MRC has drilled 12 wells on the Golden Bell project to date and is targeting its last round of development on certain upside targets. MPC is also completing a test well on a nearby project and believes it would be best practice to monitor the production from this ongoing test well wells to inform how MPC should continue its development on the Golden Bell project. Both APD's are set to expire 5/17/2026. As a result, a 24-month extension is requested to prudently develop the remainder of the Golden Bell project and reduce waste.
