By Whom? Mike McMahan, Asst. Production Foreman	Date and Hour Shelly Tucker, BLM September 20, 2016 @ 4:00 PM Mike Bratcher, OCD September 20, 2016 @ 4:05 PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse N/A	

If a Watercourse was Impacted, Describe Fully.\*  
N/A

## Describe Cause of Problem and Remedial Action Taken.\*

Due to erosion the main steel transfer line for the Salt Water Disposal developed a hole. The line was immediately shut in to stop the release. Repairs have been made and the line is back in service.

## Describe Area Affected and Cleanup Action Taken.\*

Approximately 15bbls produced water was released in the right of way from the produced water transfer line that carries water to the Cotton Draw Unit SWD 181. This part of the transfer line is located nearest to the Cotton Draw Unit 167H Battery. All fluid stayed in the right of way in approximately an 80'x45' area. 0bbls produced water was recovered from the right of way. An environmental agency will be contacted for remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
