Attention: J. V. Gannon

Administrative Order No. DHC-150  
A. H. Blinebry Federal (NCT-2)  
No. 2, Unit N, Section 29, Town-  
ship 22 South, Range 38 East,  
NMPM, Lea County, New Mexico,  
Blinebry and Drinkard Pools.

Gentlemen:

Reference is made to your recent application for an excep-  
tion to Rule 303-A of the Commission Rules and Regulations  
for the subject well and permission to commingle the produc-  
tion from both pools in the well-bore.

It appearing that the subject well qualifies for approval  
for such exception pursuant to the provisions of Rule 303-C,  
and that reservoir damage or waste will not result from  
such down-hole commingling, and correlative rights will not  
be violated thereby, you are hereby authorized to commingle  
the production as described above.

In accordance with the provisions of Rule 303-C, total com-  
mingled oil production from the subject well shall not exceed  
50 barrels per day, and total water production from the well  
shall not exceed 100 barrels per day. The maximum amount of  
gas which may be produced daily from the well shall be de-  
termined by multiplying 6000 by top unit allowable for the  
Drinkard Pool.

Assignment of allowable to the well and allocation of produc-  
tion from the well shall be on the following basis:

Upper Pool: 64%  
Lower Pool: 36%

-2-

Pursuant to Rule 303-C 5, the commingling authority granted by this order may be rescinded by the Secretary-Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director
