Attention: L. P. Thompson

Administrative Order No. DHC-313
Britt B. No. 26, Unit M, Section 15,
Township 20 South, Range 37 East, NMPM,
Lea County, New Mexico, Monument
Paddock Pool and Monument Tubb Pool

(30-025-26486)

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations for the subject well to permit the commingling of the production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative riths will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Rule 303-C, total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by top unit allowable for the Monument Paddoci Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Upper Pool: 75%, Gas 100%
Lower Pool: 25%, Gas 0%

Pursuant to Rule 303-C 5, the commingling authority granted by this

order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

JOE D. RAMEY
Division Director
