FOR A COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. 26318

APPLICATION

WPX Energy Permian, LLC (“WPX”), OGRID No. 246289, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 769.91-acre, more or less, spacing unit comprised of the W/2 of Sections 23, 26 and 35, Township 26 South, Range 30 East, NMPM, Eddy County, New Mexico. In support of its Application, WPX states the following:

1. WPX is a working interest owner in the proposed horizontal spacing unit (“HSU”) and has a right to drill a well thereon.
2. WPX proposes and dedicates to the HSU the **Ross Draw 35-26-23 Fed Com 321H Well, Ross Draw 35-26-23 Fed Com 322H Well, Ross Draw 35-26-23 Fed Com 331H Well,** and the **Ross Draw 35-26-23 Fed Com 332H Well**, as initial wells, to be drilled to a sufficient depth to test the Bone Spring formation.
3. WPX proposes the **Ross Draw 35-26-23 Fed Com 321H Well**, an oil well, to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 23.

4. WPX proposes the **Ross Draw 35-26-23 Fed Com 322H Well**, an oil well, to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 23.

5. WPX proposes the **Ross Draw 35-26-23 Fed Com 331H Well**, an oil well, to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 23.

6. WPX proposes the **Ross Draw 35-26-23 Fed Com 332H Well**, an oil well, to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 23.

7. All the wells proposed herein are orthodox in their locations, as take points and completed intervals will comply with setback requirements under statewide rules.

8. Part of the proposed unit overlaps with the Ross Draw Unit, a larger federal unitization that overlaps multiple sections in this general area, including Sections 26 and 35.

9. WPX has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the wells or in the commitment of their interests to the wells for their development within the proposed HSU.

10. The pooling of all interests in the Bone Spring formation within the proposed HSU will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights.

11. In order to provide for its just and fair share of the oil and gas underlying the subject lands, WPX requests that all uncommitted interests in this HSU be pooled and that WPX be designated the operator of the proposed horizontal wells and HSU.

WHEREFORE, WPX requests that this Application be set for hearing on August 6, 2026, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

A. Pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 769.91-acre, more or less, spacing unit comprised of the W/2 of Sections 23, 26 and 35, all in Township 26 South, Range 30 East, NMPM, Eddy County, New Mexico.

B. Approving the **Ross Draw 35-26-23 Fed Com 321H Well, Ross Draw 35-26-23 Fed Com 322H Well, Ross Draw 35-26-23 Fed Com 331H Well, and the Ross Draw 35-26-23 Fed Com 332H Well** as the wells for the HSU.

C. Designating WPX as operator of this HSU and the horizontal wells to be drilled thereon;

D. Authorizing WPX to recover its costs of drilling, equipping, and completing the wells;

E. Approving actual operating charges and costs of supervision, to the maximum extent allowable, while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

F. Setting a 200% charge for the risk assumed by WPX in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

OIL CONSERVATION DIVISION**

**APPLICATION OF WPX ENERGY PERMIAN, LLC
FOR A COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. 26318

AMENDED SELF-AFFIRMED STATEMENT OF TIM PROUT

I, Tim Prout, state and affirm the following:

1. I am over the age of eighteen years and have the capacity to execute this Amended Self-Affirmed Statement, which is based on my personal knowledge.

2. I am employed as an Advising Landman with WPX Energy Permian, LLC ("WPX"), and I am familiar with the subject application and the lands involved.

3. I have previously testified before the New Mexico Oil Conservation Division ("Division") as an expert witness in petroleum land matters and my credentials have been accepted by the Division and made a matter of record.

4. This affidavit is submitted in connection with the filing by WPX of the above-referenced spacing and compulsory pooling applications pursuant to 19.15.4.12.A(1).

5. WPX seeks an order pooling all uncommitted mineral interest in the Bone Spring formation ([Wildcat 015 G-06 S242630A: Bone Spring]; Pool Code: [98319]) underlying a standard 769.91-acre, more or less, horizontal spacing unit comprised of the W/2 of Sections 23, 26 and 35, all in Township 26 South, Range 30 East, NMPM, Eddy County, New Mexico.

