Michael E. Stogner
Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Dear Mr. Stogner:

Pursuant to Division Rule 104.F.(2), Bass Enterprises Production Co. ("Bass") applies for administrative approval of an unorthodox gas well location for the following well:

<u>Well:</u>	Poker Lake Unit Well No. 198
<u>Location:</u>	2310 feet FSL & 500 feet FWL
<u>Well Unit:</u>	W½ of Section 34, Township 24 South, Range 31 East, N.M.P.M., Eddy County, New Mexico

The well will be drilled to test the Morrow formation (Undesignated Poker Lake-Morrow Gas Pool). Attached as Exhibit A is a Form C-102. The pool is developed on statewide rules, with 320 acre spacing and wells to be located no closer than 660 feet to a quarter section line.

The location is based on geological considerations. Attached as Exhibit B is a portion of a Wolfcamp time structure map. The depth (in descending order) is blue/green/yellow/red. The preferable (lower) location is in the west side of the NW¼SE¼ of Section 34.

The well unit is within the Poker Lake Unit, operated by Bass. The W½ §34,¹ and the offsetting Section 33, are all federal land, and are fully committed to the unit. The leases, as to the Morrow formation, are 100% owned by Bass, and royalty interests are common. As a result, **there is no adversely affected party who must be notified of the application.** See Exhibit C.

¹The NW¼ §34 is one federal lease, and the SW¼ §34 is a separate federal lease.

8:15 AM 1-9-2004
Met w/ Jim Bruce
both Wells No. 196 and 198
are to include Wolfcamp
interval. Will submit
an amended request to
clarify this application.
JMS.

Please call me if you need any further information on this matter.

Very truly yours,

A handwritten signature in cursive script, appearing to read "James Bruce". The signature is written in dark ink and is positioned above the printed name.

2:00 PM (1-8-2004)

I called Jim Bruce about the lack of information for their application. I told him that I'd go ahead and process the 196 if they provide me w/ adequate data about the Morrow interval.

MEMO: Enclosed are APD's for the Bass/Poker Lake Unit well Nos. 196 and 198. As you can see, the wells were permitted deep enough to test the Morrow, but I was told this morning that they are to be completed in the Wolfcamp. I will formally amend the applications when I get back from Tierra Amarilla.

I looked up Doug Booth in my other books, but could find zero information.
