**Subject:** RE: NSP-1881

Mr. Stogner-Question-Lance's F-RPC 19 #2 well (API # 30-045-32626) which was approved by the BLM on 11-18-04, and Adm. Order for NSP bu NMOCD approved on 11-4-04, was spud last week and has encountered downhole problems. The location will need to be moved slightly (will still be legal for PC and FC). The PC proration unit will be the NW/4 of Section 19. We are preparing to resurvey tom. to get a new C-102 and get a new APD to the BLM for their approval. We anticipate moving approximately 50' or so the north. Will I need to re-notify the surrounding working interest owners etc. of the new location as the NSP will not actually change? Your input is needed as the rig is on location. If we need to re-notify the rig can move to another permitted well. Thanks Mike for your help on this one. Paul

*6:20 PM  
left a voice mail  
message.  
- notification or an  
answered NSP  
is not necessary  
since the seabed is  
being moved to  
another standard PC  
location.  
- I asked Paul  
to prepare one  
a copy  
of the  
amended APD  
and C-102  
whereby all  
owners consent the  
Adm. Order  
to correctly  
show this  
change.*
