Yolanda

1. This new APD is not an amended APD. It is a plug back C-101, since the original target was the Morrow formation and it tested dry. Now you are plugging back the Morrow formation (Plugging off the Morrow I hope) to complete the well up hole.

2. I can not authorize this well to be tested since it is a NSL. Any exceptions can only be granted by the District Supervisor, Chris Williams or Michael Stogner. I do not think they will grant an exception, since this well could of been drilled at a standard location. A prudent operator would have drilled this well at a location that was standard for both oil and gas.

Subject: KG 35 State #1 NSL

Paul,

Here is a draft on what I will submit for the NSL to Michael. Can you please take a look and let me know what you think. Your help is greatly appreciated!!

I have had about 3 people ask me if we can get temporary clearance to test the well to see if it even warrants a NSL. I keep telling them no because we're not suppose to even produce the well unless we have NSL approval. Since we are our own offset and the interest is the same in SE/4 of Sec.35 and there are no other wells in that pool in the area, is temporary clearance even an option?

<<KG 35 State #1 NSL.doc>>

Sincerely,
Yolanda Perez
