Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control	True
Please explain reason for why this event was beyond this operator's control	Battery was destroyed in a fire & wells were shut in. Reconstruction has been delayed due to clean up plan approval needed by NMOCD. BTA must show oil production from wells to keep the lease from expiring. There is no sales point to sell gas until the battery is reconstructed.
Steps taken to limit the duration and magnitude of vent or flare	The wells will only be produced long enough to avoid expiration of the lease.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	Once the lease is extended, this will give BTA enough time to complete reconstruction of the battery and sell gas again.
