

# Monthly Meter Analysis

May, 2021

EnLink Midstream

Meter #: 972006

Name: GHOST RIDER CTB

## Sample

Date: 01/29/2020

Type: Composite

Pressure: 35.0 H2O: 0.00 lbs/mm

Temperature: 55.0 H2S: 0 ppm

| Component             | Mole %          | Liquid Content | Mass %          |
|-----------------------|-----------------|----------------|-----------------|
| Carbon Dioxide, CO2   | 1.1760          |                | 1.7973          |
| Nitrogen, N2          | 0.5090          |                | 0.4952          |
| Methane, C1           | 52.9310         |                | 29.4889         |
| Ethane, C2            | 20.8380         | 5.5984         | 21.7596         |
| Propane, C3           | 13.6750         | 3.7847         | 20.9411         |
| Isobutane, iC4        | 1.7900          | 0.5884         | 3.6130          |
| n-Butane, nC4         | 4.7030          | 1.4895         | 9.4928          |
| Isopentane, iC5       | 1.2110          | 0.4449         | 3.0342          |
| n-Pentane, nC5        | 1.4280          | 0.5200         | 3.5779          |
| Hexanes, C6           | 0.7980          | 0.3297         | 2.3882          |
| Heptanes, C7          | 0.7060          | 0.3272         | 2.4567          |
| Octanes, C8           | 0.1880          | 0.0968         | 0.7458          |
| Nonanes, C9           | 0.0470          | 0.0266         | 0.2093          |
| Decanes Plus, C10+    | 0.0000          | 0.0000         | 0.0000          |
| Water, H2O            |                 |                |                 |
| Hydrogen Sulfide, H2S | 0.0000          |                | 0.0000          |

QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 12/06/2022 |
| Time vent or flare was discovered or commenced | 07:00 AM   |
| Time vent or flare was terminated              | 09:00 AM   |
| Cumulative hours during this event             | 2          |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                         |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                           |
| Natural Gas Flared (Mcf) Details                                          | Cause: High Line Pressure   Producing Well   Natural Gas Flared   Released: 244 Mcf   Recovered: 0 Mcf   Lost: 244 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                           |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                           |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                              |

| Venting or Flaring Resulting from Downstream Activity             |                                         |
|-------------------------------------------------------------------|-----------------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                                     |
| Was notification of downstream activity received by this operator | No                                      |
| Downstream OGRID that should have notified this operator          | [320009] ENLINK MIDSTREAM OPERATING, LP |
| Date notified of downstream activity requiring this vent or flare | Not answered.                           |
| Time notified of downstream activity requiring this vent or flare | Not answered.                           |

| Steps and Actions to Prevent Waste                                                                                               |                                             |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                        |
| Please explain reason for why this event was beyond this operator's control                                                      | enlink plant problems causing HLP           |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | only flare for safety reasons caused by HLP |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | only flare due to HLP                       |
