 Completions Commercial/Reclamation*

Waste Description (Check only one box): RCRA Exempt RCRA Non-Exempt*
 Water Based Cuttings Water Based Mud Contaminated Soil Produced Sands
 Oil Based Cuttings Oil Based Mud Non-injectable Fluids PIR Liners
 Other: _____ Tank Bottoms* Injectable Fluids

*RCRA NON-EXEMPT Non-Designated Waste and/or Commercial/Reclamation Facility Wastes will require analytical and pre-approval from WM prior to shipment. The reverse side of this manifest includes a summary of the RCRA Hazardous Waste exclusion for Exploration and Production wastes and applicable regulatory requirements under the Texas Railroad Commission.

Authorize Washout? Yes No **PARTY TO BE INVOICED (CIRCLE ONE):**
 Generator Solids Control Group Transporter

CERTIFICATION: I hereby certify that the above-described waste materials are generated only in Texas and are fully subject to the jurisdiction of the Railroad Commission of Texas (RRC). All waste shipped under this profile is Non-Hazardous due to regulatory exclusion under 40 CFR 261.43(c), Subtitle C of the Resource Conservation and Recovery Act (RCRA) and has been fully and accurately described, classified, and packaged for transportation according to applicable laws and regulations. All information contained herein, and any/all attached documents are a true, complete, and accurate description of the waste material being offered for disposal and all necessary information has been provided to establish compliance with the RRC oil and gas regulations. The waste is not an OHC Oil and Gas NORM Waste (i.e., waste does not exceed 30 picocuries per gram of Radium-226 combined with Radium-228, or 150 picocuries per gram of any other radionuclide). Any change in information regarding the nature or character of the material offered for disposal (i.e., changes in the process or new analytical data) will be identified by the Generator or Authorized Agent and will be disclosed to Waste Management prior to providing the waste material to Waste Management.

QUESTIONS

Action 353796

QUESTIONS

Operator: CIMAREX ENERGY CO. 6001 Deauville Blvd Midland, TX 79706	OGRID: 215099
	Action Number: 353796
	Action Type: [C-141] Initial C-141 (C-141-v-Initial)

QUESTIONS

Prerequisites	
Incident ID (n#)	nAPP2415878197
Incident Name	NAPP2415878197 BLACK RIVER - JOHN D FOREHAND RD CROSSING @ 0
Incident Type	Oil Release
Incident Status	Initial C-141 Received

Location of Release Source

Please answer all the questions in this group.

Site Name	Black River - John D Forehand Rd Crossing
Date Release Discovered	06/06/2024
Surface Owner	Private

Incident Details

Please answer all the questions in this group.

Incident Type	Oil Release
Did this release result in a fire or is the result of a fire	No
Did this release result in any injuries	No
Has this release reached or does it have a reasonable probability of reaching a watercourse	Yes
Has this release endangered or does it have a reasonable probability of endangering public health	No
Has this release substantially damaged or will it substantially damage property or the environment	No
Is this release of a volume that is or may with reasonable probability be detrimental to fresh water	Yes

Nature and Volume of Release

Material(s) released, please answer all that apply below. Any calculations or specific justifications for the volumes provided should be attached to the follow-up C-141 submission.

Crude Oil Released (bbls) Details	Not answered.
Produced Water Released (bbls) Details	Not answered.
Is the concentration of chloride in the produced water >10,000 mg/l	No
Condensate Released (bbls) Details	Not answered.
Natural Gas Vented (Mcf) Details	Not answered.
Natural Gas Flared (Mcf) Details	Not answered.
Other Released Details	Cause: Human Error Transport Drilling Mud/Fluid Released: 72 BBL Recovered: 72 BBL Lost: 0 BBL.
Are there additional details for the questions above (i.e. any answer containing Other, Specify, Unknown, and/or Fire, or any negative lost amounts)	RBP Hauling was contracted by Waste Management to haul drill cuttings from the White City 8-17-20 Fed Com 1H. For reasons unknown at the time, the truck hauling an estimated 15 cubic yards of drill cuttings flipped going down towards the Black River crossing. All of the cuttings in the roll-off box released onto the road way and the Black River bank. Upon arriving onsite, Cimarex personnel deployed oil sorbent booms into the water. An emergency one-call was placed and a surface scrape was performed to remove impacted soils and brush along the road and river bank. All impact was hauled to Waste Management disposal. There appears to be no signs of cuttings entering the waterway or impact to the waterway at this time. An environmental consultant will be contacted and soil remediation will take place in the coming weeks.

