Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	On March 9, 2026, Targa Resources Corp. notified us that they would be curtailing all gas intake to the Campo Viejo Gas Processing Plant due to an unplanned downstream interruption. As a result of this curtailment, gas takeaway capacity from our operations has been temporarily impacted. We are currently awaiting an official Force Majeure letter from Targa, as well as additional information regarding the anticipated duration of the interruption. We will provide further updates as they become available.
Steps taken to limit the duration and magnitude of vent or flare	Worked with midstream to get gas back in to plant as soon as possible.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	No way to avoid periodic downtime for maintenance / repairs to address unforeseen conditions.
