Legal Notice**PUBLIC NOTICE****STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION**

Notice is hereby given that pursuant to New Mexico Energy, Minerals and Natural Resources Department, Oil Conservation Division (19.15.30.15 NMAC), the following Stage 2 Abatement Plan has been submitted to the New Mexico Oil Conservation Division ("OCD") Environmental Bureau, 1220 S. Saint Francis in Santa Fe, New Mexico 87505, Telephone (505) 490-0798 or E-mail: michael.chanan@emnrd.nm.gov.

HF Sinclair Navajo Refining LLC, PO Box 159, Artesia, NM has submitted a Stage 2 Abatement Plan (AP) to the Permitting Group of the OCD for the Former Reverse Osmosis (RO) Discharge Reject Fields at the Artesia Refinery. The exact location of the facility is/will be at latitude and longitude decimal degrees: 32.853099°, -104.389493° Datum: NAD83. To aid in locating this facility, the approximate location is 501 E Main St in Artesia NM, Eddy County. The Former Reverse Osmosis Discharge Reject Fields are located north, northeast and east of the intersection of E Logan Avenue and Navajo Road in Artesia.

HFSNR utilizes RO to remove minerals and salts from fresh water prior to use in the refining process. The fresh water is supplied from a blend of publicly supplied water from the City of Artesia and fresh groundwater obtained from the Refinery's water supply wells. The treated water (permeate stream) is used in the Refinery process while the RO reject stream cannot be used in the Refinery process as it contains concentrated salts and minerals that do not pass through the RO membranes. Prior to January 24, 2019, this concentrated rejected stream was discharged to the surface of two fields located northeast of the Refinery operations area. The RO reject discharge fields are covered with native grass and discharged water was allowed to percolate or evaporate in those permitted areas. The discharge was performed under the jurisdiction of the OCD in accordance with Discharge Permit GW-028, which was initially issued in October 1991. The Permit has subsequently been modified and renewed several times with the most recent renewal issued in August 2022.

The Stage 2 AP includes remedial alternatives focused on removal of fluoride (and potentially other inorganics) from shallow soil and/or groundwater or removal of the potential infiltration pathway. The Stage 2 AP includes the installation of two additional shallow groundwater monitoring wells, semi-annual groundwater monitoring for a period of at least 3 years, and the design and implementation of a phytoremediation pilot study of the RO Discharge Reject Fields to reduce contaminant concentrations in soil and groundwater. It is anticipated that the tasks associated with the Stage 2 AP will be completed during the period between May 2024 and March 2026. The Stage 2 AP addresses well installation, construction and development, groundwater monitoring, potential remediation alternatives, details regarding the phytoremediation pilot study design and implementation, a proposed schedule, reporting, and a closure/post-closure plan.

The OCD has determined the Stage 2 AP is complete. The OCD will accept comments and statements of interest regarding this work plan and will create a facility-specific mailing list for persons who wish to receive future notices. Persons interested in obtaining further information, submitting comments or requesting to be on a facility-specific mailing list may contact the OCD Environmental Bureau at the address given above. The permit may be viewed at the Artesia OCD located at 506 W. Texas, Artesia, New Mexico 88210 between 7:00 a.m. and 5:00 p.m., Monday through Friday, or at the OCD web site <http://www.emnrd.nm.us/ocd/>. Persons interested in obtaining a copy of the Stage 2 AP may contact the OCD at the address given above. Prior to ruling on any proposed permit, the Director shall allow a period of at least sixty (60) days after the date of publication of this notice, during which interested persons may submit comments or request that the OCD hold a public meeting or hearing. Requests for a hearing shall set forth the reasons why a meeting or hearing should be held. A hearing will be held if the Director determines there is a significant public interest. If no hearing is held,