QUESTIONS, Page 2

Action 353796

QUESTIONS (continued)

Operator: CIMAREX ENERGY CO. 6001 Deauville Blvd Midland, TX 79706	OGRID: 215099
	Action Number: 353796
	Action Type: [C-141] Initial C-141 (C-141-v-Initial)

QUESTIONS

Nature and Volume of Release (continued)	
Is this a gas only submission (i.e. only significant Mcf values reported)	No, according to supplied volumes this does not appear to be a "gas only" report.
Was this a major release as defined by Subsection A of 19.15.29.7 NMAC	Yes
Reasons why this would be considered a submission for a notification of a major release	From paragraph A. "Major release" determine using: (1) an unauthorized release of a volume, excluding gases, of 25 barrels or more; (2) an unauthorized release of a volume that: (b) may with reasonable probability reach a watercourse; (4) a release of a volume that may with reasonable probability be detrimental to fresh water.
<i>With the implementation of the 19.15.27 NMAC (05/25/2021), venting and/or flaring of natural gas (i.e. gas only) are to be submitted on the C-129 form.</i>	

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury.

The source of the release has been stopped	True
The impacted area has been secured to protect human health and the environment	True
Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices	True
All free liquids and recoverable materials have been removed and managed appropriately	True
If all the actions described above have not been undertaken, explain why	Not answered.

Per Paragraph (4) of Subsection B of 19.15.29.8 NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please prepare and attach a narrative of actions to date in the follow-up C-141 submission. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see Subparagraph (a) of Paragraph (5) of Subsection A of 19.15.29.11 NMAC), please prepare and attach all information needed for closure evaluation in the follow-up C-141 submission.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

I hereby agree and sign off to the above statement	Name: Laci Luig Title: ES&H Specialist Email: DL_PermianEnvironmental@coterra.com Date: 06/13/2024

QUESTIONS, Page 3

Action 353796

QUESTIONS (continued)

Operator: CIMAREX ENERGY CO. 6001 Deauville Blvd Midland, TX 79706	OGRID: 215099
	Action Number: 353796
	Action Type: [C-141] Initial C-141 (C-141-v-Initial)

QUESTIONS

Site Characterization
 Please answer all the questions in this group (only required when seeking remediation plan approval and beyond). This information must be provided to the appropriate district office no later than 90 days after the release discovery date.

What is the shallowest depth to groundwater beneath the area affected by the release in feet below ground surface (ft bgs)	Not answered.
What method was used to determine the depth to ground water	Not answered.
Did this release impact groundwater or surface water	Not answered.
What is the minimum distance, between the closest lateral extents of the release and the following surface areas:	
A continuously flowing watercourse or any other significant watercourse	Not answered.
Any lakebed, sinkhole, or playa lake (measured from the ordinary high-water mark)	Not answered.
An occupied permanent residence, school, hospital, institution, or church	Not answered.
A spring or a private domestic fresh water well used by less than five households for domestic or stock watering purposes	Not answered.
Any other fresh water well or spring	Not answered.
Incorporated municipal boundaries or a defined municipal fresh water well field	Not answered.
A wetland	Not answered.
A subsurface mine	Not answered.
An (non-karst) unstable area	Not answered.
Categorize the risk of this well / site being in a karst geology	Not answered.
A 100-year floodplain	Not answered.
Did the release impact areas not on an exploration, development, production, or storage site	Not answered.

Remediation Plan	
Please answer all the questions that apply or are indicated. This information must be provided to the appropriate district office no later than 90 days after the release discovery date.	
Requesting a remediation plan approval with this submission	No
The OCD recognizes that proposed remediation measures may have to be minimally adjusted in accordance with the physical realities encountered during remediation. If the responsible party has any need to significantly deviate from the remediation plan proposed, then it should consult with the division to determine if another remediation plan submission is required.
