Paul,

An OCD field inspection was made on Strata's Chaparral State 1 site today. The attached photos are of what was observed. If the release volume was in excess of 5 bbls fluid, and/or 50 mcf gas, please send an Initial Report Form C-141. If less than 5 bbls, a C-141 is not required, however, OCD would ask that Strata advise OCD what the plan for clean-up will be.

Thank you,

Mike Bratcher

Attached are some pictures of the Chaparral State #001. API 30-015-22028. It appears they had a release. There is oil spray over a large part of location, the pasture and also some run off downhill of location.

Thanks,

Gilbert Cordero

Paul,

We will need analytical data from the release site before this can be closed out. Please advise once a sampling event has been scheduled.

Thank you,

Mike Bratcher

Mike,
Dwight tells me the cleanup is complete. I have attached a C-141 per your request.
Thanks,
Paul
