RE: Application for Administrative Approval of Unorthodox Location
XTO Energy Inc.'s Jack Frost "B" #2F Well
1,615' FWL and 1,965' FNL (SE/4 NW/4)
Unit F, Section 27, T27N-R10W
San Juan County, New Mexico
Angel Peak Gallup

Dear Mr. Stogner:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Ownership map
3. Production map for Angel Peak Gallup

XTO Energy Inc. has permitted a well to be drilled to the Basin Dakota formation, which is the primary objective, and is spaced as the N/2 320 acre unit. The Dakota formation is at a standard location for the N/2 320 acre spaced unit. The well was placed at this footage to obtain the maximum distance from the base Dakota well in the Quarter section while staying at a standard location for the Dakota. When moving up the wellbore to test the 80 acre spaced Angel Peak Gallup oil formation, the location becomes a non-standard location. XTO Energy Inc. would like to be able to produce all of the productive formations from the one wellbore at the above captioned location.

XTO Energy Inc. owns 50% working interest in both the 320 acre unit as well as the 80 acre unit. XTO operates all of the Angel Peak Gallup offset wells listed on the production map. There are no offset owners to notify. Based on the above information, XTO would like to request the administrative approval for this unorthodox location. Should you need any additional information please feel free to contact me at (817) 885-2454.

Sincerely,
XTO ENERGY INC.

George A. Cox, CPL
