Denis,

Please see the attached photos from the East Shugart Unit Wells number 27, 39, and 46. All three of these releases will require a Form C-141 and a work plan, based on analytic data, detailing how Agua Sucia intends to clean them up. Your C-141 is due 15 days from the date of discovery of the release. The BLM is copied in this email since this involves federal lands.

If you have any questions, please contact me.

Attached are some pictures of the ESU 27 – Had a release with oil in the cellar.
ESU 39 had a release with staining around location and the well head.
ESU 46 is a starting point. The release is west of location.

I recently did an inspection too and I think I have a couple more to add to this list...I was working on sending out the INC's on the ones I found.

If you have any questions or concerns, please do not hesitate to contact me.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Attached are some pictures of the ESU 27 and ESU 39 that I took today. The ESU 27 had a truck on location that pulled about 20 BBLS of fluid. And the ESU 39 had a backhoe and dump truck picking up some of the contaminated material.

Heather,

I am just confirming that you received all the C141s relating to the East Shugart lease that you requested. Wells 27, 39 and 46. I assure you this is being addressed and will be resolved to your satisfaction.

Please let me know if there is anything else you need and I will devote time and effort to cure the problems. In addition, I will do my best to make sure this does not happen again. Changes will be made!
