RE: Waiver of Objection for Location

Pecos Production Company is making application to drill the subject wellbore to test the deeper Pennsylvanian formation. Since the location of 2,310' FNL and 1,978' FEL of Section 21, T-14-S, R-34-E, does not comply with current OCD rules, as it pertains to the upper Pennsylvanian formation which requires a 660' setback from quarter section lines. As a mineral interest owner in lands affected by the proposed location, a waiver of objection to this location is required.

If you have no objection, please sign and return the attached form as soon as possible. Your assistance is greatly appreciated.

Yours very truly,

PECOS PRODUCTION COMPANY