6. Under Case No. 26318, WPX seeks to dedicate the **Ross Draw 35-26-23 Fed Com 321H Well, Ross Draw 35-26-23 Fed Com 322H Well, Ross Draw 35-26-23 Fed Com 331H Well**, and the **Ross Draw 35-26-23 Fed Com 332H Well**, as initial wells, to be drilled to a sufficient depth to test the Bone Spring formation.

- The **Ross Draw 35-26-23 Fed Com 321H Well** (API 30-015-56255) to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 23; approximate TVD of 8,993'; approximate TMD of 21,890'; FTP in Section 35: 100' FSL, 330' FWL; LTP in Section 23: 100' FNL, 330' FWL.
 - The **Ross Draw 35-26-23 Fed Com 322H Well** (API 30-015-56256) to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NE/4NW/4 (Unit C) of Section 23; approximate TVD of 9,395'; approximate TMD of 21,910'; FTP in Section 35: 100' FSL, 1,670' FWL; LTP in Section 23: 100' FNL, 1,670' FWL.
 - The **Ross Draw 35-26-23 Fed Com 331H Well** (API 30-015-56258) to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 23; approximate TVD of 10,075'; approximate TMD of 22,554'; FTP in Section 35: 100' FSL, 1,000' FWL; LTP in Section 23: 100' FNL, 1,000' FWL.
 - The **Ross Draw 35-26-23 Fed Com 332H Well** (API 30-015-56259) to be horizontally drilled from a surface location in Lot 4 of Section 35 to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 23; approximate TVD of 10,075'; approximate TMD of 22,672'; FTP in Section 35: 100' FSL, 2,145' FWL; LTP in Section 23: 100' FNL, 2,145' FWL.
7. **Amended WPX Exhibit A-1** contains the revised C-102 forms for each of the four (4) wells.
8. **Amended WPX Exhibit A-2** contains a general location plat and a plat outlining the unit being pooled, which show the locations of the proposed wells within the unit.
9. The parties being pooled, the nature of their interests, and their last known addresses are listed on **Amended WPX Exhibit A-2** attached hereto and includes information regarding the working interest owners, the overriding royalty interest owners, and the record title owners to be pooled.

10. **Amended WPX Exhibit A-2** also contains a list of names and addresses for the uncommitted interest owners that I provided to the law firm of Abadie & Schill P.C. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located, as well as phone directories and computer searches to locate the contact information for parties entitled to notification. All working interest owners were locatable and received notice in a timely manner. Notice for five (5) interest owners: Club Oil & Gas, Ltd. JoanRD Properties, LLC, John Rick McConn, Raymond T. Duncan Oil Properties, Ltd., and Rogers Resources LP, are listed as In Transit; Notice for three (3) interest owners: James B. O'Neill, II, TR of the James O'Neill Revocable TRST, Paul E. Speight, Personal Rep. of Estate of Phyllis Speight, and The Stonestreet Family Trust, are listed as Available for Pickup, or Rescheduled to Next Day Delivery; and Notice for three (3) interest owners: Club Oil & Gas, Ltd., Meredith Ellen McConn Zenner, Raymond T. Duncan Oil Properties, Ltd., are listed as Vacant, Address Unknown or Returned to Sender. WPX published notice in the Carlsbad Current-Argus, a newspaper of general circulation in Eddy County, New Mexico, to account for any unlocatable parties and cover any contingencies regarding notice.

