Getty Oil Company  
P. O. Box 249  
Hobbs, New Mexico 88240

Attention: Mr. C. L. Wade

Administrative Order No. DHC-83  
Coates "C" Well No. 25  
Unit A, Section 24, Township 25  
South, Range 37 East, NMPM,  
Justis Blinebry and Justis Tubb-  
Drinkard

Gentlemen:

Reference is made to your recent application for an excep-  
tion to Rule 303-A of the Commission Rules and Regulations  
for the subject dually completed well to permit the re-  
moval of the down-hole separation equipment and to commingle  
the production from both pools in the well-bore.

It appearing that the subject well qualifies for approval  
for such exception pursuant to the provisions of Rule 303-C,  
and that reservoir damage or waste will not result from  
such down-hole commingling, and correlative rights will not  
be violated thereby, you are hereby authorized to commingle  
the production as described above and Commission Order No.  
MC-1278, which authorized the dual completion and required  
separation of the zones, is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C, total  
commingled oil production from the subject well shall not  
exceed 30 barrels per day, and total water production from  
the well shall not exceed 60 barrels per day. The maximum  
amount of gas which may be produced daily from the well shall  
be determined by multiplying 2000 by top unit allowable for  
the Justis Tubb-Drinkard Pool.

OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO 87501

-2-

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Upper Pool: 40%

Lower Pool: 60%

Pursuant to Rule 303-C, 5, the commingling authority granted by this order may be rescinded by the Secretary-Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director
