**CHROMATOGRAPH EXTENDED ANALYSIS - GPA 2286**

| COMPONENT           | MOL%         | GPM          |
|---------------------|--------------|--------------|
| Hydrogen Sulfide*   | 0.950        |              |
| Nitrogen            | 0.423        |              |
| Carbon Dioxide      | 74.570       |              |
| Methane             | 3.310        |              |
| Ethane              | 4.950        | 1.362        |
| Propane             | 6.082        | 1.724        |
| Isobutane           | 1.191        | 0.401        |
| n-Butane            | 3.525        | 1.143        |
| 2-2 Dimethylpropane | 0.028        | 0.011        |
| Isopentane          | 1.201        | 0.452        |
| n-Pentane           | 1.216        | 0.453        |
| Hexanes             | 0.964        | 0.408        |
| Heptanes Plus       | <u>1.590</u> | <u>0.663</u> |
| Totals              | 100.000      | 6.618        |

**Computed Real Characteristics Of Heptanes Plus:**

Specific Gravity ----- 3.404 (Air=1)  
Molecular Weight ----- 97.73  
Gross Heating Value ----- 5229 BTU/CF

**Computed Real Characteristics Of Total Sample:**

Specific Gravity ----- 1.562 (Air=1)  
Compressibility (Z) ----- 0.9912  
Molecular Weight ----- 44.85  
Gross Heating Value  
Dry Basis ----- 680 BTU/CF  
Saturated Basis ----- 669 BTU/CF

\*Hydrogen Sulfide tested on location by: Stain Tube Method (GPA 2377)  
Results: 597.5 Gr/100 CF, 9500 PPMV or 0.950 Mol %

Base Conditions: 15.025 PSI & 60 Deg F

Sampled By: (14) T. Chapman  
Analyst: LG  
Processor: DS

**QUESTIONS**

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 03/24/2025 |
| Time vent or flare was discovered or commenced | 12:00 AM   |
| Time vent or flare was terminated              | 11:59 PM   |
| Cumulative hours during this event             | 24         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                                           |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                                             |
| Natural Gas Flared (Mcf) Details                                          | Cause: Midstream Emergency Maintenance   Other (Specify)   Natural Gas Flared   Released: 2,139 Mcf   Recovered: 0 Mcf   Lost: 2,139 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                                             |
| Additional details for Measured or Estimated Volume(s). Please specify    | FLARE                                                                                                                                     |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                                                |

| Venting or Flaring Resulting from Downstream Activity             |                                              |
|-------------------------------------------------------------------|----------------------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                                          |
| Was notification of downstream activity received by this operator | Yes                                          |
| Downstream OGRID that should have notified this operator          | [706273] El Paso Natural Gas Company, L.L. C |
| Date notified of downstream activity requiring this vent or flare | 03/18/2025                                   |
| Time notified of downstream activity requiring this vent or flare | 01:11 PM                                     |

| Steps and Actions to Prevent Waste                                                                                              |                                                |
|---------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control | True                                           |
| Please explain reason for why this event was beyond this operator's control                                                     | EPNG line number 3051 anomaly requiring repair |
| Steps taken to limit the duration and magnitude of vent or flare                                                                | SI where possible or bypass flow               |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                               | EPNG to repair line number 3051                |

|                                     |                                                                                                                                                                                                                                                                                                     |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input checked="" type="checkbox"/> | I acknowledge that with this application I will be amending an existing incident file (assigned to this operator) for a vent or flare event, pursuant to 19.15.27 and 19.15.28 NMAC.                                                                                                                |
| <input checked="" type="checkbox"/> | I acknowledge that amending an incident file does not replace original submitted application(s) or information and understand that any C-129 forms submitted to the OCD will be logged and stored as public record.                                                                                 |
| <input checked="" type="checkbox"/> | I hereby certify the statements in this amending report are true and correct to the best of my knowledge and acknowledge that any false statement may be subject to civil and criminal penalties under the Oil and Gas Act.                                                                         |
| <input checked="" type="checkbox"/> | I acknowledge that the acceptance of any C-129 forms by the OCD does not relieve this operator of liability should their operations have failed to adequately investigate, report, and remediate contamination that poses a threat to groundwater, surface water, human health, or the environment. |
| <input checked="" type="checkbox"/> | I acknowledge that OCD acceptance of any C-129 forms does not relieve this operator of responsibility for compliance with any other applicable federal, state, or local laws and/or regulations.                                                                                                    |
