DHC 1104AZ

Gentlemen:

Attached is a copy of the allocation for the subject well that was completed 8/27/03. DHC-1104az was issued for this well.

Gas: Pictured Cliffs 10%
Mesaverde 90%

Oil: Pictured Cliffs 10%
Mesaverde 90%

These percentages are based upon isolated flow tests from the Chacra and Mesaverde formations during completion operations. Oil was not present during flow test operations. For that reason, oil percentages are based upon gas allocation and are provided in the event this wellbore begins producing oil at some point in the future.

Please let me know if you have any questions.

Sincerely,

Nancy Oltmanns
