<i>Please answer all the questions in this group.</i>	
Incident Cancel Reason	Duplicate incident; reported more than once
What is the incident id (n#) that should cause this incident to be cancelled	nPAC0726037121 EVGSAU INJECTION HEADER #4
Please provide any additional details on why this incident should be cancelled	Per Shelly Wells "I agree that the two incidents appear to be duplicates, having the same date of discovery, same type of spill, same volume released, same PLSS location, however as a remediation plan was previously submitted by COG and denied on 3/17/23 for incident nPAC0726037121 EVGSAU INJECTION HEADER #4, that is the incident number that will need to remain open. Impacts were found at this site with the remediation plan being rejected as it did not address remediation of the lease road."
