all mineral interest owners from the top of the Wolfcamp B to the bottom of the Wolfcamp formation will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

8. In order to permit Jetta to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this proposed HSU should be pooled and Jetta should be designated the operator of the HSU.

WHEREFORE, Jetta requests that this application be set for hearing on September 3, 2026, and that, after notice and hearing as required by law, the Division enter an order,

A. Pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard 640-acre HSU, with proximity tracts, comprised of the E/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico.

B. Allowing the drilling of the Inca Dove #2H in the proposed HSU;

C. Designating Jetta as operator of the HSU and the wells to be drilled thereon;

D. Authorizing Jetta to recover its costs of drilling, equipping and completing the wells;

E. Approving the operating charges and costs of supervision while drilling of \$12,000/month and, after completion, \$1,200/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

F. Imposing a 200% penalty for the risk assumed by Jetta in drilling and completing the well against any interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

SHAHEEN LAW NM LLC

This newspaper is duly qualified to publish legal notices or advertisements within the meaning of Section 3, Chapter 167, Laws of 1937 and payment of fees for said publication has been made.

LEGALS
August 20, 2026

NOTICE

To the following entities, individuals, their heirs, personal representatives, trustees, successors or assigns, and any other uncommitted mineral owners:

BTA Oil Producers, et al; Chevron U.S.A. Inc.; COG Operating LLC, ConocoPhillips Company; Devon Energy Production Co.; EJS Energy Partners Management, LLC; EJS Family Investments, Ltd; Katy Pipeline and Production Corporation; Sugarberry Minerals LP; Museum of Fine Arts, Houston; Bulldog Energy Corporation; Cathleen Kaiser; Charles E Montgomery, III; Cynthia L. Kuhn; Diana Lynn Hansen Swope; Donald J. Willis; Edwin S. Raymond; First American Bank, Trustee of the Gena Nearburg AAR Trust; First United Methodist Church - Scholarship Fund; Gretchen Nearburg; Hajek Jr. Holdings, LLC; Heather Ferguson Conklin; James Kevin Barbour; John Charles Barbour; John Robert Willis; Jon Nicholas Blauw; Katherine McIntyre; Lawrence Joseph Barbour, Jr.; Estate of Lawrence J Barbour Sr. (deceased), Rep/Agent Cynthia Barbour Kuhn; Leaslee W. Neff; Locke, LLC; Mark Nearburg and First American Bank, Trustees Mark Nearburg AAR Trust; Mark Nearburg, Trustee of the Mark Nearburg AAR Trust; Marilyn Michelle Clark; McMullen Minerals II, LP; Melanie Dawn Barbour; MerPel, LLC; Milestone Oil, LLC; Mineras Resources, LLC; Mongoose Minerals LLC; Pitch Energy Corp; PRP Delaware Basin II, LP; Ray Westall and Karen Leigh Westall; Roswell Christ Church Building Fund; Shannon K. Ferguson; Sierra Energy Royalties II, LLC; Stephen M. Willis; TD Minerals, LLC; The Christian Broadcasting Network, Inc. - The 700 Club; Thelma L. Mack; The Toles Company; Theodore Mountcastle Ferguson, III; Wells Fargo Bank, N.A., Trustee, Robert N. Enfield Trust B; Wesmax, Ltd.; and the Bureau of Land Management.

Jetta Operating Company, Inc., has filed an application with the New Mexico Oil Conservation Division as follows:

Case No. 26424: Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B interval to the bottom of the Wolfcamp formation in a standard approximately 623.24-acre, with proximity tracts, horizontal spacing and proration unit ("HSU") comprised of the W/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #1H** oil well ("Inca Dove #1H") in the HSU, to be horizontally drilled from a surface hole location approximately 432' FNL and 2,508' FWL of Section 18, T23S, R34E, and a bottom hole location 100' FSL and 1,270' FWL of Section 19, T23S, R34E. The Inca Dove #1H is a proximity well. With the proximity tracts, the completed interval and first and last take points will meet statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The wells and land are approximately 22.4 miles Southwest of Eunice, New Mexico.

This application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on September 3, 2026, beginning at 8:15 a.m. Hearings are currently conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this application at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance by **August 26, 2026**, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement by **August 27, 2026** in accordance with Division Rule 19.15.4.13 NMAC. You may review filings and confirm the date of the hearing by accessing case documents at <https://ocdimage.emnrd.nm.gov/imaging/CaseFileCriteria.aspx>. For further information, contact the applicant's attorney, Sharon T. Shaheen, Shaheen Law NM, 422 Medico Lane, Suite A, Santa Fe, New Mexico 87505, (505) 469-1521.

Jetta Operating Company, Inc., has filed an application with the New Mexico Oil Conservation Division as follows:

Case No. 26428: Amended Application of Jetta Operating Company, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests from the top of the Wolfcamp B to the bottom of the Wolfcamp formation in a standard approximately 640-acre, with proximity tracts, horizontal spacing and proration unit ("HSU") comprised of the E/2 of Sections 18 and 19, Township 23 South, Range 34 East, in Lea County, New Mexico. Applicant proposes to drill the **Inca Dove 18-19 Fed Com #2H** oil well ("Inca Dove #2H") in the HSU, to be horizontally drilled from a surface hole location approximately 434' FNL and 2,533' FWL of Section 18, T23S, R34E, and a bottom hole location at 100' FSL and 1,295' FEL of Section 19, T23S, R34E. The Inca Dove #2H is a proximity well. With the proximity tracts, the completed interval and first and last take points will meet statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The wells and land are approximately 22.4 miles Southwest of Eunice, New Mexico.

This application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division on **September 3, 2026**, beginning at 8:15 a.m. Hearings are currently conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this application at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance by **August 26, 2026**, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement by **August 27, 2026** in accordance with Division Rule 19.15.4.13 NMAC. You may review filings and confirm the date of the hearing by accessing case documents at <https://ocdimage.emnrd.nm.gov/imaging/CaseFileCriteria.aspx>. For further information, contact the applicant's attorney, Sharon T. Shaheen, Shaheen Law NM, 422 Medico Lane, Suite A, Santa Fe, New Mexico 87505, (505) 469-1521. #00314066