11. **WPX Exhibit A-3** is a sample proposal letter and the AFEs for the proposed wells. The estimated cost of the well set forth in the AFEs are fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

12. The interest owners being pooled have been contacted regarding the proposed wells but have failed or refused to voluntarily commit their interest in the wells. However, WPX has been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement ("JOA"). If a mutually agreeable JOA is reached between WPX and another interest owner or owners, WPX requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary

to maintain spacing criteria for the purpose of conservation, the prevention of waste, and protection of correlative rights. Furthermore, if any of the pooled parties listed as potential owners (who are claiming interest against other parties) are determined to be the actual owners through a court judgment, then the claimants will remain pooled, and the pooling order would not apply as a matter of law to the party determined not to have ownership.

13. **Amended WPX Exhibit A-4** provides a chronology and history of contacts with the owners. WPX has made a good faith effort to negotiate with the interest owners but has been unable to obtain voluntary agreement from all interest owners to participate in the drilling of the wells or in the commitment of their interests to the wells for development within the proposed horizontal spacing unit.

14. **Amended WPX Exhibit A-5** provides an evidentiary notice list identifying all interest owners within the proposed unit and the commitment status of their interests. **Amended WPX Exhibit A-5** also includes parties being pooled, the nature of their interests, and relevant information regarding the commitment status of working interest owners, the overriding royalty interest owners, and the record title owners to be pooled.

15. WPX requests overhead and administrative rates of \$10,000/month for drilling each well and \$1,000/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. Devon requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

16. WPX requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners to the extent needed.

17. WPX requests that it be designated operator of the unit and wells.

18. The Exhibits to this Statement were prepared by me or compiled from WPX's company business records under my direct supervision.

19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

20. The foregoing is correct and complete to the best of my knowledge and belief.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF WPX ENERGY PERMIAN, LLC,
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. 26318

AMENDED SELF-AFFIRMED STATEMENT OF J. RUSSELL GOODIN

I, J. Russell Goodin, state and affirm the following:

1. I am over the age of 18, and I have personal knowledge of the matters stated herein.
2. I am employed as a petroleum geologist for WPX Energy Permian, LLC ("WPX"), and I am familiar with the subject application and the geology involved.
3. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.
 - a. I have a Bachelor of Science Degree in Geology from Weber State University and a Master of Science Degree in Geology from Simon Fraser University.
 - b. I have worked on New Mexico Oil and Gas matters since 2015.
4. This Amended Self-Affirmed Statement is submitted in connection with the filing by WPX of the above-referenced compulsory pooling application pursuant to 19.15.4.12.A(1).
5. **WPX Exhibit B-1** is a subsea structure map showing the depth to the top of the Bone Spring. WPX's proposed spacing unit is outlined in red. Contour Interval is 100'.

The red well traces are directional plans that depict the orientation and general location of the initial wells targeting the Bone Spring formation. This map also shows the existing wells that are completed in the surrounding sections.

6. **Amended WPX Exhibit B-2** is a stratigraphic cross-section flattened on the Bone Spring top. Each well in the cross-section contains at least a gamma ray log. The cross-section demonstrates continuity and consistent thickness across the target zone. The well logs on the cross-section give a representative sample of the Bone Spring. The landing zones are highlighted by the well numbers. API numbers for the log wells are listed at the top of **Amended WPX Exhibit B-2**.

7. Additional exhibits for the benefit of the Division's review include **WPX Exhibit B-3**, a gross isochore from the top of Bone Spring; **Amended WPX Exhibit B-4** is a gun barrel representation of the unit; and **WPX Exhibit B-5** is a 3D structural cross-section built along the wellbore trajectories.

8. I conclude from the attached exhibits that:

- a. The horizontal spacing and proration unit is justified from a geologic standpoint.
- b. There are no structural impediments or faulting that will interfere with horizontal development.
- c. Each quarter-quarter section in the unit will contribute more or less equally to production.

9. The Amended Exhibits to this Amended Self-Affirmed Statement were prepared by me or compiled from WPX's company business records under my direct supervision.

10. The granting of this Application is in the interests of conservation, the prevention of waste, the avoidance of the drilling of unnecessary wells, and the protection of correlative rights.

11. The foregoing is correct and complete to the best of my knowledge and belief.
