QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 05/08/2024 |
| Time vent or flare was discovered or commenced | 12:00 AM   |
| Time vent or flare was terminated              | 11:59 PM   |
| Cumulative hours during this event             | 24         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                        |
|---------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                          |
| Natural Gas Flared (Mcf) Details                                          | Cause: Repair and Maintenance   Gas Plant   Natural Gas Flared   Released: 935 Mcf   Recovered: 0 Mcf   Lost: 935 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                          |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                          |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                             |

| Venting or Flaring Resulting from Downstream Activity             |                                      |
|-------------------------------------------------------------------|--------------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                                  |
| Was notification of downstream activity received by this operator | Yes                                  |
| Downstream OGRID that should have notified this operator          | [24650] TARGA MIDSTREAM SERVICES LLC |
| Date notified of downstream activity requiring this vent or flare | 04/08/2024                           |
| Time notified of downstream activity requiring this vent or flare | 10:00 AM                             |

| Steps and Actions to Prevent Waste                                                                                               |                                                                                                                                                                    |
|----------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | False                                                                                                                                                              |
| Please explain reason for why this event was beyond this operator's control                                                      | Although the Targa Monument Plant shut down is beyond operator's control, 3RO has included emissions represented in their air permit to include pipeline downtime. |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | None by the operator. Targa Monument Plant will complete any repairs or maintenance and resume operations as soon as possible.                                     |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | None by operator. Plant shut down is out of their control and is normal part of operations.                                                                        |
