Cause of Release

NexGen Water Solutions, LLC had a water transfer hose come out of the pond as they report they were pigging the line pushing water back into the pond. Once discovered, the line pump was turned off stopping the release. The area impacted by the release was approximately 300 feet long by 1- 8 feet wide, totaling approximately 900 sq feet.

NexGen was working on behalf of Franklin Mountain Energy, LLC and Solaris Water, LLC. NexGen took responsibility for the release and then indicated they could not report the release as they lack an OGRID number and NMOCD would not provide them with this number for reporting purposes. After conversations with the OCD Artesia office, the OCD position was clarified regarding water transfer companies and reporting releases.

Was this a major release as defined by 19.15.29.7(A) NMAC? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If YES, for what reason(s) does the responsible party consider this a major release? Approximatley 150 BBLs was released.
If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)? NexGen took resposibility for the release. Upon clarification from the OCD Artesia office, Solaris reported the release via the NMOCD web portal and via submittal of form C-141.	

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

<input checked="" type="checkbox"/> The source of the release has been stopped. <input checked="" type="checkbox"/> The impacted area has been secured to protect human health and the environment. <input checked="" type="checkbox"/> Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. <input checked="" type="checkbox"/> All free liquids and recoverable materials have been removed and managed appropriately.
If all the actions described above have <u>not</u> been undertaken, explain why:
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
