Attention: Mr. Darol K. Ramey

Re: Administrative Order DHC-73

Gentlemen:

It was noticed that the decline curves of your Art Yeager No. 1 were of different scales until receipt of your letter dated December 4, 1970. The percentages for assignment of allowable and allocation of production have been recomputed to be 90% Wantz-Abo and 10% Drinkard. A corrected copy of the order is enclosed.

Very truly yours,

J. E. KAPTEINA  
Petroleum Engineer
