QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 11/04/2022 |
| Time vent or flare was discovered or commenced | 12:00 AM   |
| Time vent or flare was terminated              | 08:00 AM   |
| Cumulative hours during this event             | 8          |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                                              |
|---------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                                                |
| Natural Gas Flared (Mcf) Details                                          | Cause: Midstream Emergency Maintenance   Gas Compressor Station   Natural Gas Flared   Released: 308 Mcf   Recovered: 0 Mcf   Lost: 308 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                                                |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                                                |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                                                   |

| Venting or Flaring Resulting from Downstream Activity             |                        |
|-------------------------------------------------------------------|------------------------|
| Was this vent or flare a result of downstream activity            | Yes                    |
| Was notification of downstream activity received by this operator | Yes                    |
| Downstream OGRID that should have notified this operator          | [270047] DCP MIDSTREAM |
| Date notified of downstream activity requiring this vent or flare | 11/03/2022             |
| Time notified of downstream activity requiring this vent or flare | 04:00 PM               |

| Steps and Actions to Prevent Waste                                                                                               |                                                                                                                                     |
|----------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                                                                                                |
| Please explain reason for why this event was beyond this operator's control                                                      | DCP Notified us that we needed to shut in batteries from their line due to emergency maintenance.                                   |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | vessels at batteries were adjusted to minimize the duration and amount of gas flared and still allow the vessels to perform safely. |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | Not Applicable                                                                                                                      |
