Application for Non-Standard Well Location  
Gallegos Canyon Unit Well No. 174 API # 30-045-07165  
SW/4 Section 28-T28N-R12W  
Kutz Pictured Cliffs, West Pool  
San Juan County, New Mexico

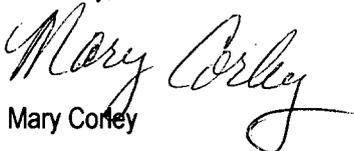

BP America Production Company respectfully requests an administrative approval for a non-standard well location for the Gallegos Canyon Unit Well No. 174 to be recompleted into the Kutz Pictured Cliffs, West Pool. The subject well was drilled by Pan American Petroleum Company in 1964 at a standard well location for the Basin Dakota Pool on a 320 acre stand-up unit. It is our intent to abandon the Dakota which has ceased to produce and recomplete into the Pictured Cliffs the only remaining productive zone within the subject well.

The spacing unit for this well is the SW/4 Section 28 as shown on attached C-102.

BP America Production Company operates both the SW/4 and the NW/4 (affected offset tract) and the working interest partners are identical between these two quarter sections. Working interest partners for both tracts and their working interest are indicated on the attachment.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

  
Mary Corley
